

I am **Saranya . S**, the former student of **Kuyilappalayam Higher Secondary School** and would like to share my contact number + 91 99408 58719

I am blissful to avail an opportunity expressing my unbound ecstasy to share my school life experience that I cherished for 14 years from my Kinder Garten. I can genuinely quote that my school has been my second home and a foundation pillar in my academic and personal development. The dedicated teachers, state-of-the-art facilities, and the school's commitment to excellence have left an indelible mark on my journey. From the early days of learning the basics to the advanced stages of academic challenges, the school has provided me with a basic foundation that has been instrumental in shaping my career. One thing which stood out to me constantly for years is the emphasis on character building and values which has played a significant role but also the ethical and moral compass for all the students.

The school took many measures to enhance our **English fluency**, and I am passionate about speaking English because of my English teachers and our communication skill has been developed year after year. I have secured **536/600** marks in my Higher Secondary Board Examinations, having chosen commerce group in 2020.

I have pursued **B.Com., CA** (Bachelor of commerce with Computer Application) Sri Akilandeswari Women's College, Wandwash. The exposure the school nurtured me, transformed to **Student Council Secretary** in my college. I came out in flying colours with distinction marks.

I have got a job offer from HDFC Bank, as a **“Customer Care Executive”** through Online Test and Interview in the year 2023. I am overwhelmed to get an opportunity to prove my efficiency in career. I get good reputation from my higher officials for my service and getting excellent feedback from customer side, which gives me excellent hike in salary periodically.

I owe a respect to my school and render my sincere gratitude which has given me a good start to design my life better.

At my Workspot.....
