

Outpatient Order Supervision 2026-2027

OUTPATIENT orders require a cosigner. To pick a co-signer follow the rules below

- a. If you are in the clinic, your assigned preceptor will be the one who cosigns your orders
- b. If you are putting in orders after hours or on weekends (patient calls/catching up on box messages/etc), please see the attachment to see your “order supervisor” (hint: it is your advisor for most people, unless your advisor does not work in the IMC).
 - i. If you are ordering something routine/non-urgent, you do not need to notify your supervisor.
 - ii. If you are ordering advanced imaging, your patient is sick, or you’re following up on an abnormal lab value, please route the encounter to your supervisor as an FYI.

Outpatient Order Supervision 2026-2027
