APPLICANT ACKNOWLEDGEMENT

By making this application, the undersigned Applicant agrees to permit Town officials and their representatives to conduct on-site inspections in connection with the review of this application.

The applicant also agrees to pay all expenses for the cost of professional review services required for this application, as referred to in §133-1 of the Code of the Town of Somers. As such, an Escrow Account, according to §133-2 of the Code of the Town of Somers, may be required.

It is further acknowledged by the Applicant that all bills for the professional review services shall be mailed to the Applicant, unless the Town is notified in writing by the Applicant at the time of initial submission of the application that such mailings should be sent to a designated representative instead.

State Environmental Quality **Review Act (SEQR) Forms**

All Downloadable SEQR Forms are PDF Files

The following Environmental Assessment Forms (Appendices A and B) should be used (as of October 7, 2013) for applications to be submitted to reviewing, funding or approving agencies. If you are new to filling out the EAFs or using the EAF Mapper, or have questions about how to use them, we recommend that you begin with the Environmental Assessment Form (EAF) Workbooks. EAF forms can be filled out and saved with Acrobat Reader.

- EAF Mapper (will generate partially filled-in EAFs) (Coming soon; expected the week of 10/7)
- Short Environmental Assessment Form (SEAF) (172 kb) (Appendix B to 6 NYCRR 617.20)
- Full Environmental Assessment Form (FEAF) (Appendix A to 6 NYCRR 617.20)
 - FEAF Part 1 (481 kb)
 - FEAF Part 2 (560 kb)
 - FEAF Part 3 (56 kb)
- Notice of Complete Draft EIS / Final EIS (24 kb)
- Notice of Completion of Draft EIS and Notice of SEQR Hearing (68 kb)
- SEQR Findings Form (82 kb)
- ENB SEQR Notice Publication Form (72 kb)

Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

ii. Will the proposed action obtain water from an existing public water supply? If Yes:	☐Yes ☐No	
Name of district or service area:		
Does the existing public water supply have capacity to serve the proposal?	☐ Yes ☐ No	
Is the project site in the existing district?	☐ Yes ☐ No	
Is expansion of the district needed?	☐ Yes☐ No	
Do existing lines serve the project site?	☐ Yes☐ No	
iii. Will line extension within an existing district be necessary to supply the project?	☐Yes ☐No	
If Yes:		
Describe extensions or capacity expansions proposed to serve this project:		
Source(s) of supply for the district:		
iv. Is a new water supply district or service area proposed to be formed to serve the project site? If, Yes:	☐ Yes☐No	
Applicant/sponsor for new district:		
Date application submitted or anticipated:		
Proposed source(s) of supply for new district:		
v. If a public water supply will not be used, describe plans to provide water supply for the project:		
vi. If water supply will be from wells (public or private), what is the maximum pumping capacity: gal	lons/minute.	
d. Will the proposed action generate liquid wastes?	□Yes□No	
If Yes:		
 i. Total anticipated liquid waste generation per day: gallons/day ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all combination) 	mnonents and	
approximate volumes or proportions of each):		
approximate votames of proportions of eachy.		
iii. Will the proposed action use any existing public wastewater treatment facilities?	☐ Yes ☐ No	
If Yes: Name of wastewater treatment plant to be used:		
 Name of wastewater treatment plant to be used: Name of district: 		
Does the existing wastewater treatment plant have capacity to serve the project?	☐Yes ☐No	
Is the project site in the existing district?	☐ Yes ☐No	
Is expansion of the district needed?	☐ Yes ☐No	

	Do existing sewer lines serve the project site?	□Yes□No
	 Will a line extension within an existing district be necessary to serve the project? 	□Yes□No
	If Yes:	
	Describe extensions or capacity expansions proposed to serve this project:	
iv.	Will a new wastewater (sewage) treatment district be formed to serve the project site?	☐Yes ☐No
	If Yes:	
	Applicant/sponsor for new district:	
	 Date application submitted or anticipated: What is the receiving water for the wastewater discharge? 	
12	If public facilities will not be used, describe plans to provide wastewater treatment for the project, including	cnacifying proposed
,	receiving water (name and classification if surface discharge or describe subsurface disposal plans):	specifying proposed
vi.	Describe any plans or designs to capture, recycle or reuse liquid waste:	
e.	Will the proposed action disturb more than one acre and create stormwater runoff, either from new point	□Yes□No
	sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point	
	source (i.e. sheet flow) during construction or post construction?	
	Yes:	
Ž.	How much impervious surface will the project create in relation to total size of project parcel?	
	Square feet or acres (impervious surface) Square feet or acres (parcel size)	
ii.	Describe types of new point sources.	
iii.	. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjace	ent properties,
	groundwater, on-site surface water or off-site surface waters)?	
	If to surface waters, identify receiving water bodies or wetlands:	
	It to surface waters, identify receiving water bodies of wetlands.	
	Will stormwater runoff flow to adjacent properties?	□Yes□No
	Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater	ter? Yes No
	Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel	□Yes □No
	combustion, waste incineration, or other processes or operations?	
	Yes, identify:	
ı	i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)	
i	i. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)	
iii	i. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)	
	Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permi	it, □Yes□No
	or Federal Clean Air Act Title IV or Title V Permit?	
	Yes: Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet	□Yes□No
ι.	ambient air quality standards for all or some parts of the year)	LI I ES LINO
ii.	In addition to emissions as calculated in the application, the project will generate:	
	•Tons/year (short tons) of Carbon Dioxide (CO ₂)	
	• Tons/year (short tons) of Nitrous Oxide (N ₂ O)	
	Tons/year (short tons) of Perfluorocarbons (PFCs)	
	• Tons/year (short tons) of Sulfur Hexafluoride (SF ₆)	
	Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)	
	Tons/year (short tons) of Hazardous Air Pollutants (HAPs)	

 h. Will the proposed action generate or emit methane (includant landfills, composting facilities)? If Yes: i. Estimate methane generation in tons/year (metric): ii. operation, or both?	LI TUS LINO
If yes: i. Provide details including sources, time of day and duration:	
7. I Tovide details including sources, time of day and duration.	
ii. Will the proposed action remove existing natural barriers that could act as a noise barrier or screen? Describe:	□Yes□No
Describe:	
n. Will the proposed action have outdoor lighting?	□Yes□No
If yes:	
i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:	
ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen?	□Yes□No
Describe:	
a Does the proposed action have the potential to produce - 1 5 1	
o. Does the proposed action have the potential to produce odors for more than one hour per day? If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest	☐Yes☐No
occupied structures:	
p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons)	□Yes□No
or chemical products 185 gallons in above ground storage or any amount in underground storage? If Yes:	
i. Product(s) to be stored	
ii. Volume(s) per unit time (e.g., month, year)	
iii. Generally, describe the proposed storage facilities:	
g Will the proposed action (communical in Institute and action (co	
q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation?	☐ Yes ☐No
If Yes:	
i. Describe proposed treatment(s):	
ii. Will the proposed action use Integrated Pest Management Practices?	☐ Yes ☐No
r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)?	☐ Yes ☐No
If Yes:	
i. Describe any solid waste(s) to be generated during construction or operation of the facility:	
• Construction: tons per (unit of time)	
• Operation: tons per (unit of time) ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:	
Construction:	
Operation:	
iii. Proposed disposal methods/facilities for solid waste generated on-site:	
Construction:	
Operation:	

s. Does the proposed action include construction or mod	lification of a solid waste i	nanagement facility?	☐ Yes ☐ No		
If Yes: i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or					
other disposal activities):	1 for the site (e.g., recyclin	g of transfer station, compostir	ig, landfill, or		
ii. Anticipated rate of disposal/processing:					
• Tons/month, if transfer or other non-	-combustion/thermal treatr	nent, or

Surface water features					
(lakes, ponds, streams, rivers, etc.)					
Wetlands (freshwater or tidal)					
Non-vegetated (bare rock, earth or fill)	Non-vegetated (bare rock, earth or fill)				
• Other					
Describe:					
		1			

i. Is the project site presently used by members of the community for public recreation? i. If Yes: explain:	□Yes□No
Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? f Yes,	□Yes□No
i. Identify Facilities:	
. Does the project site contain an existing dam?	□Yes□No
Yes:	
i. Dimensions of the dam and impoundment:	
 Dam height: Dam length: feet feet 	
Curface area:	
Volume impounded: acres gallons OR acre-feet	
i. Dam's existing hazard classification:	
iii. Provide date and summarize results of last inspection:	
Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management fac Yes:	☐Yes☐No ility?
i. Has the facility been formally closed?	☐Yes☐ No
If yes, cite sources/documentation:	
i. Describe the location of the project site relative to the boundaries of the solid waste management facility:	
i. Describe any development constraints due to the prior solid waste activities:	
Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? Yes: Describe waste(s) handled and waste management activities, including approximate time when activities occurred.	☐Yes☐No
Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? Yes:	☐Yes☐ No
Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:	□Yes□No
☐ Yes - Spills Incidents database Provide DEC ID number(s): ☐ Yes - Environmental Site Remediation database Provide DEC ID number(s):	
☐ Neither database	
	
If site has been subject of RCRA corrective activities, describe control measures: i. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? yes, provide DEC ID number(s):	□Yes□No

v. Is the project site subject to an institutional control limiting property uses?	□Yes□No
If yes, DEC site ID number:	
Describe the type of institutional control (e.g., deed restriction or easement):	
Describe any use limitations:	
 Describe any engineering controls: Will the project affect the institutional or engineering controls in place? 	
Explain:	☐Yes☐No
СХРИИН	
E.2. Nichard Brown Co., N. B. 1, 100	
E.2. Natural Resources On or Near Project Site a. What is the average depth to bedrock on the project site? feet	
b. Are there bedrock outcroppings on the project site?	☐ Yes ☐ No
If Yes, what proportion of the site is comprised of bedrock outcroppings?	
c. Predominant soil type(s) present on project site:	%
	<u>%</u>
	%
d. What is the average depth to the water table on the project site? Average:feet	
e. Drainage status of project site soils: Well Drained: % of site	
Moderately Well Drained: % of site	
Poorly Drained% of site	
f. Approximate proportion of proposed action site with slopes: 0-10%: % of s	
10-15%:% of s	
☐ 15% or greater:% of s	site
g. Are there any unique geologic features on the project site?	☐ Yes ☐ No
If Yes, describe:	
h. Surface water features.	
i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers ponds or lakes)?	, □Yes□No
ii. Do any wetlands or other waterbodies adjoin the project site?	☐Yes ☐No
If Yes to either i or ii , continue. If No, skip to E.2.i.	103140
iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal	, □Yes□No
state or local agency?	_
iv. For each identified regulated wetland and waterbody on the project site, provide the following infor	
Streams: Name Classification	
Lakes or Ponds: Name Classificatio Wetlands: Name Approximat	ne Size
• Wetland No. (if regulated by DEC)	C 512c
v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impair	red Yes No
waterbodies?	
If yes, name of impaired water body/bodies and basis for listing as impaired:	
i. Is the project site in a designated Floodway?	☐Yes ☐No
j. Is the project site in the 100-year Floodplain?	□Yes □No
k. Is the project site in the 500-year Floodplain?	□Yes □No
1. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer?	□Yes□No
If Yes: i. Name of aquifer:	
+. Industry of aquitor.	

m. Identify the predominant wildlife species that occupy or use the project site:	
n. Does the project site contain a designated significant natural community? If Yes: i. Describe the habitat/community (composition, function, and basis for designation):	☐ Yes ☐ No
 ii. Source(s) of description or evaluation: iii. Extent of community/habitat: Currently: Following completion of project as proposed: 	
• Gain or loss (indicate + or -):	
 o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened specifies: i. Species and listing (endangered or threatened): 	☐ Yes☐No cies?
 p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern? If Yes: i. Species and listing: 	□Yes□No
q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing? If yes, give a brief description of how the proposed action may affect that use:	□Yes □No
E.3. Designated Public Resources On or Near Project Site	
 a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? If Yes, provide county plus district name/number: 	□Yes □No
b. Are agricultural lands consisting of highly productive soils present? i. If Yes: acreage(s) on project site? ii. Source(s) of soil rating(s):	□Yes□No
c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark? If Yes: i. Nature of the natural landmark: Biological Community Geological Feature ii. Provide brief description of landmark, including values behind designation and approximate size/extent:	□Yes □No
d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? If Yes: i. CEA name: If Paris for designations.	□Yes□No
ii. Basis for designation: iii. Designating agency and date:	

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Con	
If Yes:	oric Places?
i. Nature of historic/archaeological resource: Archaeological Site ii. Name: iii. Brief description of attributes on which listing is based:	
f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	□Yes□No
g. Have additional archaeological or historic site(s) or resources been identified on the project site? If Yes:	□Yes□No
i. Describe possible resource(s): ii. Basis for identification:	
h. Is the project site within fives miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?	cal Yes No
If Yes: i. Identify resource:	
ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic tr etc.):	ail or scenic byway,
iii. Distance between project and resource: miles.	
 i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? If Yes: i. Identify the name of the river and its designation: 	S □Yes□No
ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?	☐Yes ☐No
F. Additional Information Attach any additional information which may be needed to clarify your project. If you have identified any adverse impacts which could be associated with your proposal, please describe thomeasures which you propose to avoid or minimize them.	se impacts plus any
G. Verification I certify that the information provided is true to the best of my knowledge.

Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	Agency Use Only [11 applicable]
Project:	
Date:	

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) If "Yes", answer questions a - j. If "No", move on to Section 2.	□no	· 🗆	YES
(®)	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	E2f		
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a		
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a		
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e		
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q		
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	Bli		
h. Other impacts:			

Parties and the second			
2. Impact on Geological Features	•.		
The proposed action may result in the modification or destruction of, or inhib access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)	oit □NO) [YES
If "Yes", answer questions a - c. If "No", move on to Section 3.	Delevent	T. N.	N
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	ЕЗс		
c. Other impacts:		0	
3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) If "Yes", answer questions a - l. If "No", move on to Section 4.	□no) 🗆	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h		
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a		
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h		ď
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h		
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e		
 The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action. 	E2h		
 The proposed action may involve the application of pesticides or herbicides in or around any water body. 	D2q, E2h		
k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d		

1. (Other impacts:			
4.	Impact on groundwater The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t) If "Yes", answer questions a - h. If "No", move on to Section 5.	□NC er.) [YES
		Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. 7	The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c		
•	Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source:	D2c		
c. T	The proposed action may allow or result in residential uses in areas without water and ewer services.	D1a, D2c		
d. 7	The proposed action may include or require wastewater discharged to groundwater.	D2d, E21		
	The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		
	he proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E21		
	The proposed action may involve the commercial application of pesticides within 100 eet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		
h. (Other impacts:			
5.	Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) If "Yes", answer questions a - g. If "No", move on to Section 6.	□no		YES
	g. y ,	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. T	the proposed action may result in development in a designated floodway.	E2i		
ъ. Т	he proposed action may result in development within a 100 year floodplain.	E2j		
c. T	he proposed action may result in development within a 500 year floodplain.	E2k		
	The proposed action may result in, or require, modification of existing drainage atterns.	D2b, D2e		
e. T	he proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k		
	there is a dam located on the site of the proposed action, is the dam in need of repair, upgrade?	Ele		

g.	Other impacts:			
6.	Impacts on Air The proposed action may include a state regulated air emission source. (See Part 1. D.2.f., D.2.h, D.2.g) If "Yes", answer questions a - f. If "No", move on to Section 7.	□nc) [YES
	*	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
	If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: i. More than 1000 tons/year of carbon dioxide (CO ₂) ii. More than 3.5 tons/year of nitrous oxide (N ₂ O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs) iv. More than .045 tons/year of sulfur hexafluoride (SF ₆) v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions vi. 43 tons/year or more of methane	D2g D2g D2g D2g D2g D2g	00000	00000
	The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g		
	The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g		
	The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g		
	The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s		
f. (Other impacts:			
7.	Impact on Plants and Animals The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. r If "Yes", answer questions a - j. If "No", move on to Section 8.	nq.)	□NO	□YES
		Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
	The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o		
	The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o		
	The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p		
:	The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government	E2p		

e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.	E3c	0	
f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community. Source:	E2n		
g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.	E2m		
h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat. Habitat type & information source:	Е1ь		
i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.	D2q		0
j. Other impacts:			0

10. Impact on Historic and Archeological Resources The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.) If "Yes", answer questions a - e. If "No", go to Section 11.	□NO	D [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on the National or State Register of Historical Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.	E3e		□
 The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory. 	E3f		
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory. Source:	E3g		

d. Other impacts:			
If any of the above (a-d) are answered "Moderate to large impact may e. occur", continue with the following questions to help support conclusions in Part 3:			
 The proposed action may result in the destruction or alteration of all or part of the site or property. 	E3e, E3g, E3f		
ii. The proposed action may result in the alteration of the property's setting or integrity.	E3e, E3f, E3g, E1a, E1b		
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3		
11. Impact on Open Space and Recreation The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan. (See Part 1. C.2.c, E.1.c., E.2.q.) If "Yes", answer questions a - e. If "No", go to Section 12.	N	0 [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p		
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q		
c. The proposed action may eliminate open space or recreational resource in an area with few such resources.	C2a, C2c E1c, E2q		
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c		
e. Other impacts:			
12. Impact on Critical Environmental Areas The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d) If "Yes", answer questions a - c. If "No", go to Section 13.	□ NO) [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d		
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d		
c. Other impacts:			

14.0 T 4 PD 4.41			
The proposed action may result in a change to existing transportation system (See Part 1. D.2.j)	ns.	io []YES
If "Yes", answer questions a - f. If "No", go to Section 14.			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j		
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j		
c. The proposed action will degrade existing transit access.	D2j		
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j		
e. The proposed action may alter the present pattern of movement of people or goods.	D2j		
f. Other impacts:			
14. Impact on Energy The proposed action may cause an increase in the use of any form of energy. (See Part 1. D.2.k) If "Yes", answer questions a - e. If "No", go to Section 15.	□ N	0 🗆	YES

Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
 occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
 occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
 there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
 environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

		,			
	Determination	n of Significance -	Type 1 and	Unlisted Actions	
EQR Status:	Type 1	Unlisted			
dentify nortions o	f EAF completed for this P	roject: Part 1	Part 2	Part 3	
Tomary portions o					FEAF 2019

Upon review of the information recorded on this EAF, as noted, plus this additional support information	_
and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the as lead agency that:	
A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.	
B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:	
There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).	
C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce t impacts. Accordingly, this positive declaration is issued.	hose

See 167-6A for Planning Board Wetland Application See 167-6B for Administrative Wetland Application

§ 167-6. Application for permit.

- A. Required data for a Planning Board application. An application for a wetland activity permit shall be filed with the Engineering Department and shall contain the following information:
 - (1) Name and address of the owner and applicant if different.
 - (2) Street address and Tax Map designation of the property.
 - (3) A statement of authority from the owner for any agent making application.
 - (4) Statement of proposed work and purpose thereof and an explanation why the proposed activity cannot be located at another site, including an explanation of how the proposed activity is dependent on wetlands or water-related resources.
 - (5) A list of the names of the owners of record of lands adjacent to the wetland or wetland buffer in which the project is to be undertaken and the names of known claimants of water rights of whom the applicant has notice, which relate to any land within or within 100 feet of the boundary of the property on which the proposed regulated activity will be located.
 - (6) A description of all functions currently provided by the wetland under review.
 - (7) A completed environmental assessment form.
 - (8) Copies of all applicable permits or permit applications that are required for such work or, if application has not yet been made, a list of all permits that will ultimately be required.
 - (9) Complete plans for the proposed site improvements, which shall be certified by an engineer, architect, land surveyor or landscape architect licensed in the State of New York, drawn to a scale no less detailed than one inch equals 50 feet. Plans shall be submitted in 14 sets. The plans shall show:
 - (a) The location of all wetlands, as determined by a qualified individual identified on the plans (i.e., ecologist, botanist, soil scientist), no earlier than 12 months prior to the date of filing the application.
 - (b) The location of the construction area or area proposed to be disturbed and its relation to property lines, roads, buildings and watercourses within 250 feet.
 - (c) The exact locations, specifications and amount of all proposed draining, cut and fill, grading, dredging and vegetation removal or displacement and procedures to be used to do the work.

- (d) Existing and adjusted contours at two-foot intervals in the proposed disturbed area and to a distance of 50 feet beyond.
- (e) Elevations of the site and adjacent lands within 200 feet of the site at a contour intervals of no greater than five feet.
- (f) A description of the vegetative cover of the regulated area, including dominant species.
- (g) A description of the soil types on site.
- (h) Location of any wells and depths thereof and any disposal system within 50 feet of areas to be disturbed.
- (i) Details of any temporary or permanent drainage system proposed both for the conduct of work and after completion thereof, including locations at any point discharges, artificial inlets or other human-made conveyances which would discharge into the wetland or wetland buffer and measures proposed to control erosion both during and after the work.
- (j) Where creation of a lake or pond is proposed, details of the construction of any dams, embankments, outlets or other water control devices and analysis of the wetland hydrologic system, including seasonal water fluctuation, inflow/outflow calculations (using Westchester County Soil Conservation Service method), subsurface soil, geology and groundwater conditions.
- (k) Where creation of a detention basin is proposed, with or without excavation, details of the construction of any dams, berms, embankments, outlets or other water control devices and analysis of the wetland hydrologic system, including seasonal water fluctuation, inflow/outflow calculations (using Westchester County Soil Conservation Service method), subsurface soil, geology and groundwater conditions.
- B. Required data for the administrative application. An application for a wetland activity permit shall be filed with the Engineering Department and shall contain the following information:
 - (1) Name and address of the owner and applicant if different.
 - (2) Street address and Tax Map designation of the property.
 - (3) Statement of authority from the owner for any agent making application.
 - (4) Statement of proposed work and purpose thereof.
 - (5) A completed environmental assessment form.
 - (6) Copies of all applicable permits or permit applications that are required for such work or, if application has not yet been made, a list of all permits that will ultimately be required.
 - (7) Complete plans for the proposed lot improvements, which may be certified by an engineer, architect, land surveyor or landscape

architect licensed in the State of New York, drawn at the scale one inch equals 50 feet. Ten sets of such plans shall be submitted with each application and show:

- (a) The location of the wetlands as they exist in the field or as shown on the Town of Somers environmental maps and field-verified by the Engineering Department.
- (b) Location of the construction area or area proposed to be disturbed and its relation to property lines, roads, buildings and watercourses and wetlands.
- (c) Existing and proposed contours at two-foot intervals in the proposed disturbed area as may be required at the sole discretion and request of the Town Engineer.
- (d) Location of any existing structures, well(s) and septic system(s), other improvements, easements or encumbrances as required by the Town Engineer.
- C. Application fee. An application fee, permit renewal fee and engineering inspection fee shall be paid by the applicant in amounts set forth in a fee schedule established by resolution of the Town Board.
- D. Additional data. The approval authority may require additional information deemed necessary to evaluate the proposed activity in terms of the goals and standards of this chapter, such as the study of flood, erosion or other hazards at the site and the effect of any protective measures that might be taken to reduce such hazards.

Town of Somers, NY Tuesday, October 8, 2013

Chapter 133. PROFESSIONAL FEES

[HISTORY: Adopted by the Town Board of the Town of Somers 7-18-1991 by L.L. No. 2-1991. Amendments noted where applicable.]

GENERAL REFERENCES

Fees — See Ch. 95.

§ 133-1. Reference of applications to professionals; charges; reports; procedure.

[Amended 9-10-1992 by L.L. No. 13-1992; 12-9-2010 by L.L. No. 9-2010]

A. The Town Board, the Planning Board, the Open Space Committee or the Zoning Board of Appeals, in the review of any application, may refer any such application presented to it to such engineering, planning, legal, technical or environmental consultants or professionals employed by the Town, as such Board or Committee shall deem reasonably necessary to enable it to review such application as required by law. Charges made by such consultants shall be in accord with charges usually made for such services in the metropolitan New York region or pursuant to an existing contractual agreement between the Town and such consultants. Charges made by the town shall be in accord with the hourly rates upon which the employee's actual salary is based and fringe benefits and reasonable overhead. All such charges shall be paid on submission of a town voucher. In the event that an application is required to be reviewed by more than one Board, then, in such event and to the extent practicable, both Boards shall use the same consultants, who shall, in such case, to the extent practicable, prepare one report providing the data, information and recommendations requested. In all instances, duplications of consultants' reports or services shall be avoided wherever possible in order to minimize the cost of such consultants' reports or services to the applicant. The above fees are in addition to any and all other fees required by any other section of this chapter or any other town ordinance or regulation of the Town Code. [Amended 5-17-2012 by L.L. No. 3-2012]

B. Procedure.

(1) At the time a referring Board requests the services of a professional employed or retained by the Town in the review of an application presented to it, the referring Board shall adopt a scope of services to be performed and request a maximum fee proposal from the professional to whom the referral is made.

101010010

- (2) At the time the maximum fee proposal is received by the Board, it shall be placed on the Board's next available agenda for review with the applicant. In the event the Board and the applicant agree with the maximum fee proposal, the Board may approve same. In the event the Board and the applicant disagree with the maximum fee proposal, the Board may adjourn the matter until such time as the professional is available to attend a Board meeting to further review its fee proposal with the applicant or some other arrangement is agreed upon among all parties.
- (3) Until such time as the Board and the applicant are in agreement with the scope of services and fee proposal, an application shall not be deemed complete, and all relevant time periods shall be tolled pending resolution of same.
- (4) In the event the professional submits a request to the Board to amend the scope of services or otherwise increase the maximum fee proposal, the procedure described above shall be utilized for its approval.
- (5) An applicant may waive the above procedure and deposit funds to the escrow account pursuant to § 133-2 here following.

§ 133-2. Escrow accounts.

At the time of submission of any application, or thereafter, the reviewing Board may require the establishment of an escrow account, from which withdrawals shall be made to reimburse the town for the costs of professional review services. The applicant shall then provide funds to the town for deposit into such account in an amount to be determined by the reviewing Board based on its evaluation of the nature and complexity of the application. The applicant shall be provided with copies of any town voucher for such services as they are submitted to the town. When the balance in such escrow account is reduced to 1/3 of its initial amount, the applicant shall deposit additional funds into such account to bring its balance up to the amount of the initial deposit If such account is not replenished within 30 days after the applicant is notified, in writing, of the requirement for such additional deposit, the reviewing Board may suspend its review of the application. A building permit or certificate of occupancy or use shall not be issued unless all professional review fees charged in connection with the applicant's project have been reimbursed to the town. After all pertinent charges have been paid, the town shall refund to the applicant any funds remaining on deposit.

§ 133-3. Collection of fees.

All fees required pursuant to this chapter shall be collected by the Clerk of the Board having jurisdiction over the application.

§ 133-4. Applicability.

This chapter shall be applicable to applications pending at the time it shall become effective, unless the reviewing Board shall determine that its application would be impracticable, unfair or unjust in the particular circumstances. Where this chapter shall be applicable to a pending application, it shall, in such event, require an applicant only to pay for professional fees for services rendered after it shall have become effective.

MEMORANDUM

TO:

Town of Somers Planning Board

FROM:

Syrette Dym, Director of Planning

DATE:

May 17, 2016

RE:

Procedures for Numbers of Plan Sets for Submission

At its meeting of May 11, 2016, the Planning Board developed and agreed to follow the following procedures regarding submission of plans, plats and plan sets by applicants for items before the Board.

Plans, Plan Sets and Plats

1. Initial Submission – One Full Plan/Plat set for each Board member and other required receivers.

Subsequent Plans, Plan Sets ad Plats

Only new plan/plat pages or previously submitted pages with changes. Each
change should be identified with a note and bubble on the plan to identify reason
for change, and where and what the change was from the previous submittal. Tis
would apply to significant changes, not corrections such as typos or footnote
changes.

Final Plan/Plat Sets

1. Final Site Plan Set should include all revised plans and final set for Chairman's signature and/or Final Plat. All previous inserted explanatory bubbles should be removed. Three full final plan sets should be submitted to the Planning Office.

Only plan/plat pages with final changes not previously seen by the Planning Board should be submitted for final review by Board members.

Applicant's Other Submitted Materials

- 1. All memorandums and reports short be doubled sided
- 2. Provide comments only on those items which are now advancing, not a cumulative listing of prior items already addressed.

Town /Town Consultant Submitted Documents

1. Town submitted comment letters should not be cumulative but should only be focus on those items that still need to be addressed.

PLANNING AND ENGINEERING DEPARTMENTS

Town of Somers

WESTCHESTER COUNTY, NY

Town House 335 Route 202 Somers, N.Y. 10589 Tele #: 914-277-5366

Date: July 14, 2005

Planning Board Applicants To:

From: Department of Planning and Engineering

Please take note of the revised Somers Planning Board Application Policy - Drawing Guidelines, adopted July 13, 2005.

As of July 13, 2005, items #5 and #7 have been revised - (#5) septic fields must be included, notes and standard details must be eliminated, and (#7) requires 10 of the maps to be 17"x 22".

Drawings, as requested in these guidelines, must be submitted two weeks prior to the Planning Board meeting date, in order for an applicant to appear.

If you have any questions concerning this matter, please contact the Department of Planning and Engineering at (914) 277-5366.

Planning Board Application Policy Drawing Guidelines Adopted at the Planning Board Meeting of July 13, 2005

The following minimum drawing requirements must be provided when submitting a Sketch Plan, Subdivision, Site Plan and /or Environmental Permit application:

- 1. Survey of the property, signed by licensed surveyor.
- 2. As-built drawing when site improvements exist.
- 3. Constraints map showing wetland, wetland buffers, steep slopes 15 % to 25% & 25% and greater. Vivid color drawings using light blue for wetland, vellow for wetland buffer, tan for 15% to 25% slopes, and brown for greater than 25%. For overlapping categories use red for steep slopes and wetland, and pink for steep slopes and wetland buffers.
- 4. Soils data shall be provided using the soil hydrological group designations: "A" soil group use yellow, "B" use light brown, "C" use brown, "D" use blue.
- 5. The constraints, soils, and hydrological group maps must show the proposed roads and lot lines with proposed house location, driveways, and septic fields. Do not include notes and standard details on the reduced drawing. Alternatively the proposed features may be shown on a transparent overlay.
- 6. The applicants preparing a DEIS shall follow the same policy for using colored plates. For instance, all plates must include the proposed layout with buildings and roads, lot lines must be depicted as a single black line over the maps area of interest.
- 7. Fourteen (14) copies of the maps as described above shall be provided with the application. Ten (10) of the maps shall be 17"x 22" in size (must focus on the area of interest) and four (4) shall be full scale drawings.

The Planning Board may waive these requirements should they believe wetlands and steep slopes are negligible.
