celeriti

INDUSTRIES

DEEP INDUSTRY EXPERIENCE

Deep industry experience. Built into every solution.

Hands-on SAP transformation across government, energy, supply chain, manufacturing and distribution. Solutions that fit how your organization actually works.

4 industries	Canada & US	20+ years	AI built in
where compliance matters	public and private sector	of SAP transformation	in every solution

WHERE WE WORK

Built for environments where mistakes are expensive.

PUBLIC SECTOR

Municipal & regional government

Trusted partner for the AI-enabled public sector.

Modernizing core administration on SAP across Canada and the US, with data sovereignty, privacy and accessibility built in.

- Finance, funds and performance budgeting
- Capital projects and public reporting
- Procurement, payments and receivables
- Payroll, HR, labour relations, EHS
- AI-assisted service for staff and residents

ENERGY

Energy, oil & gas and utilities

Reliable operations under constant scrutiny.

Aging assets, regulatory pressure and volatile markets, often on SAP ECC ahead of the 2027 deadline.

- SAP S/4HANA transition, planned and delivered
- Asset performance and predictive maintenance
- Work and field service management
- Regulatory reporting and capital planning
- AI for maintenance and service exceptions

PLAN, SOURCE, DELIVER

Supply chain management

Resilient, intelligent supply chains.

Plan accurately, source competitively and manage supplier risk. Our procurement work has saved clients millions.

- SAP IBP: demand, supply and S&OP
- SAP Ariba and SAP Business Network
- Acquisition Planning and Vendor Portal
- End-to-end analytics on SAP Business Data Cloud
- AI-assisted scenarios and disruption response

MAKE AND MOVE

Manufacturing & distribution

Connected operations, plan to delivery.

Planning, production, inventory and logistics working from one trusted set of data, with AI where it adds value.

- Integrated planning and inventory
- SAP Transportation Mgmt and EWM
- Production, quality and maintenance
- Supplier collaboration and spend visibility
- Predictive demand and maintenance

What we bring to every industry

Process knowledge
The workflows and controls behind your decisions.

Practical delivery
Hands-on SAP transformation experience.

AI built in
Designed into the architecture, securely.

Talk to people who know your industry and your ERP.

Industry knowledge. Practical delivery. AI built in.
