Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input type="checkbox"/>	<input type="checkbox"/>

11. Will the proposed action create a hazard to environmental resources or human health?	<input type="checkbox"/>	<input type="checkbox"/>

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

§ 167-6. Application for permit.

- A. Required data for a Planning Board application. An application for a wetland activity permit shall be filed with the Engineering Department and shall contain the following information:
- (1) Name and address of the owner and applicant if different.
 - (2) Street address and Tax Map designation of the property.
 - (3) A statement of authority from the owner for any agent making application.
 - (4) Statement of proposed work and purpose thereof and an explanation why the proposed activity cannot be located at another site, including an explanation of how the proposed activity is dependent on wetlands or water-related resources.
 - (5) A list of the names of the owners of record of lands adjacent to the wetland or wetland buffer in which the project is to be undertaken and the names of known claimants of water rights of whom the applicant has notice, which relate to any land within or within 100 feet of the boundary of the property on which the proposed regulated activity will be located.
 - (6) A description of all functions currently provided by the wetland under review.
 - (7) A completed environmental assessment form.
 - (8) Copies of all applicable permits or permit applications that are required for such work or, if application has not yet been made, a list of all permits that will ultimately be required.
 - (9) Complete plans for the proposed site improvements, which shall be certified by an engineer, architect, land surveyor or landscape architect licensed in the State of New York, drawn to a scale no less detailed than one inch equals 50 feet. Plans shall be submitted in 14 sets. The plans shall show:
 - (a) The location of all wetlands, as determined by a qualified individual identified on the plans (i.e., ecologist, botanist, soil scientist), no earlier than 12 months prior to the date of filing the application.
 - (b) The location of the construction area or area proposed to be disturbed and its relation to property lines, roads, buildings and watercourses within 250 feet.
 - (c) The exact locations, specifications and amount of all proposed draining, cut and fill, grading, dredging and vegetation removal or displacement and procedures to be used to do the work.

- (d) Existing and adjusted contours at two-foot intervals in the proposed disturbed area and to a distance of 50 feet beyond.
- (e) Elevations of the site and adjacent lands within 200 feet of the site at a contour intervals of no greater than five feet.
- (f) A description of the vegetative cover of the regulated area, including dominant species.
- (g) A description of the soil types on site.
- (h) Location of any wells and depths thereof and any disposal system within 50 feet of areas to be disturbed.
- (i) Details of any temporary or permanent drainage system proposed both for the conduct of work and after completion thereof, including locations at any point discharges, artificial inlets or other human-made conveyances which would discharge into the wetland or wetland buffer and measures proposed to control erosion both during and after the work.
- (j) Where creation of a lake or pond is proposed, details of the construction of any dams, embankments, outlets or other water control devices and analysis of the wetland hydrologic system, including seasonal water fluctuation, inflow/outflow calculations (using Westchester County Soil Conservation Service method), subsurface soil, geology and groundwater conditions.
- (k) Where creation of a detention basin is proposed, with or without excavation, details of the construction of any dams, berms, embankments, outlets or other water control devices and analysis of the wetland hydrologic system, including seasonal water fluctuation, inflow/outflow calculations (using Westchester County Soil Conservation Service method), subsurface soil, geology and groundwater conditions.

B. Required data for the administrative application. An application for a wetland activity permit shall be filed with the Engineering Department and shall contain the following information:

- (1) Name and address of the owner and applicant if different.
- (2) Street address and Tax Map designation of the property.
- (3) Statement of authority from the owner for any agent making application.
- (4) Statement of proposed work and purpose thereof.
- (5) A completed environmental assessment form.
- (6) Copies of all applicable permits or permit applications that are required for such work or, if application has not yet been made, a list of all permits that will ultimately be required.
- (7) Complete plans for the proposed lot improvements, which may be certified by an engineer, architect, land surveyor or landscape

architect licensed in the State of New York, drawn at the scale one inch equals 50 feet. Ten sets of such plans shall be submitted with each application and show:

- (a) The location of the wetlands as they exist in the field or as shown on the Town of Somers environmental maps and field-verified by the Engineering Department.
- (b) Location of the construction area or area proposed to be disturbed and its relation to property lines, roads, buildings and watercourses and wetlands.
- (c) Existing and proposed contours at two-foot intervals in the proposed disturbed area as may be required at the sole discretion and request of the Town Engineer.
- (d) Location of any existing structures, well(s) and septic system(s), other improvements, easements or encumbrances as required by the Town Engineer.

C. Application fee. An application fee, permit renewal fee and engineering inspection fee shall be paid by the applicant in amounts set forth in a fee schedule established by resolution of the Town Board.

D. Additional data. The approval authority may require additional information deemed necessary to evaluate the proposed activity in terms of the goals and standards of this chapter, such as the study of flood, erosion or other hazards at the site and the effect of any protective measures that might be taken to reduce such hazards.
