

I am Sivalakshmi. S, the former student of Kuyilappalayam Hr. School, Batch (2016-2017) is contented to express my gratitude to my school which gave me a quantum leap in my profession. **My tuition fee at school is totally free**, as the school provides **education at no cost**, for the students learning through Tamil language medium of Instruction, every year. As we are from low mediocre background, attaining such a high standard education in my school is really a blessing to me. I have secured **1032/1200 marks** in my Higher Secondary Board Exams, choosing Biology group.

Right from my childhood, I was interested in Nursing profession, the noblest indeed, which stimulated me to pursue **Bachelor of Science in Nursing (B.Sc.,)** in Pauls College of Nursing, Pondicherry state. I enjoyed practising nursing which is my great passion. After completion of practice for five years, I got posting from Central Government as a **Project Research Nurse** by hitting the Entrance Examination conducted by **JIPMER (Jawaharlal Institute of Postgraduate Medical Education and Research)**. Every day is very interesting and soul satisfying being a nurse and a massive thanks to my school which gave me a beautiful start for my triumphant journey!

On my Duty at JIMPER Hospital , Pondicherry
