2025. 03. 03 Part 1/2

Good morning, good afternoon, good evening, Europe.

God bless you folks. We were not going to stop by Europe, because we're on our way to Taiwan, to China, as you know Father is moving the global politic lines all over the world. The whole world is changing right now in massive speed. Forgive me if I lost my voice, since I have been shouting and singing for the last couple of days. Oh, we have Tim Elder, Tim elder in the house. He surprised me on the visit here.

Does everybody understand English? Your English is good? okay. You see Father is moving, so the entire geopolitical landscape is changing very quickly. As you all know in America we've had a big fight. Many of you were there. Many of you joined us on the frontline, praise God. So shout out to all the European folks. Shout out to the wonderful person who made me this bullet crown. It is so light, so amazing. The one I have in U.S. is heavy since it is made of real bullets, but this one is nice and light.

A lot of you joined us on the frontline for MAGA rallies, as a Cheon Seong training, right? The whole world was in a tremendous danger, as you know. We had a big battle in the U.S. where we had the most radical candidate we've ever had, "Kamala". She is a open socialist, very radical wanting to bring complete communism to America.

FATHER'S FIGHT AGAINST COMMUNISM

Father had been fighting communism since before 1980s. So everyone knows the Moonies. Of course we strongly supported President Trump. After Father established all his conditions, went to spirit world. Then of course we had the fall of Han mother. She became Han Hak Ja the "Harlot of Babylon" Un Nyeon (in korean). That hurt everyone, but it hurt me the most because I am her son. Yet since Father made me his heir and representative crowning me three times, I have to do my job. So, I could not support her. Father was intending blessing the Abel UN and

new Jerusalem to be in Asia obviously. Because, True Father's homeland is Korea. So original blessing of homeland Korea and reclaiming the Fatherland, all that was to happen, as well as the establishment of the Abel UN, which would exclude communist nations. In this way the constitution of Cheon Il Guk could spread from the Fatherland.

WILDERNESS COURSE

Unfortunately that blessing came to the west, because Father's three kingship was exiled, we had to go into the woods in Pennsylvania. Many of you have visited the Pennsylvania deep woods, right? Who has been there? There, you can see very deep woods. Then of course, we had to go into the wilderness with no support. No support at all. Everybody was cursing us wanting us to play politics and just go along with it. Nobody wanted to stand up for what was right, so we were thrown away. Even though Father had crowned me, and I had not crowned myself. I am the only one that did not crown myself, while Han group crowned themselves as well as the Kwak group who crowned themselves. I am the only one not crowning myself. Father crowned me with his own crown three times. Then of course he crowned Shin Joon and selected him as the third generation kingship line. So we are the only ones actually that did not choose ourselves, okay? Yet of course we had to stand in that position. We were cursed like crazy, because they just wanted us to go along playing politics. Obviously we can't do that, because Father is more important than anything else being it politics, power, or money. We had to stay united with Christ. So we ended up going to the West.

CASINO KING

Before his ascension Father was making conditions in Las Vegas trying to find what he called the "Casino King". Have you heard about the Casino King? Father was setting the foundation for the Casino King, investing so much in Las Vegas. He had people coming there doing shows and raising money for this and that. So we did a lot of things in Vegas. Father did Cheon Seong on the Lake Mead, under the burning sun about 100,110 degrees etc....off the boat on a desert, so very rugged terrain. Father was praying for the Casino King. He said, the Casino King will come and save America. So everybody said, what the heck is going on? Casino King? What is going on? Now 14 years later in 2016 we had the Casino King come in. Just a couple of years after Father's ascension we had Donald J.Trump, who is the Casino King, especially in Atlantic City which is like the New York and New Jersey region. He got a lot of casinos there. He is in UFC boxing events where he does his thing, right? He's very much into the fighting game. So who knew that Mr. Casino King, Mr. Donald Trump would come, and take the world king's position in the United States? Father said that the Casino King will save America. That's a tremendous prophesy, right? For some people, thinking of casino king might sound like a gangster, some kind of Al Capone or something like that. It doesn't sound right. Casino King coming to save America. But it's beyond what we could think or ask, okay? President Trump got in and put down a big fight. As you all know we had to really fight hard to support President Trump. We were the only community that since 2018 had prayer groups praying for him, because Father taught us so clearly about VOC and communism. We were the only community that since 2018 was praying to stop the assassinations that might have been coming. When in 2018 we were talking about the danger of assassinations of President Trump, everyone thought that we were

crazy. Nobody believed what we were saying, but we were moving in faith. We were moving with the spirit. We knew that the attack is going to come, because the spirit was very strong. Father obviously had taught us about the dangers of political Satanism. So all our families across the world had been praying since 2018 for President Trump.

AMERICA STOLEN

Of course you also know what happened in 2020, they stole the election, they stole America. You all know about J6, right? J6 thing was a big deal, right? I was a domestic terrorist at J6. We were right up there in J6, and they were saying that all Trump supporters were domestic terrorists. They kept saying we were all white supremacists even though we were not white, they kept calling us all Hitler, Hitler. They called Trump Hitler. That was a very spiritual moment. If you know American history you can say it was like the Tea Party. Tea Party was when the Americans said no to the British Crown. The British were trying to impose tax on the tea, so Americans dumped the tea in the water. They said “F..” you to the British crown. That's basically what they did. Then three years later, the American Revolution popped off in 1776. I'm born in America, and that's how our forefathers fought.

ROD OF IRON

In Europe when you talk about firearms and look at the images of AR (referring to the design painted by the king on his clothing), you would think oh, oh, right? Then you also have the propaganda saying that if the citizens have guns, everybody would die. You would think of mass murderers everywhere. They say that America has the highest mass murdering. They keep repeating this. This is a common CNN talking point. They say America has the most mass shootings in the world. How many people have heard this? You're all victims of the propaganda machine. Yes, so there are mass shootings in America, obviously. But do you know where these mass shootings take place? They happen 98.4% of the time in the gun free zones, where you cannot carry guns, like schools etc... These crazy people wanting to kill the children, or they want to do mass carnage, or something like that. It happens on a gun-free zones. They won't commit mass shootings in police stations, or at the NRA show since everyone has guns and is armed. They won't do mass shootings in GOA show or the Rod of Iron Freedom Festival, right? They don't come to our festival, because everyone has the Rod of Iron there. This is the real science and sociology. Yet the propaganda of the whole media apparatus keep saying “danger, danger, danger”. Why? Because they want to keep communism. When the people have the rod of iron, they become kings. Do you understand? They become kings. They can say no to the government. And there's always more people than government, always. So to oppress people that's the first thing they try to oppress them with (taking away the right to bear arms). In communist dictatorship, what must they do? They must take away the rod of iron. They must take away the firearm from the people, if they want to establish communism. That's why in Europe, they don't like it. They do want the European people even think about that. This is because of so many centuries of slavery you have been under your kings and oligarchs, as well as the elites in Europe. So when I come to Europe feels like going back to Korea and the Korean mentality. I call it the slave mentality. I'm not saying that you people are slaves, but it's a mentality. This mentality brings you to think that you cannot do anything about it. It's the mentality of having given up. Korea is the same way, due to the 5,000 years of slavery under the Mongols, Manchu, Chinese, Han Chinese and Japanese, etc... So Korean people too we have this

problem that we think we're slaves. They don't believe they can be like kings. That's very hard to get in the Korean psyche, you know? Very, very difficult. That's why only the gospel, only the power of God's word can start putting that into people's heart. I am a son of God, a child of God, right? The Bible says that we have to be kings and priests, right? We're to be kings and priests in the kingdom. You see, that's a very dangerous word, dangerous words to tell people who are slaves. The oligarchs and rulers don't like that. That's why they always attack Christianity. Are you with me folks? That's why the kings and priests mentality is so very important. Now God is changing the landscape.

AMERICA CHOSEN FOR THE LORD

Since in America we don't see the Rod of Iron as in Europe, we used the rifles and defeated the royal family of Britain to get freedom, because America became free in preparation for the Messiah like Rome. So the Lord of the Second Advent comes and uses America as a springboard just as in the time of Jesus. Amen. That's why America was blessed by the Protestant Reformation. We did not have any kings. We didn't have any of the European kings who could control us in America. Are you with me folks? We had one King, His name was King Jesus. Hallelujah. That's how we do it in America. We have the whole Black Robe regiment. Those are the preachers in America. If you come to Freedom Festival you can see some of those preachers like Reverend Jonas Clark and others, who wear the Presbyterian black robe but they have their rifle. They had their pistols on the pulpit, because the British were going after them to kill them. They all got the death penalty. If you fought the British you would die. So you would get a capital punishment. So the Black Robe regiment preachers were those brave American preachers, pastors, that stood on the frontline with the American soldiers to fight the British for freedom. They used the rod of iron, and used musket at that time. They had almost semi-automatic technology as well that time? They didn't all have the slow black powder musket. They also had developed different types of weapons. It is very fascinating to see what they were using at that time. They were developing a lot of technology to give themselves advantage against the biggest empire in the world. Right? Now the Rothschild were taking over. When did the first setting of the world government begin in the world history? It began in 1920. The formal declaration of the League of Nations, a world government begins in 1920. Do you know of something as a moony very important happened in 1920(referring to Father's birth)? That's the fulfillment of a prophesy in the book of Revelation which prophesied of a world government at the Lord's return.

DEVELOPMENT OF TECHNOLOGY

This was the first time in history since we couldn't do it before, due to the lack of technology. But after World War One we had technology of radios for communications, tanks, and airplanes. We were already doing air travel. We were fighting with airplanes at that time. Although people think that in early 1900s we couldn't do a crap, we already had developed solar panels built in 1912. Did you know that? The first solar panels already were in New York district since early 1900s, so they are very old technology. The people back then were very, very high tech. Has everybody heard of Tesla? Have you heard of Nicolas Tesla? He was doing wireless control. He could turn on light bulbs wirelessly fifty miles away. Did you know that? This was in 1940s, I believe, before he was killed. You could have made good money off of that technology, right? Of course it was going to give a lot of power to people and they could not allow that. They could have communicated wireless without electric wires, just like the Twitter today. Nicolas Tesla could turn on wireless fifty miles away with no electric wires. Did you know that? Fifty miles!!!

He was doing that in the 1940s and 50s. But of course he died mysteriously. Because imagine if the people had wireless technology, we have endless energy. He wanted to make endless energy to help people in Africa, and the third world countries with endless electricity. It would have been incredibly amazing. You might say, who would be against that? Well, the power companies back then, didn't like that too much. Are you with me folks? You see the big monopolies didn't like that. So his patents were taken away of course and he was killed. His tower was taken over. But he had wireless energy in 1940s and 50s. Immagine if we had wireless like Twitter from 1940s. They couldn't lure us into war, would have been very hard.

ENDLESS WARS

The globalists are always trying to force war in order to make money off of it. Through the military industrial complex. The only way you can get war is to control the propaganda. You have to control the narrative, right? In order to beat the drum, right? For example, right now they're trying to put in Putin! Putin! right? If you dare to say that you don't want your son to go and die in a money laundering war in Ukraine, they will call you Putin supporter! Putin! Putin! This is what they do to you. Because you don't want your son to go and die for no reason. They didn't have to start this war. They started it to steal money. Right? And now that's now come out. President Trump and Musk have gone in by the miracle of God. Praise God. Let's give Father a big round of applause, everybody. Father saved America. My gosh. Otherwise we were all destined to go to prison. I was definitely going to be on death row. They have tried to throw us in the pen for J6 in 2020. They were trying to say that we had organized it with the Proud Boys and Stuart Rhodes who is Oath Keepers; since they came to our festival. We saw them at the Trump rallies, we are cool with them, we're very cool with them. So they got those boys for what, 28 years of conspiracy and sedition against the U.S.? Remember? They threw Joe Biggs in, they threw all these power boys in.

One of my rapper friends who is an excellent rapper, Latino, Mexican rapper, phenomenal. He was in the gangs when he was younger, but he got out of that, God saved him in prison. They also threw him in prison for January 6. What he did was just going in the building by the permission of the police, shaking hand with the police officer and leaving. That is all he did, and for that he was thrown in a federal prison for six months for nothing. It's ridiculous, right? It's totally ridiculous.

We were actually working on different songs and stuff. But of course he was getting hit, because he was in prison. They would not give him any medical service in prison, so he got pneumonia. He got the Covid. He had terrible breathing issue, and they would not see visit him. They wanted him to die. For what? For going in and shaking hand of a policeman and the police let him in, ridiculous. So this is actually an illegal activity by the government. This is called entrapment. That is a crime. That's a crime. You are trapping U.S. Citizens. That's a crime police is supposed to uphold the law, not break the law, right? The police is not supposed to break the law. They're supposed to uphold the law, but they're making people break the law and then trapping you, right? So a lot of people we know were locked up in prison. Steve Bannon whom we have been on his show, he's very famous under Trump. He also taps in with our Freedom Festival every year, by phone call; he phones in by zoom, because his health is not that good. They also threw him in Danbury prison for 6 months, the same prison as Father had been. He was president Trump's White House chief advisor.

PERIOD OF PERSECUTION

They went through all our emails, the FBI has access to all your data, as you know. They can illegally seize your data, right? You're European, you know that, right? The government can just take your stuff, right? You understand? So they just come in and control. A lot of our brothers were visited by FBI, knocking on their doors, right? They were trying to throw us in the pen. But of course, God had his hand upon us, and so they went through our emails, they tried to search everything. Did we have any emails doing seditious conspiracy against the United States, trying to overthrow the government? Do we have any emails like that? No. Why? Because we were praying in Holy Ghost, that is why, amen. We were not communicating with email. We were communicating with spirit realm, we were communicating with the Holy Ghost, and with Father's hand. They tried to get in our emails, and try to say we did sedition conspiracy against the United States. By the way if they lock you up for that, the punishment is what? Death. You understand that folks, right? So they tried to do that, but they couldn't. So, they came after me with the IRS. A year and a half ago. They tried to lock me up for the IRS. That's what they did with Father as well, right? They could not find any seditious conspiracy with True Father during the Nixon times, right?

Remember all the brothers and sisters, Tim Elder was there, all the brothers and sisters were out on the streets of, D.C., New York, everybody was holding up the big signs, Unite, Forgive, right? Remember this? So in Korea we call it, Jikyeotda, that means you got labeled. The left-wing media, BAM! Labeled the Moonies as a conservative, anti-commie dangerous Hitler movement. Whenever they don't like you they just label you as Hitler.

They called Father Hitler as well in the Nixon time. The IRS came out to imprison him ,for what? For a thousand two hundred, give me a freaking break. They tried to put me in prison for \$300, but even the IRS said that's probably too little \$300. They realized that they were going to have a hard one with that, so they actually dropped that case. But we had to fight them spending \$20,000. These people are crazy.

They were doing all this kind of criminal activities and of course they were trying to entrap everybody in J6, but what happened? The Holy Spirit was there, and there was like a Tea Party. FBI raids were happening, they were locking everybody up. They're coming at your doors with guns, coming through with stacks, that means like groups of cops coming, SWAT team officers coming through your house. This is to terrorize people. This is to create terror and fear. You understand folks? So they were raiding all these Trumpers who had done nothing, people like grandmas. You know, they led BLM, and Antifa. Those are leftist terrorist groups. you have heard of Antifa and BLM, right? These kids were being paid by Soros. It came out that actually our federal government paid for it with the USAID. I don't know if you have heard of it?

CLEANING THE SWAMP

But anyways, President Trump, and Elon Musk, have now dug that up. We were paying for that trash. They were burning down cities. They had pallets of stones, you know, like bricks. They were sitting there at the riots. They would prepare the bricks so they can go wreck the city. None of them got into prison as terrorism, but grandma who was invited into the Capitol building by

the police, went in only taking photos, was labeled as a domestic terrorist . Give me a break, so ridiculous. If I post this stuff and try to tell everybody about it in Europe, you can't see it. A lot of you can't see it, depending on your country, right? They will shut down our accounts, so you cannot read anything. You cannot see any news that's coming out other than your government-approved news. That's how communist countries work, right? Because information is the power of the people to then make the decision.

If they don't have the right info, they're going to make bad decisions. Amen? Is that true? If you're only given information by the propaganda machine, you're always going to just make the decision in the same way. They don't want Wi-Fi for everybody. They don't want Twitter X to grow big in all of Europe. In some of your countries rumble is banned as well as YouTube. Serious shadow banning. Instagram serious shadow banning, right? But X is the place where you can actually get a real news.

GENERAL INSPECTOR OFFICE

Elon Musk is every day at Doge, do you know Doge? Oh my gosh unbelievable. It is the first time in American world history, that we have the General Inspector Office, right? The General Inspector Office has to investigate, audit, and press charges against who? Citizens? No, against government officials. That is their job. For the first time in America we have the General Inspector Office.

Literally first time in America. It's made to investigate the government employees, not the people. That's unbelievable. Elon Musk was on with Joe Rogan like two days ago. Did anybody see that? He is in fear of his life. Joe Rogan asked him, hey what have you found bro? Elon Musk said, oh you know, I can't talk about it. You know, I can't push too much. He said if he pushes too much on the corruption issue, he's going to get assassinated. Elon has a weird way of talking. Cute way of talking, very cute, but weird way, smart way of talking, right? But he said basically if I tell you what I'm finding I will get assassinated. So I cannot push too hard with the corruption. He said that on Joe Rogan, you understand? 32 million views in a day or something. There are millions of people watching that. You understand how dangerous that is? This is the richest man on earth, and he fears for his life, because he's exposing the deep state. You understand, folks? So that's why even on Twitter today I was praying for Elon Musk. We're just putting prayers of hedges of protection around him. Just pray for him. Keep him in your prayers. He's not perfect. You know, nobody is, but keep him in your prayers, please. Okay. He is doing a tremendous job of exposing the government corruption. And what's happening with the EU, because the EU is failing economically, going bankrupt, socialism, taxes so high, crazy illegal and immigration, and open borders. You're getting no-go zones and media as you know is lying all the time. But you can't do anything about it, right? The EU is imploding, so people are getting angry.

THE DEATH JAB

Let's see, how much a dozen eggs cost in Europe. Five euro. Do you know it in dollar? 5 dollars. You know what Biden did before leaving office? He left a present for President Trump. He left a present. You know what the present was? He ordered the killing of 100 million chickens. Isn't that a great present? He ordered it through the FDA freaking Department of Agriculture. They said the Avian flu was taking over the U.S. Apparently the Avian flu doesn't cross the border to Mexico!!! It stays where it wants it to stay!!! Just like the Covid. Remember with the Covid? You wear a mask up here, you sit down, now you can take off your mask. Crazy people! You understand? This is psychotic people. But what was Biden's present to President Trump? You heard that, right? 100 million chickens he ordered to be killed. So what does that do to the egg prices? Does that go up now? If you kill 100 million chickens, will the egg prices go up? It's skyrocketing. The chickens had, they were saying, had the Avian flu. So they wanted to save lives, just like the WHO, wanted to save everybody's life!!!. That's why they wrecked all the economies in the world. They killed four to six thousand people in Africa, because the third world countries went into massive starvation. Those are actually UN numbers. And of course they pushed the death jab which, if you didn't get, they would kill you. They would say, you don't have the job no more. You can't work you can't buy or sell. Remember this? Uh-huh. And now it's coming out what the death jab had inside. All sorts of bad stuff in it like proteins, Turbo cancer etc... So now we have the huge jump in young people getting heart attacks and myocarditis. Even in high level athletes, huge jumps. Now there's clinical studies coming out of Yale with what!! Oh Turbo cancer Rapid cancer in the body. But if you said anything, I think in the EU, they would arrest you, right? Do you remember? In America, they tried to do that in some of the places, like California, some leftist area, but they couldn't do it in the right area. Why? Do you know why? Why can't they not do it in the red areas? Huh? Why not? There's a hint. Everybody's an army. You understand? In the conservative area, everybody's home is an army.

You have five or six kids or something like that, you have a team. You have a whole SWAT team. So they could not push that in the red area, but in the left area they tried it creating a lot of suffering for people. Very similar to Europe. You remember this, right? With the forced vaccination, you lost your job, you were shamed if you said anything. These people were crazy. And they did totalitarianism everywhere. Right? So they really harmed so many people. This is supposed to be a health organization, a world health organization. They're doing policies that are killing millions across the world.

LIES ABOUT RUSSIA

Oh, the egg price. In America, egg price now, for a dozen is 30 dollars meaning, three bucks an egg!!! Why? Because he killed off all the chickens. The lunatic Biden!!! They did it in order to say, look Trump went in and he's destroying the economy. Now we cannot survive. \$30 eggs. But you killed a hundred million chickens, you see what happened? Crazy lunatics. They are insane. They do anything for power. So that is what we have to deal with all the time. Trump will solve this issue quickly, he will just buy it and Mexico will send it. Build the wall and pay for it. With Trump we don't need to worry. Mexico is selling dozen eggs for one dollar.

We went to Russia the Ruskies in Moscow. They're selling eggs for one dollar twenty four. Russians, remember all of you were supposed to hate Putin. They keep saying that Putin is starving his people, right? They say that everybody's dying.

Did you see my Twitter? I went to the Russian supermarket. It's like a Walmart. What do you have here? EU, what have you got? Huh? Eh? Ivy? ID? ID? Okay, well, ID. So, in Russia, I guess ID, right, is the Pero Cristo supermarket chain is everywhere. So I wanted to go and see what the real people are actually paying for the eggs? I wanted to see personally, so that I would report it to my people in America, the patriots. I'll tell them I'm in Russia anyway. So we went to the market.

We shot the video in the supermarket. Can you find it on X? Can y'all go into X? Go to King Bullet Head on X. And you will see a massive starvation in the Russian supermarket (ironic). Massive starvation. They're starving, folks. They're starving so bad. So bad starvation. Laughter. They got Shin Ramyun. They have got Chapagetti. They got Udon. I couldn't believe it. That one I didn't actually check. I was just making a video about it. I said, wow, everybody, look at all the starvation in Russia. Look at all the starvation. They got shenlamen starvation. They got chapagetti starvation. They got udon starvation. They got full cheese aisles. Look at all these cheese starvation. They got meat aisles. Look at all this meat. Everybody's starving. Egg price, \$1.24. \$1.24, cheaper than America right now, because Biden killed all the chickens. Isn't that incredible? But they want you to believe their lies.

UKRAIN WAR

UK summit today, because President Trump gave Zelensky a spank. Zelensky was acting like a baby coming to the big daddy's house, White House, saying give me "more money, more money". Acting like a lunatic. You don't talk to your boss that way. He's the one giving you money. You don't come to the big boss, the big king and say, you give me money. Who are you? If they don't have U.S. support, they'd die. They'd all be dead. He's already killed, what, like hundreds of thousands of his own people. They have a shortage of men. Did you see the video of them kidnapping young men off the street? Have you seen this folks? They kidnap a young man off the street. Oh perhaps you can't see that in UK, due to censorship, right? They don't let you see those videos, on X, on X you can see, yeah. They've got live videos on that. They pull up in a van, military men come out, they see one guy, just a young guy, like these guys. They see him riding a bike, grab him, the guy's screaming, hollering, no, no. They stuff him in the van, then they disappear. He's thrown in a meat grinder. Those men didn't vote for that, you see. Those boys didn't vote for that. They're trying to get away. Right?

They've been thrown in a meat grinder. Just like a, you know, a meat grinder, like a sausage grinder. Their bodies have just been thrown in. Their lives are gone. They're young. 20 years old. They got a whole life ahead of them. Dead. Now they're gone. Hundreds of thousands of them. Why? It's ridiculous.

This stupid war could have totally been avoided, right? Under President Trump, this would have never happened. Never, never, never would have happened, right? Now Zelensky met with Keir Starmer of UK. He got 2.6 billion dollars from UK, because President Trump told him to not return to the White House unless he would be ready to sign for a cease fire.

We are America, number one, okay? We are the superpower. We rule the world. That's basically what he's saying. I'm the big daddy, is what he's saying. You don't get to come here and tell me what to do, boy. Okay, so basically he kicked him out.

Huh? Oh yeah, we got kicked out today from World Economic Forum. The security guys said, no, no, no, no, no, no. So we got chased away by the globalist cops today. But the point is, he went to Keir Starmer. He got \$2.6 billion dollars, right? You know how much money they got from America during Biden administration? How many? Hundreds of billions of dollars from the U.S. Hundreds of billions, billions of dollars.

What happened to all that money? Even Zelensky said half of it, more than half, stayed where? In Washington DC. What does that mean? All those DC politicians, they stole it! That's why they want the war. Because, they say, oh we're sending 200 billion to Ukraine, they send 100 billion, and they keep 100 billion for themselves, stealing it. These people are criminals. You see why they like wars, you understand folks? They can steal money this way. So President Trump is now exposing this, and then of course has stopped all the funding to Zelensky. That is why he ran to Keir Starmer, and they gave him 2.6 billion. Then a couple of hours later? He said we want 250 billion!!! What does that mean? These crazy lunatics in the EU? He is trying to get everybody killed, over WW3. They are trying to go into war with Russia, which is suicide. EU your army is so weak. If the U.S. Don't help you, you all will die, do you understand? You're going to kill all these young boys. For what? Why? Insanity. Of course, because of the EU communist system.

GLOBALISTS LOVE CENTRALIZED GOVERNMENT

You know what is the problem with EU? Let's say you live in UK for example, and the idiots in Brussels are making regulations on the fishermen in the UK. What the heck do they know about the fishing in UK? You see what I'm talking saying?

Or you might be living way out there in Scotland or something Okay, and you want to cut a tree down in your backyard, but because of climate change, Brussels don't let you cut down a tree or have a furnace. But Brussels is not even in your country. It's way over there. How are you going to pick up from your life and go demonstrate at Brussels? You're not going to do it. That's the problem. It's like America, we have DC, right? Too much power is in DC centralized power, so we live in Tennessee and, other people live in Arizona, or California three days travel to get there three days like by car.

How are you going to pick up out of California, Arizona drive all the way across the U.S. To go demonstrate in DC? You see if that's why the federalized system with too much power away from the people is bad, right? We're fighting to have a decentralized power in the states. So for example in Tennessee, if they're doing something stupid, we can go fight them in Tennessee. We don't have to go to DC. They're closer to us you see, so then since they're closer more Tennessee people can go fight them in Tennessee.

The same thing should be in UK, France or where ever else. If you don't have EU, Brussels doesn't make your rules. If you live in UK, UK makes the rules. So you can fight, you can you can go out and demonstrate right near you. They're in the home turf. France right? You can demonstrate in France. You don't have to go all the way to Brussels. Do you see what I'm saying

folks? But that's why communists will always do that. They always want to centralize to one big city area away from the people. Make it very hard to make your voice, and the people's will be heard. Ah, you see? So we are fighting this big battle in America for U.S. sovereignty, because we've been taken over by globalists, just like you.

EU has become the haven of the globalists and the Rothschild Satanists, but of course they have taken over the U.S. Since 100 years ago, they've been building the deep state. Since 1914, that's when the Rothschild Bank came in. It was signed in legally by Woodrow Wilson, right before them making the world government. Because, after World War I, who was going to fund everybody? Who was going to pay for the bills? Who was the richest power in the world after World War I? We were. We were number one. We were the king.

Everyone had to bow to America, right? Even World War II, the same thing, right? Everybody had to line up in America or not, right? But, right before World War I, the Rothschild already had taken America by Woodrow Wilson, bringing that in.

1914 the Federal Reserve Act was already preparing the way for world government by 1920. Right in a seven-year period, when the Lord of the Second Advent would come, and the big battle would begin. So, we saw Father fighting worldwide communism, VOC training, all this stuff worldwide, right?

Even Gorbachev and the Kim regime gave credit to True Father, especially Gorbachev gave credit to Father for bringing down the Soviet Union. You all know this, right? Why? Because Father had a worldwide network fighting communists through education and through training throughout Russia. We had how many people did we educate? Over 40,000 people in Russia, right? You all know this, right? Father was fighting the international communists. Because he of course was imprisoned under the communist regimes and was tortured and killed under communist regime, and of course resurrected.

He endured the harshest capital punishments, and tortures in the communist regimes. He taught us very clearly that communism is political Satanism, a vehicle that Satan uses. Which church can you find that uses all its resources to build an anti-communism network, and fighting communism worldwide? There's not one pastor or Catholic Church not even one. The Catholic church is part of this globalist system. When Father was doing this, we didn't understand it. Because nobody was giving us the breakdown. We had no idea on what's was going on? But Father was fighting these powers. That is why wherever he went, he was persecuted and thrown in the prison. He was banned from countries like UK, Japan, etc....

FATHER TRIED TO STOP WARS

Father was trying to stop the wars. You remember 9-11 happened and they were trying to start wars in Iran, Afghanistan, and Iraq. Father ended up in hospital. He was so angry, right? Remember?

Father even called Bush's king of Satan's world. Because 16 of hijackers on 9-11 were from Saudi Arabia. Why did they go and attack Iraq? Dick Cheney and Halliburton made billions of dollars off the oil. Why'd you do that? Of course they did it for money. You killed million plus people for money. Was the Messiah for that? Absolutely no.

Totally against it. You see, Father was fighting this world-level events. That's why sometimes in

his speeches he would hint that CIA was infiltrated among us. He would say, where are CIA, where are you? He would call the FBI. Because they had put moles in everywhere. They were always trying to get off him. They would put him in prison. Right through the IRS. Tax evasion. All that. Right? So we had always FBI, CIA infiltration.

When we moved to Tennessee, remember?

Even after 2020. After Jan 6. When we bought the RV park in Texas. Remember this? The news was going nuts. Do you remember this? I don't know if you all saw that. Did you see that in Europe? Did they block that? Okay, they were going crazy. They were going nuts.

They were going crazy. Cult-leader buys land in Tennessee. Right? They were going nuts. There were so many stupid articles about it, saying, you know, the gun cult is coming, trying to incite the Southern Baptists.

Oh, did they pull that out? Okay, okay. There, see, that crown is actually heavy. That crown is that is heavy one (referring to the screen). This is light. This is very light. This is very light. They put the aluminum bullets or something. Very light. But you remember that, they were going nuts. Whenever we were doing anything, they were going nuts. Right? Because what was this apparatus? The whole media apparatus. This is the apparatus that they're telling the CIA this is the person of interest, this is the person of danger so hurry up and get rid of him. That's what they were saying.

MSNBC did a big thing on us. Remember at the Rod of Iron Freedom Festival? What's the big channel in EU? You guys got a big channel? Like a big communist leftist channel in EU? National channel? You got national channel? Oh BBC, yes BBC, like BBC. In America we have MSNBC. Have you heard that one? MSNBC main anchor, main reporter, her name is Rachel Maddow. Have you heard of this lady? MSNBC, that's like our BBC in America, but the main anchor is a lady called Rachel Maddow. Okay? She looks like a young boy, because she has a haircut like a man. Okay? But the point is, they did like a 20-minute piece on us. Okay, there she goes. I think she's lesbian too. But anyways, she did like a 20-minute piece on us, because General Flynn, who was a high profile, probably number two in the Trump MAGA movement came to the Rod of Iron Festival. I have been reckoning his lawyer, his son Mike Flynn with his girlfriend Katie, who's also very famous Latina in the preacher movement from the Bronx also came. So basically, the whole Flynn crew came to our Festival. But General Flynn is like the top, very top, under President Trump, right?

So the MSNBC was freaking out, freaking out, because this was like two weeks before the election. So Rachel Maddow was going nuts, she was going like a psycho lady on the MSNBC talking about, you know, obviously they love making fun of the bullet crown, because of it's symbology.

SATANISTS LOVE SYMBOLOGY

When you're fighting the Satanists you have to use symbology, right? Because Satanists are very much into symbols. They love the symbols, right? They use many different types of symbols, secret symbols, for example FBI, CIA have designated different triangle shape symbols for pedophilia, and stuff like that, right? They love symbols, they love the rainbow cult symbol, the

rainbow flag, another symbol, symbology, right? Because they use the 8 stripes rather than the 7. And all this kind of stuff, they love symbology. And the satanists, what they do, they like to turn Christian stuff upside down, right? So they take a cross and put it upside down cross. You see this, or they took a Jesus depict him upside down. You notice, okay? So they're into Just trying to upturn what is good and what they think is holy. They're not creative, so they just flip things upside down. Yeah, they're turning it upside down, you know, because St. Peter was crucified, great St. Peter was crucified upside down, like to invert, right? So they do that not only in their symbology, but they like to invert things also in theology as well, right? One example is making men into women, women into men. They want to push deities like, Ashera, Ishtar, that will end up in pushing "transgenderism". You see what I'm saying?

They say you can change your gender. God doesn't decide, you can decide. You see? So what they're trying to do is to invert the reality, invert God's design. Whatever they feel God has designed, they try to invert it. That's what they do. So Satanists are not creative. They just try to turn things upside down. If they feel a nuclear family is this way, they want to turn it upside down. No, no, no. We're not going to have male and female as nuclear family. We're going to have male and male, female and female.

They just want to turn things around, right? They like flipping things upside down, and causing the destruction of God's ideal. So they're very much into symbology. They use a lot of hidden symbols. Like for example, one of the satanic gods in the satanic pantheon, and they always say, oh there's different types of Satanism; some are atheists and some are... that's all smoke in mirrors, okay? They have the same worldview, same moral principles. They're into the philosophy of determinism, they're into the philosophy of you can be God, right? That's basically what it is. It's rebellion against God. And so one of their symbols is the transgender God, right? The Baphomet have you seen the Baphomet? The Baphomet is the goat with breast and then he's got the penis with the two snakes.

Have you seen this one? So that's one of the gods or one of the main symbols for Satan. They try to popularize it by making cartoons of it, and try to make young people in the West get into the symbology of Satan, right? The goat heads, the Satanism heads, the 666 numbers, the Goth, you see what I'm saying? So, this is a transgender God, right? It's a quote transgender. So they're saying, no this is a God that can reverse what God has done. You see what I'm saying?

So satanists are very much into symbols. That's why when they see this (referring to the bullet crown) they are so angry. This crown is very, very angry. If I wore like a crown with flowers and... I have, like, the one Kook Jin Nim made, or the other ones, right, for the ceremony they would not object to that. It has olive branch and little doves on them, you know, and Tongil mark has like flower embellishments, right?

So, that one, that one we use for the big ceremonies, right? They don't care about that. That one they don't care about too much. But this one, they go crazy. This one really makes them go nuts, right? Because this one has a symbology. Has symbology. Not only is it a crown which symbolizes royalty, which means you can't tell us what to do. Right? Your globalist rules, your communist rules, will not apply to us, because we are God's children, we have sovereignty away from you, right?

So it's a royal symbol, the crown, but at the same time, it's made by bullets. Ah, right? And the bullets is what? Bullets come from the gun. And the gun is a stopping power to the communists. If the people have guns, communists cannot do what they want. They can't push transgender ideology on you. They can't push your children to watch Drag Queen Story Hour. They can't force you to have gay education. You don't have to have that, because you can say no. And if they try to do it, you can fight them back. That's what happens in America. You see what I'm saying? So the American people are like kings. In our law system, in the system of law in America, we have something called castle doctrine. Castle doctrine. What is a castle? Is that a place where peasants live?

What is a castle? It's a place where what? King lives. So even the normal citizen in America has something called castle doctrine. The left in some leftist cities they try to destroy that, but generally we have the castle doctrine. That means in your castle, your house, it could be this small, but that's still your castle. If somebody tries to invade you, you can stop them with lethal force, if they are try putting you in lethal danger. Because that's your castle. You see what I'm saying? So, does the government like that? No, they hate that one. They hate that one. Because they want to come take your house. They want to tell you what you can and cannot do on your land. They want to make this and that regulation, say you can't build this, you can't do that, you can't have this, you can't do this, you have to get this government license, you have to get this license, get this license, get that permission. By the time you do all these procedures, you're poor. That's how they keep you poor. You understand? That's why they don't like the idea of sovereignty, where you have freedom to do what you will on your land, and work with your community. So the rod of iron, the firearm, symbolizes that concept. It's a symbol that says no, this is not a normal kingdom. We don't just have flowers. We love flowers.

I love flowers. We love it. We love flowers. We raise lotus flowers. They're beautiful, gorgeous. We love flowers. Flowers are beautiful. But we have not only flowers, you see. The Rod of Iron Kingdom, and American citizens in general, we have big guns, too. Right? So that means a tiger has the teeth to bite, if the bad guy comes. Right? So that's very important. Why is that important? Because in the Cheon Il Guk Kingdom, all citizens of Cheon Il Guk have that right. They have the right of kingship. So, they have the second amendment right, which is what? The right to bear arms. They have the right to control military equipments. Why is it important for citizens to control military equipment? If you control the military equipment, can they do the war with Putin or Ukraine or Middle East? Can they do what they want, any war? You as people can control the military weapons, because they're your private property.

Can the globalist government start new wars very easily? They try, they will try, but you have the power to say, no, our aircraft carrier is not going to your stupid war. Our tanks, we're not sending. You don't tell us what to do. We're the kings of these tanks.

So then it's a problem, right? The globalists, the centralists, the commies, they can't just tell you what to do, you understand? They can't start wars, or do whatever they want. The citizens have the power. They own the sovereignty of not only the land, but also the weapons. You see, but because you're trained, you're trained in government schools, you are taught a slave education. You're not supposed to think this way. Only the government trained people can have weapons, because they are trained. They have the license. You see that? You normal people, no, you are not trustable with that kind of power. You understand? That's what they're saying. But the problem is, even in America we have different tests for firearms. Our civilians,

many times, are way more trained, better than our military folks and our police. Civilians get a lot more training. Because we actually have to use it to defend our home or property. Do you see what I mean?

TRUE SOVEREIGNTY

In some rural countryside area the police is too far . Are you with me folks? So, that's why the sovereignty is so important, but this kind of bullet crown represents that kind of sovereignty. It says, no, in the kingdom of God you globalists, communists, fascists, can't rule over us. Even in the kingdom of God's Constitution; Father's kingship is there as a kingship line, but that kingship line is not in the military. That kingship line doesn't have military power, nor does it have a legislative power, it doesn't make laws. Instead it is responsible for the judicial branch, so as such, it protects the Constitution. Father's kingship line must train with the people. Which is how I trained the third king, right? He's always training with the folks. Training with the young people, getting down, and dirty on the mat. Training up the next generation and he busted his knee up and tore one of his ligaments just before this tour. So, that's why the training people in the peace police, peace militia is so important, because the Cheon il Guk Constitution does not allow a federal police, and no federal military.

Why is federal military for the police dangerous? If you have federal military for police, look at every communist fascist nation. Do they have federalized police and military? Yes. So what does that federalized police and military become? It becomes the secret gang, like a mafia, of the political class. It does not serve the people. Are you with me, folks? For example, even America legally, probably same in Europe, I bet you it's the same. In America, the police is not legally obligated, that means they're not required to risk their life for you. They're not required. So there's a case that they got sued for in Washington DC. A man came into a house, raped a woman on the first floor, went up to the second floor, raped another woman. Okay, he raped two women in the Washington DC building and left. Ran away. The police did not do anything. They didn't even enter the building. Okay, so then, you know, obviously the women were angry about that, because they got raped, so they sued the police department. The federal judge ruled that the police is not obligated to risk their life to protect you. They are obligated to do their different functions, like filling out paperwork, after you die, you know, writing, drawing the chalk line, stupid stuff like that. But why are we paying for the police then? Because the original agreement was, okay, we'll pay, we'll elect you, and you can take our tax money for it, right? But you will protect us.

That was the original agreement, no, of law enforcement, is that true? Isn't that why they can steal your money through taxes? They're supposed to protect you, but then it turns out legally, they don't have to protect you.

Why? Because the federal police, and the federal military, will always become the mafia of the super class, "the oligarchs". So that's why in Cheon Il Guk, federal police is illegal federal military is also illegal. The people themselves are the peace police and peace militia, every single one of them.

It is totally decentralized. So it is not a mafia to any politician, or New York City or some city mayor, or something like that. These are the local people who are the police. They get to elect

their sheriff. They get to fire their sheriff. If the local agent is bad, you get to fire him, and throw him in prison, because you're all also part of the police, are you with me folks? This is totally different from what the satanic world is.

It's a complete opposite land from what Satan has created, and of course it's a land of freedom and responsibility. Freedom and responsibility. Right? No federalized education either, right? So how did the Rainbow Cult become so big and powerful, and brainwash our children to become gay, lesbian, trans, all this stuff? How did it become so powerful? How did it get to the point where they're forcing Drag Queen Story Hour on us in the U.S.? I'm not sure in Europe, but I'm sure they're doing it, too.

How did it get to a point where they're making a multi-billion dollar industry of chopping off children's genitals, mutilating them for life? And it is explained as, progressive, and supportive to mutilate children, and let's not forget killing babies in the womb. So, how did we get to this point? How did the propaganda system get to brainwash everybody? What is the machine that did that?

THE DANGER OF FEDERALIZED EDUCATION

Yeah, it's the Department of Education. So it's the federalized Department of Education system. That's the Prussian education system that Hitler used. Hitler used that. They exported that to the U.S. They exported it to the European nations after World War II. Horace Mann was the one who brought it to the U.S. He's an evil globalist, but he brought that system in after World War II. And his oppressive education system is a top-down government, centralized education board that will determine what the children have to learn. Are you with me, folks? So that's how they got so far, pushing that type of radical ideology. Now if they didn't have the Department of Education and the Federalized Bureau of Education, that would not have been possible. Because, Christian communities would be privatized and Christian communities would say, no, you're not teaching that to my children. I'm not letting you teach that to my children. You see? So they use the apparatus of the Department of Education. It is in the U.S primarily, but it's similar to the other countries. Department of Education, and then they use CPS. You have something in Europe with a CPS, like Child Protective Services? Okay, yeah, probably something in your country, you have something like a CPS? That's when they can kidnap your children. If you don't do what the government wants you to do in education, or whatever you don't want your children be learning for example about gay sex, in some countries that is a crime, then the CPS comes and take your child from you, and probably in Europe is very similar. But in America we have tens of thousands of children as President Trump says 300,000 are missing. So hundreds of thousands of children that are being sex trafficked in the United States right now. In the CPS system, when they take the kids from their parents, tens of thousands of children go missing. I was just talking to a brother who was in the CPS system. He was a young orphan in and he was in the CPS system. He saw so many people get trafficked. Because these government employees make money, they make big money. And of course they're getting the cover, top cover in America for example, they're getting a top cover from the FBI, CIA, that is running these kids

for the blackmail ops, and the operations they're doing. For instance in Hollywood the Diddy's parties or whatever may be to control politicians. They're running young children. Are you with me folks? You see how dangerous this net becomes? So that's why in Cheon Il Guk, we don't have federalized police, we don't have federalized education. Education is the priority and responsibility of the neighborhoods in the communities. And down children are missing every year in Germany. I'm sure also in other countries you have a lot of this, because the governments run these blackmail ops, right? This is what the Epstein operations were all about. And that's coming out, right? It was a combination of MI6 that's UK, combination of CIA, FBI and combination of Mossad which is Israel. That was the five eyes network that was running kids through the Epstein Island to get the top politicians, right? Now that some of the first lists has come out, like Prince Andrew of the British royal family was on that list raping children, right, going to the island. Obama's, Hillary Clinton 26 times or Bill Clinton etc... All these top elites were on that plane, going to these islands. They were filming everything get the sex blackmail on the people, right? On the top class elite, and so when they have the sex blackmail of those people, having sex with underage girls, or having gay Sex with an underage boy. What happens, now they got you, now they control you.

GOVERNMENT IS NOT HOLY

That's how government works. Government is not holy people. Right? How do you get promoted in the intelligence age? How do you get promoted in government? Especially intelligence agencies. How do you get promoted? You get promoted by lying for the department. You get promoted by killing for the department. You get promoted for prostituting, if you're a pretty girl, prostituting yourself for the department. They call it national security. That's what they always call it. You're doing it for national security. But what are you being promoted for? You're being promoted to lie for, quote, national security, do espionage, spying against different countries. You're paid to go and kill people, and you're paid to prostitute yourself.

But normal people don't want to do that, right? Because we have a somewhat of a moral compass. We're not perfect, we're still sinners. We have to repent to God and ask His forgiveness for our sins. But we're not, you understand, we don't want to just go kill people for fun, right? Or steal something for fun. Or prostitute ourselves for fun, right? Is that true? But the people who do that, who are willing to do that, have very low morality, and or they're psychopathic, and they're evil. They don't care. They just do anything for money, right? So that's why government becomes very dangerous, because it incentivize it's people for lying, killing, prostitution, sex trafficking, keeping blackmail secrets, doing espionage on the citizens of the nation, because it pays people to do immoral things, so immoral people gather. Does that make sense? And then the most immoral people are the psychopaths. They have no remorse. They gather in concentration there, and they get promoted very quickly. Right? Because they're willing to do anything for the department. They're willing to do anything for the CIA, anything for the FBI, anything for the DNI, for national security, they do anything.

And that's why at the top they are blackmailed, right? They're given those positions, given big money, inside trading rights, right? If you, if you people, if normal people, if we do insider trading, you're going to prison, right? You know what insider trading is? Like, you know, like,

let's say you have inside information on a stock or something, right? You know, so you buy early, and you know when you can sell to make tons of money. So, you play the market because you know what's going to happen before, you see what I'm saying? Then when you bet on the market, you're going to make billions of dollars, right? That's called insider trading. So is that illegal? If you do that, if you all do that, if you go on the internet and try to do insider trading, will the police come for you? Oh yeah, oh yeah. Police is coming.

You're going to get a knock and a kick at your door. But if Nancy Pelosi, if Nancy Pelosi, you know Nancy Pelosi, she's a Democrat Senate Majority Leader in America. She's super corrupt. If Nancy Pelosi does insider trading, use her position to get the stock advantage before the different companies open on the market, close on the market, sell on the market, buy it, she knows before it happens. So when she bets on the company, it always make money, you see. When she does it, or when the politicians do it, is that illegal? No, it's not illegal. They made a law, which makes it legal. Ridiculous. You understand? They made a law so they can do it. That's how Obama got, uh... two hundred thousand dollar salary, but his net worth is 80 million, 180 million, which is actually pretty small compared to these other guys. These other guys have sometimes billions, that they got from going into Congress. Originally, American system, you're supposed to go into Congress and you're supposed to work for free. You're supposed to come out poor, not richer. But, now the system is so evil and rigged.

I bet you it's the same in Europe. Politicians go into office, they don't have too much money, maybe they're a lawyer or whatever, they come out with hundreds of millions of dollars. I bet you it's something similar in Europe too. But in America, big, big time. So, that's the problem with the federalized government. It always will attract the most psychopathic people and concentrate them into one place. And then, if you allow the federal government to grow, those psychopaths will rule over you. That's what happens. That's what the globalist movement is about. They're a bunch of crazy psychopaths, that don't care if they're ready to pop off the whole freaking World War three, and get all these people killed, so they can get away with destroying the year.

They can get away with the bankrupt EU, or the terrible crisis in debt of EU, with the high taxes and crazy immigration and everything.

PRESIDENT TRUMP'S PLANS FOR PEACE

President Trump is trying to stop that. He is trying to stop World War III. He's trying to say, don't go to war with Russia. It's an unnecessary war. We don't need to die and kill everybody, just like you killed everybody in Ukraine. All the men are dead, right? They kidnap all the men and all the guys are dead in a meat grinder. We don't want to do that to the other European countries. Let's not do that That's what President Trump saying, right? He's saying, let's not do that. Let's stop this war.

Let's have good relations with Russia, all right? Let them make money, and you make money too. Europe can make money, America makes money, Russia makes money. Hey, and then we can go and destroy China CCP. We can help liberate 1.4 billion poor Asian people, whom have been living under communism for 77 years. Why don't we do that as a project? President Trump is doing that, by the way. He's attacking the CCP already. Did you see the news on Taiwan today?

We're going there right now.

Taiwan just announced 100-billion-dollar microchip, the biggest microchip company in the world, 100-billion-dollar microchip investment into the United States with President Trump. So that's going to really strengthen America-Taiwan relationship, which is what? It's weakening China. There it is, a hundred-billion-dollar deal with Taiwan. That's great. And then Marco Rubio, who's our Secretary of State. He came out two days ago, very strong on the news. He said America is also a Pacific country, because we got California, right? California's on the Pacific side, we got Hawaii too on that side. Then of course we've got allies with Japan, and he mentioned this. This is our Secretary of State Marco Rubio, who I didn't like honestly. I didn't like him when he was a normal guy. He like was a Rhino, but I think President Trump has shown him the black files. He said, you better listen. He's listening very good. He's being a good boy, okay.

But anyways, he announced on the news, he went on a big program; he said, we have very strong allies with Japan, and South Korea, and Taiwan. So, now they're already building up more strength in the Pacific Rim as the providence moves down that way. So now what's happening? Because of the failed leadership here in EU, and the total corruption of the EU, what's happening? Now, they're trying to pop off war with Putin. Why? Because President Trump said, no. America no more is going to pay for this crazy, crazy wars. We're not going to pay. You see what I'm saying? He's trying to stop the wars.

But because he's not listening, and he's not listening to the EU, and Keir Starmer and the Rothschilds, they are saying, ok, we're going to go to war. You people are crazy. You want to mobilize Europe, that means all these people, you want to force them to go fight Russia, which is a nuclear power that has more nukes than America, and they're more modern?

And in 2024, right before Trump got elected, they showed they had the capabilities of tactical nukes. Do you Europeans know this? They fired the tactical nukes. They didn't put warheads on them, right? So, they put warheads on the missiles, but those are missiles that can carry payload, nuclear payloads, multiple. One modern nuclear payload, one modern nuclear payload is 50, 50 times Hiroshima and Nagasaki, 50 times. That's only one payload. On one missile, they can put dozens of payloads. Why do you want to start war with these kinds of weapons? Does anybody here want to go do that war? It's insane. Right, so President Trump said, no, don't do that.

Do not do that. Let's not do nuclear war, because everybody's going to die. We're all going to get burnt up. Let's work together and make money together. Huh? Let's expand sovereignty. You see what I'm saying?

Let's not do the nuclear craziness. Let's have prosperity together. That's what he's saying, right? But, Zelensky is going now because he got spanking by Big Daddy Trump. So, now he's going to cry. He went crying to Starmer. And Starmer said, oh, we give you \$2.6 billion. Now he's crying more, saying we need \$250 billion. Oh my gosh. You already stole \$200 plus billion of the US, our money. That's our taxpayer money, we paid for that.
