Dr. Ricky
Greenwald, PsD.

For therapists working with all
ages, both kids and adults

Why EMDR?

EMDR is an evidence-based practice that is the designated treatment choice for Post Traumatic Stress by The American Psychiatric Association, International Society for Traumatic Stress Studies, and the US Department of Veterans Affairs.

Studies have shown that 90% of therapy clients have experienced a type of trauma in their lives.

EMDR integrates well with with other therapeutic approaches including CBT, DBT, IFS, Somatic, and Play Therapy.

Who may attend?

EMDR Therapy training is open to master level mental health professionals who are licensed (certified or registered) by their state for independent practice and have a caseload

EMDR Therapy is not diagnosis specific! Although it is known for the treatment of trauma, PTSD & C-PTSD, it is effective with a broad range of diagnosis including:

Anxiety	Medical Issues
Depression	Eating Disorders
Bipolar Disorders	Grief and Loss
OCD	Dissociative Disorders
Panic Disorder	Performance Anxiety
Phobias	Personality Disorders
Pain	Substance Abuse
Chronic Illness	Sleep Disturbance
Children and Teen	Psychosis
behavioral issues	Violence and Abuse

to practice the therapy while in the course. This training is also open to mental health professionals on a licensure track, with a letter of support from their supervisor.

What sets us apart from other EMDR Trainings?

This is a hands-on clinical skills training for using EMDR and integrating it with your psychotherapy approach. This top-of-the-line training program exceeds EMDRIA's criteria for EMDR basic training, and features:

- EMDR basic training across the lifespan
- No “Parts” or “Levels” – this is the whole package. No “extra costs” for consultation
- 55 contact hours over several months to support mastery; 50 CE
- Includes robust interventions for self regulation for adults, teens and children
- Continued support through free drop-in Q & A sessions
- Talented facilitators with a broad range of specializations
- Small facilitator-to-participant ratio in practice sessions
- Extensive supplemental resources including videos.
- Modules on attachment, dissociation, and children and teens

The training program involves lecture, demonstration, in-class practice, and on-the-job practice with your clients. This is an experiential training, and part of the learning is to practice the interventions with other participants.

Continuing Education Credit

CE information for all professional disciplines can be [found here](#).

Trauma Institute & Child Trauma Institute are an approved provider for Psychologists, LPC's, LMFT, SW, LCATS and Psychoanalysts.

Textbooks

Greenwald, R. (2007). EMDR Within a Phase Model of Trauma-Informed Treatment. NY: Haworth. (Included with course materials)

Shapiro, F. (2001). Eye Movement Desensitization and Reprocessing: Basic principles, protocols, and procedures, 3rd Edition. NY: Guilford. (Not included)

What will I learn?

Participants will be able to:

- Use EMDR with a wide range of clients across the life span whose presenting problems are related to adversity, trauma and/or loss
- Identify clients who are ready for EMDR and prepare clients for EMDR
- Apply robust interventions, and approaches to prepare children and adults for trauma processing
- Conduct an EMDR session in multiple practicum sessions
- Problem-solve a session that is not going smoothly

Training Team

Ann Beckley-Forest, LCSW- R, RPT-S EMDRIA approved trainer, is co-founder of Playful EMDR, an online hub for training and consultation. Her specialties include attachment and child and adolescent trauma, and she also works with adult survivors. Ann's primary interest is in the intersection of play therapy and EMDR and has published on this topic including as contributor and co-editor of *EMDR with Children in the Play Therapy Room: An Integrated Approach* (2020).

Annie Monaco, LCSW, RPT-S, EMDRIA approved trainer, is co-founder of Playful EMDR, an online hub for training and consultation. Annie provides speciality training on the use of EMDR with Children and Teens, treating attachment wounds, children using dissociative strategies foster care and at risk teenagers. Annie has published on dissociation and is co-editor of *EMDR with Children in the Play Therapy Room: An Integrated Approach* (2020).

Lisa Prefontaine, MS, LMHC is an Instructor, Consultant of TI/CTI. Her therapeutic specialties include EMDR, DBT, Co-occurring disorders, Perinatal disorders, Sensorimotor Psychotherapy, Ego State/Parts work, Complex Trauma, and Brainspotting.

Brooke Lewis, MS, LCSW is an EMDR Instructor, Consultant, and Clinical Supervisor specialized in complex trauma and dissociation. She integrates her knowledge and training in Internal Family Systems, Sensorimotor Psychotherapy, and EMDR to provide Integrative EMDR Intensive Therapy and Retreats.
