EXPERIENCE

HUBSPOT SENIOR PRODUCT DESIGNER, FEB 2024 - OCT 2026, REMOTE

Product design lead as a member of a cross-functional team building connected, end-to-end, agentic and AI-powered sales quoting features within market-leading CRM's Revenue Hub for small and medium sized HubSpot customers.

Used design to influence stakeholders and strategic product roadmap decisions, drive divergent exploration of solutions, and collaborate with stakeholders. Owned customer research efforts to discover core user problems, jobs-to-be-done, and validate design decisions. Continuously improved product and feature quality by owning team-wide UX friction and overall product quality audits. Used and contributed back to design system patterns for platform and AI-features. Used industry-leading AI tooling for designing, prototyping, and contributing to front-end code.

INTUIT SENIOR PRODUCT DESIGNER, AUG 2019 - FEB 2024, HYBRID

Used design to provoke, define, and deliver features in market leading accounting product, QuickBooks Online, and Workforce mobile app, with 1M+ users.

Adopted Intuit's proven Design for Delight methodology to build customer empathy, design divergent solutions, and problem solve in end-to-end experiences using various research and iterative prototyping. Brought stakeholders, leadership, and partners outside of design along through storytelling and visualization. Leveraged and contributed to design system and adopted AI design tooling.

HP INC. SENIOR INTERACTION DESIGNER, AUG 2018 - AUG 2019, HYBRID

Interaction and product design for enterprise hardware and web-based printing systems. Used design to define product development for market-fit thru high-level design pattern delivery to design implementation teams in a global design studio setting.

Established and fostered relationships with various stakeholders across design, research, engineering, marketing, and product management departments.
