

THE SOMERS RECAP

THIS WEEK IN SOMERS

TOWN UPDATES

Last night, we had an excellent presentation from **Landtek** outlining the future vision for **Reis Park — the crown jewel of our community**. The discussion highlighted thoughtful improvements, enhanced amenities, and long-term planning aimed at supporting the growing use of the park and meeting the needs of residents of all ages. It was a well-attended and productive session, and an important step as we continue shaping the future of one of Somers' most important gathering spaces.

PROJECTS & PROGRESS

On Tuesday, we met with the **Route 202 Culvert Repair Committee** and representatives from the **NYS DOT** to discuss the upcoming project. We raised concerns, provided input, and advocated for solutions to ensure this necessary infrastructure repair is carried out as **seamlessly and safely as possible**, with a strong emphasis on **traffic control and minimizing disruptions for our residents**.

A NOTE FROM THE SUPERVISOR

— **Rob Scorrano**
Supervisor,
Town of Somers

Reis Park is the **crown jewel of our community**, and the vision we're building reflects that. This is about creating a space where families come together, and our community continues to grow. We're committed to getting this right, and feedback from residents and community groups is helping guide the process. A **special meeting will be held on April 30 at the Town House** to hear your thoughts and answer questions.

QUOTE OF THE WEEK

"Coming together is a beginning, staying together is progress, and working together is success."
— **Henry Ford**

AROUND TOWN

This week, **Supervisor Rob Scorrano** joined Nassau County Executive Bruce Blakeman, Assemblyman Matt Slater, other public officials, and residents at a press conference addressing rising utility costs. The discussion focused on accountability, transparency, and the real impact these increases are having on local communities. Concerns were raised about affordability and how current policies are contributing to rising costs, along with the need for **meaningful action to provide relief for residents and businesses facing these challenges**.
