PROSPECT
Land + Environmental

Junior Archaeologist

Primary Location of work: Fort St. John, BC/NE British Columbia

Position(s): Junior Archaeologist

Prospect Environmental has an exciting opening for a full-time junior archaeologist to join our distinguished team. In this role you will gain valuable work experience collaborating closely with seasoned senior professionals who will provide hands-on mentorship and guidance. We offer a supportive environment that encourages your advancement and growth within the cultural resource management profession. If you possess a combination of any or all the skill below, and are looking for growth both professionally and personally, contact us today. With a transparent and communicative support team in place, we offer the support you need to confidently make this position your own. Email resume and associated information to agoertzen@prospectenv.ca.

The following are some responsibilities for the role of Junior Archaeologist:

- Participate in archaeological field work for archaeological impact assessments, post-impact assessments, and construction monitoring under the guidance of a supervising archaeologist;
- Assist in background research and reporting;
- Aid in the collection and management of field data record using GPS and Eos;
- Work closely with and support First Nations communities to facilitate their participation in projects as well as other environmental professionals and construction crews;
- Provide continuous field updates to the Project Manager, upload photos, and field notes as soon as possible upon completion of field work.

A successful candidate will possess a combination of the following skills and qualifications:

- Hold or be near completion in an undergraduate program or hold a technical diploma in the field of Archaeology or Anthropology;
- Basic knowledge of archaeology in BC with majority of the archaeological work concentrated in northeastern BC (Sub-Arctic/Boreal Forest);
- Ability to take direction and work with team members to complete projects on schedule while stiving to exceed proponents' expectations;
- Ability to participate in strenuous field work, including walking for extended periods, digging and the use of field equipment.

Safety Tickets (preferred, but not required):

- Intermediate First Aid with Transportation Endorsement
- Valid Class 5 Drivers License
- H2S Alive
- Common Safety Orientation
- Transportation of Dangerous Goods
- WHMIS
- ATV\UTV\Snowmobile training

Compensation & Benefits:

Prospect offers an excellent compensation package of competitive wages and benefits and will vary based on qualifications and experience.

- Hourly Compensation range: $30-35 (dependent on role and experience) with all overhead work time compensated accordingly and a timebank option;
- Employer paid benefits that include comprehensive health and dental coverage;
- RRSP matching after 3 months;
- Education and professional development incentives;
- Retention Bonus paid for each five years of employment at each five-year interval

References are required.

Thank you and please note that only potential candidates will be contacted for interviews.
