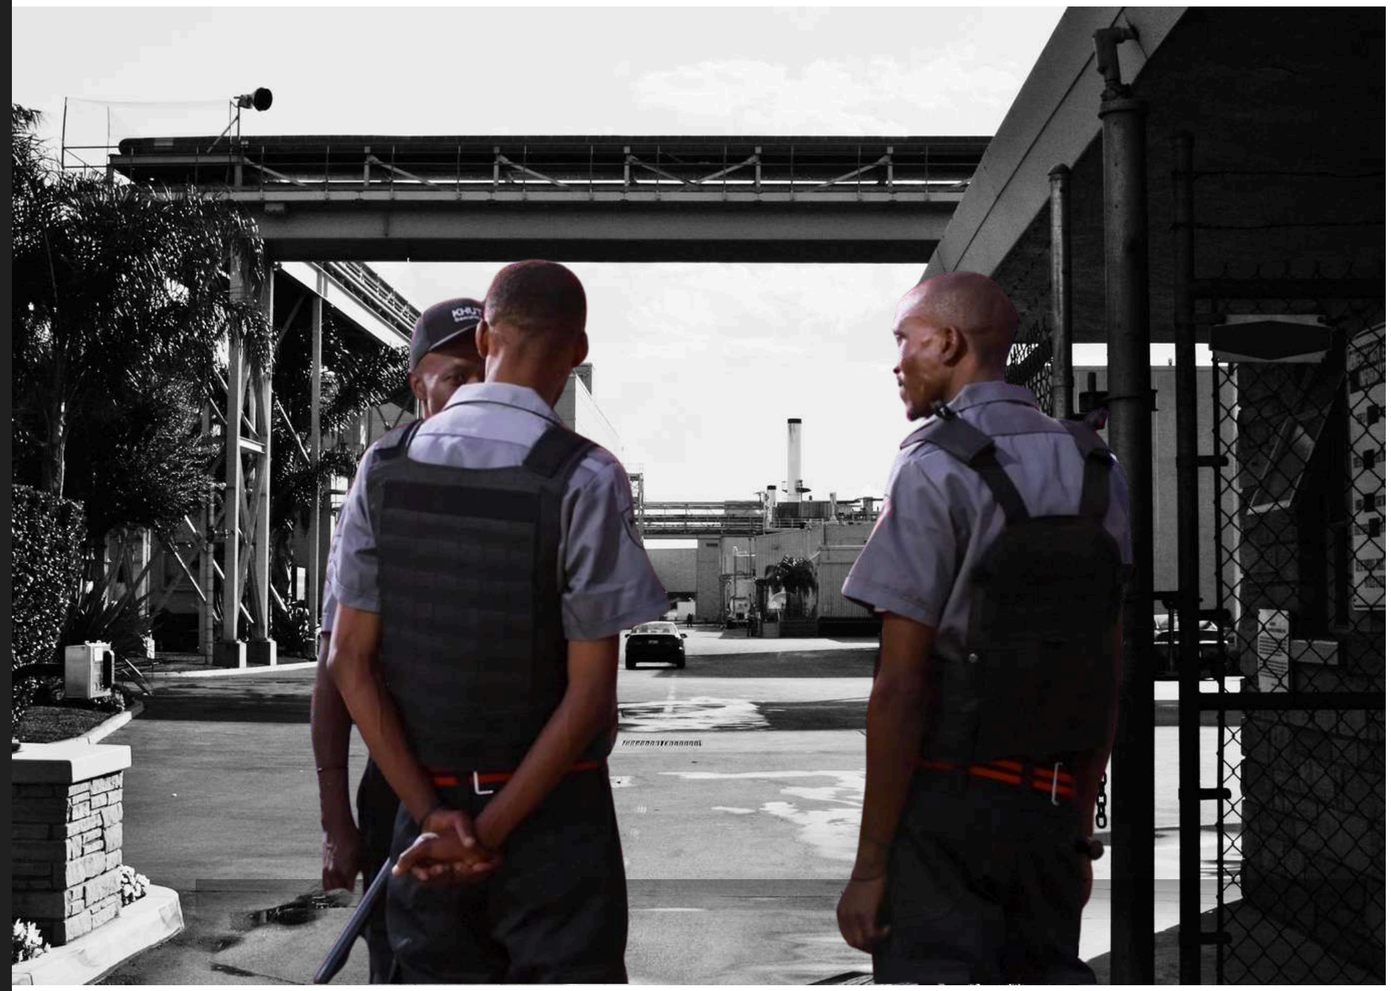
YOUR SHIELD OF SPECIALISED SECURITY

Integrated Security Solutions
for Manufacturing
& Industrial Facilities

KHUTA



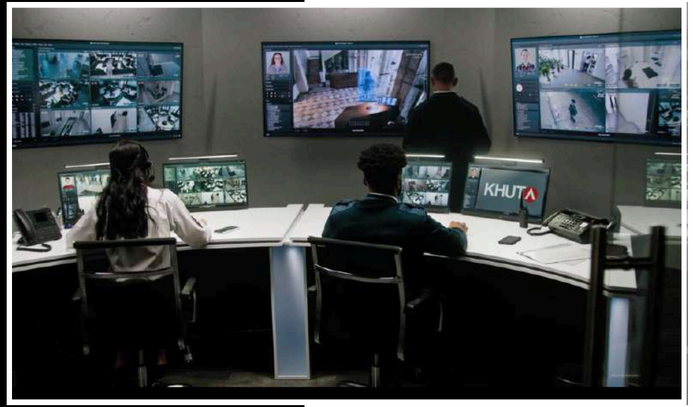
YOUR INDUSTRY, OUR EXPERTISE.

DESIGNED AROUND YOUR OPERATIONAL PRIORITIES

- Protect people, facilities and critical assets.
- Maintain control across access points and operations.
- Strengthen workforce integrity and accountability.
- Support business continuity with coordinated security solutions.

2012 ESTABLISHED IN SOUTH AFRICA	24/7 CONTINUOUS SUPPORT
360° INTEGRATED EXPERTISE	PSIRA REGISTERED SECURITY PROVIDER

MORE THAN A SECURITY PROVIDER,
A PARTNER IN YOUR BUSINESS PERFORMANCE.



PHYSICAL SECURITY

EVERY ASSET. EVERY ACCESS POINT. UNDER CONTROL.

Khuta combines people, technology and monitoring to secure your premises, workforce and valuable assets.

1 CORPORATE SECURITY

Professional on-site security personnel providing a visible, trained presence across your premises. From entrance management and site patrols to security planning and risk assessments, our approach is tailored around your facility, workforce and operational requirements.

2 ACCESS CONTROL

Take control of who enters your facility, where they can go and when. Biometric scanners and keycard systems help manage access to sensitive areas, production zones, warehouses and restricted premises, while supporting better accountability.

3 24/7 MONITORING

Maintain continuous oversight of your property with around-the-clock surveillance. Our monitoring services help identify incidents in real time and support a swift, coordinated response, day or night.

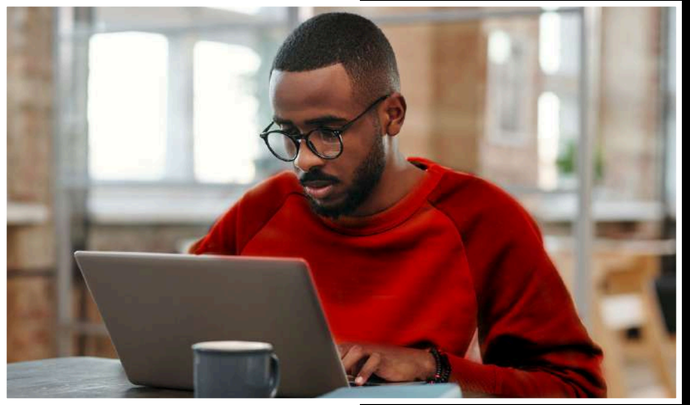
4 ARMED ESCORTS

Keep valuable goods and personnel moving with greater confidence. Our trained and licensed professionals provide strategic armed escort services for the secure transportation of valuable assets and personnel.

PEOPLE & RISK MANAGEMENT

SMARTER INSIGHTS. STRONGER DECISIONS.

Better-informed decisions, stronger oversight and greater confidence in your business environment.



1 VERIFICATION SERVICES

Make informed decisions about the people and organisations you work with. Khuta's verification solutions include identity verification, people screening, AML/CTF screening and continuous monitoring, helping businesses strengthen due diligence.

2 FRAUD DETECTION & INVESTIGATION

Turn complex information into actionable insight. Khuta's analytical tools help identify potentially fraudulent patterns, prioritise relevant cases and support more efficient investigations — helping teams focus their resources where they matter most.

3 WHISTLEBLOWING & COMPLIANCE

Encourage transparency and strengthen accountability throughout your organisation. ExposeIT provides an anonymous whistleblowing solution, while Khuta's governance, risk and compliance capabilities help support more structured oversight.

4 CYBER SECURITY

Protect the digital infrastructure that keeps your business running. From vulnerability assessments and threat monitoring to incident response and data protection, Khuta helps safeguard information systems and support operational resilience.

THE KHUTA ADVANTAGE

SECURITY THAT HELPS YOUR BUSINESS MOVE FORWARD

EXPERTISE YOU CAN RELY ON

A team of highly trained security professionals with diverse expertise and the ability to respond to complex operational requirements.

TECHNOLOGY THAT ADDS VALUE

Advanced security technologies and intelligent monitoring tools that improve visibility and support faster decision-making.
