BIOGRAPHY

Alexandre Maia has been a patent specialist at Licks Attorneys' office since 2025. Mr. Maia focuses his practice on the prosecution of patent applications in the field of electrical engineering, with particular emphasis on electronics and power systems. He regularly performs prior art searches and freedom-to-operate analyses, prepares technical opinions, and drafts patent applications for national and international filings, including under the Patent Cooperation Treaty.

In recent years, Mr. Maia has built solid expertise in intellectual property through his extensive experience in patent drafting, prosecution strategies, and coordinating international patent portfolios across multiple jurisdictions, including the United States, Europe, China, Japan, India, and Mexico.

EDUCATION

- Specialization in industrial electronics, Pontifical Catholic University of Minas Gerais – PUC-MG (2022);
- Bachelor's Degree (B.Sc), Electrical Engineering, Veiga de Almeida University – UVA (2019).
