

# Resident Testimonials

“This program is home to the most positive educational environment I have been a part of. From the attending physicians on down to the interns, Summa has a commitment to teaching and learning in a respectful and caring environment. The great attitudes of the people here really is infectious and I have seen it positively impact patient care in ways I haven’t seen anywhere else.

Dr. Jarus Wilson, PGY2

“The people and culture is so warm and welcoming here! Every person really is a valued member of the team.  
Also, the food is great!”

Dr. Jordan Parker PGY1

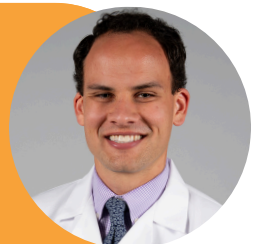

“The culture here is unmatched — supportive, friendly, and inspiring. The attendings and chiefs are genuinely invested in you, and it’s the kind of place that helps you grow into the best version of yourself as a doctor, no matter where you are in training.”

Dr. Nandhini Ravichandran, PGY2

“The incredible people that keep the program running, the support and guidance from my attendings and senior residents, and the opportunity to get exposure to excellent fellowship programs”

Dr. Mitchell Hester, PGY1

“The culture here is unbeatable. I feel safe and supported but pushed to work harder and learn more each day in a good mix. I’ve made lifelong friends through a lot of good times and some hard times too.”

Dr. Drew Green, PGY2
