Sundyne Pump Repair and Parts Making

Since 1977 Emnor Mechanical has been making parts for and repairing pumps. In the last few years, Emnor has been refurbishing Sundyne pumps. Our customers were interested in improved delivery and lower cost for their Sundyne work.

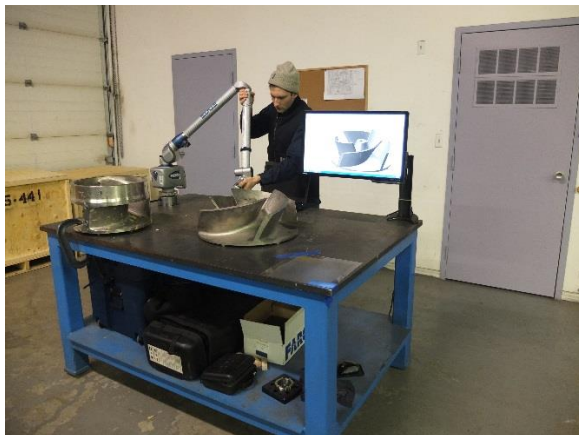

Using advanced manufacturing methods, Emnor is able to manufacture any component required for Sundyne pumps. Typical parts made would be impellers, diffusers, seal faces and gear box housings.

Below we show our measuring technology and before and after photos of a diffuser. More information is at www.emnor.com
