2025. 03. 03 Part 2/2

USAID CORRUPTION

Then of course, you all know about USAID that Elon Musk has uncovered. USAID was the foreign affairs kind of department that the U.S. was using, they call it USAID, and it's giving like what they call foreign aid to other countries, right? So, how are they using that money? It's not audited, no one was allowed to audit it. No one could see how that money's being used. They pump in billions of dollars, so Elon's DOGE team has been digging through that, right? Elon's DOGE team found out that they were spending obviously hundreds of billions, on the Ukraine war. They were spending money on insane things like transgender ballet classes in the Middle East. Some ridiculous stuff like that; wasting our money. They're not using your money, European folks. They're using our money, the American tax payer's money. They were also paying hundreds of millions of dollars to the WHO of Bill Gates foundation. They were paying hundreds of millions of dollars to the WEF. These are not American organizations. These are globalist international organizations, that work together to destroy America's sovereignty. So, they can create worldwide communism. These are not friends of America. Why is America paying for them? you see what I'm saying? It is crazy, totally crazy. You see what I'm saying? Then all the wars. Why do we have to pay for all the wars? We don't want war. Why has the American taxpayer got to pay for this? Why do we have to pay for the crazy EU, and the crazy globalist institution like the WEF, and WHO that has got as many as tens of millions of people killed during the COVID crisis; that they made from the Wuhan lab with Fauci? Remember this, and if you said that four years ago, if you said that, which I did, but four years ago, if you said that, they would destroy you. They would ban you, they would censor you, they would call you conspiracy theorists, etc., right? But now, do you know what the main explanation for the COVID was? What is the main explanation? Lab leak. Which lab? Wuhan Lab. Who was funding it? The American government was doing illegal bio weapons testing against the moratorium in America. So, in America, that's illegal. Illegal. You can't do that in America. So, then Fauci and the CIA and the American government made the bioweapons labs in Wuhan, and in Ukraine and that's where they're doing bioweapons testing. And that's where the stupid thing came out , and

killed 20 million plus people. And if you said anything about it, you would be put in prison in some countries. No, this is political Satanism. Why do we have to pay for that? So the American people are fed up. America is \$36 trillion in debt. We cannot pay for that crap no more. We're done paying for this craziness. That's what President Trump is doing. He's stopping all that insanity. Stopping all the war funding. All the crazy Bill Gates funding. Bill Gates is taking hundreds of millions of dollars from the US taxpayer; to then attack the U.S.!!! We're paying hundreds of millions to China, Wuhan lab, where Fauci is illegally making bioweapons and then they release it and then it hurts the U.S. You understand how crazy that is? So, this is now coming out, President Trump and Elon Musk are revealing this truth to the world, they're showing this reality. It's unbelievable. Unbelievable. So the American taxpayer has been raped and ravaged. And we're done with it.

THE REASON BEHIND TRUMP WINNING

That's why we voted so heavy for Trump. Everybody, black, white, Asian, Latino, everybody, except for the crazy liberal girls, everybody went vote for Trump. Mass numbers, Latinos, blacks, Hispanics, Asians, record numbers for Trump.

Because it's hurting American citizens. We are being forced to pay for bioweapons that are getting unleashed on us. We are being forced to pay for other people's countries' wars. And we are going broke. America is going broke. And if America dies, we all die. If America goes, you all are living under totalitarianism. Bye-bye. No more freedom. You are under, you will be under totalitarianism. You think it's bad now with the EU, but if Kamala got in, y'all are done. You're done. America's done. You all are done. You will live under communist European oligarchs. You will be their slaves. China will grow. All those poor Asian people, they will be slaves. All over America, we're going to have a civil war. We were all prepared for civil war. We were all prepared. All the patriots, we were prepared for civil war. If you look at the gun purchases in America right before the election, because everybody believed, most people knew they're going to steal it again, right? Because they did in 2020, they stole it. They had 15 million illegals in, they had Dominion voting machines, made by George Soros, to rig the election. So we all knew high likelihood they're going to steal it again and they're going to come kill us. Because they just did that to the J6s. They put all our brothers and sisters who were at J6, who went into the building because the police opened the doors. Many people got locked up for six months and more. Some of our guys got, some of our people that we know, 28 years in prison. For what? Nothing. They didn't do anything.

No violence. They didn't break anything. They just went in, took some photos, shook police man's hand and walked out. You give them 28 years in prison for that? That's ridiculous. That's purposeful prosecution of your political opponents. And then they promised, because we didn't go inside the building, we were at J6, we got shot up with tear gas, we got hit with concussion grenades by stupid Washington, D.C. federal police tyrants. Washington DC Federal Police. Tyrants! They were shooting us, they were shooting us. I had a megaphone, so they were aiming right at us. One of our guys got hit with a gas can, because we were right up there too. Right? And they were forcing, they were shooting concussion grenades at us, but also they were shooting tear gas behind you.

And they shoot a concussion grenades behind you, so it forces you forward. Everybody's pushing forward, because there's a million people there, you see what I'm saying? So they're shooting

the gas back there, too. They're shooting at us, but they also shooting it back there. So all the crowds are going this way, and it's forcing people to move forward. Then the police line is there. So, everybody's pushing into the police line, and then they say, oh that is an assault. So, they start beating you, right? The only people that died on Jan 6 was an innocent woman an Air Force veteran Ashley Babbitt. No police died on that day, none of the D.C. tyrant Capitol Police died, not one. Who died instead was an innocent air force veteran Ashley Babbitt, who was shot in the face by the criminal capital police in D.C.; she's the sister that died. Then there was another sister who was a little fat, she got pushed by the crowd, so she fell, and basically, she was suffocated to death. Another lady, which now her profile is coming up Lora Logan, was a reporter, an Australian who immigrated to U.S., she covered her story. A lot of women were being brutalized, they were not even men. One of those sisters walked up in a rotunda like a tunnel thing, when one woman police officer, just kept beating her in the face with a baton. So, we have that all on camera. It's all on camera. She beat that white lady, I think over like 60 plus times in the head with the baton!!!! For what? Standing and singing a song!!! These people are crazy folks. And they promised, they promised if Kamala gets in, it's not only going to be the people that walked into the Capitol building, it's going to be everybody that was there. So we knew we were going to get locked up. They were already trying to lock me up, and of course throw me in with the IRS, before they did that with the FBI. So we all knew in America that 99.9% Kamala is going to win because they're going to steal it.

IF KAMALA WON

If Kamala won, the whole world was going to collapse into totalitarianism, but in America, we had to fight it out, because we have guns. So, we knew that we had to better organize for a possible civil war. So, the Patriots were preparing for civil war you understand? Literally. If you look at the gun sales, ammo sales, right before the election, the gun sales, and ammo sales, were skyrocket high. Because everybody knew what was coming. This was like the last election of America; this is it, this was the final one. We knew they were coming. We knew there's going to be a battle if they steal it. Like if they steal it legally. There's going to be a battle, the pockets of American people will not comply, especially if they try to come after the guns, which Kamala had promised to come after their guns. She promised. So, if she tries that, well, there are patriots in America that will fight them, and they will have shootouts. And The Patriots were preparing. You know, so imagine if Kamala got in; the world would be in pandemonium. All tyrants in the world, like Putin, and European Union, China, all of them would feel emboldened to do more tyranny on the people with more taxing. Because in that case America could not stop them. America would have been now in civil war. You see America would have been too busy in civil war. So now they could do whatever they wanted to the whole rest of the world. They could eat up Taiwan, they could eat up Korea, they could eat up Japan, whatever they wanted to do. America could not fight Russia and Ukraine, Middle East war with Israel and Palestine, it could not fight China, and have a civil war at the same time. We could not have been involved on so many fronts all together. So a lot of patriots in America were preparing. In case they would get a knock on their door, trying to take their sons; they were preparing to fight it out. They would have rather died in their driveway, than die on another country that they didn't even know. Do you see what I'm saying? We had very famous people in America coming out saying that. A

top UFC fighter saying, Nah, if Kamala gets in and start a war and try to come after my children, I will die in my driveway fighting them.

That was building up in America. The Patriots were saying, Nah, if you're going to kill me anyways, if I'm going to die anyways, if you're going to start a war and ship me off to some place to die for your stupid money, I'd rather die in my driveway, with my guns, my bullets fighting you. That's what the Patriots were preparing for. I don't know if Europeans, y'all understood what type of situation we were in. We were on the brink of a civil war in America. This was it. That's why so much support came in, because everybody felt it. Trump had record number of Jewish support, Christian support, and Catholic and Orthodox as well, and even Muslim support. Because nobody wants to go to World War III!

At least in America. Do you all want to go to World War III? Okay, so I think it's Europe too. In America, we don't want it, and we don't want to pay for it. Right? And by the way our nuclear arsenal is old, because of the stupid democrat regimes. They have not updated our nuclear missiles. We have old 1980s technology. Russians have 2025 technology. Russia has a war economy. That means, they produce their own drones, they produce their own bullets, they produce their own tanks, their armor, their infrared and their night operations equipment. Russia produces it with their wartime economy. The United States relies on 90% of all things coming from imports. We're not ready to fight World War III. EU, y'all have nothing. You rely on America. And I'm telling you, because we know General Flynn, our capability is weak now. We have old equipment, it's not been tested, it's not been upgraded. Russia has 40-year modern technology modern intercontinental ballistic missiles and they've been testing them on the battlefield in Ukraine.

CIMINAL INSTITUTIONS IN PANIC MODE

So of course we should not be jumping into World War III with these people. We want peace, right? You see what I'm saying? Because if we fight them, millions will die. Why? For what? Why? So that these stupid Bill Gates in WHO and these fools can get away with their crimes? The individual citizen, especially in different countries, you know what I'm saying, the individual citizens, it's hard to get things done through them, because they're such an elusive group. But now we know of course the funding has been through D.C. That's the main money stream, right? President Trump is cutting that stream of money. So now even the World Bank is declaring they're going to have a crisis this year, because President Trump is going to stop funding the World Bank. Do you see what I'm saying?

So all of them are going in crisis mode, all of them are getting desperate, a lot of them are the top class, the super class. They have been in the Epstein Island, have been in the Diddy's parties, have been in the pedophile blackmail rings, raping children at the highest levels, that's what they're doing, they're Satanists. They're on camera doing that stuff. And President Trump, Attorney General Pam Bondi, and Kash Patel, Director of FBI, have that information.

So, if that information gets out, the globalist elite and the criminal cartel gets exposed. People actually get to see who is the criminal, what did you do, what plane did you get on with to Epstein Island, which girl did you rape, which boy did you rape. We get to see the data. You see what I'm saying? That's why they are desperate. That's why Elon Musk is saying, on the Joe Rogan show two days ago, he said, they're going to try to kill me, because they're getting desperate. So, it's becoming very dangerous for the team that's trying to stop World War III. So

we have to pray for them. We really have to pray for President Trump and Elon. They're not perfect, but they're trying to give the information of the audit, right? Audit means, you know, you're auditing an organization. They're trying to give the information of the audit to the public. They're trying to tell you, well, not you, but Americans, where our money has been spent. And it's not been on America, and it's not been on helping our homeless crisis, or our crisis at the border, or whatever it is. It's been going to other globalist organizations, where they're robbing us. So, now we are in 37 trillion dollars of debt, and we can't continue this. It won't continue, so that's why they're going crazy, right?

Like we said, if you understand government, you understand that it is a concentration of the most immoral, most psychopathic people that will kill for money, lie for money, steal for money, prostitute, and commit sex crimes for money, traffic children for money. They do anything for power and money. Those people will congregate in government. That's the nature of government. That's why it's archangelic. It's an archangelic organization. It's not an Adamic organization. So, this is a serious crisis.

The EU summit, they had an emergency summit today, right, with Zelensky, and the British gave him 2.6 billion dollars. Now they're saying, Europe will be committed to putting boots on the ground. By the way, none of you had a say in it, okay? None of y'all had a say in this one. They just made the decision for you. The EU will be committed to putting boots on the ground. What's does that mean? Just like in the UK, that means, basically like the FBI, CIA kind of raids, you know, the SWAT teams, they can have power to come and snatch your young men just like in Ukraine and ship them off to war.

And you don't have a say about it, if they decide on your behalf that they're going to blow up the whole freaking world. And they're trying to blow the world up so bad, that President Trump and America is forced to fight in it, to force to go into nuclear war, and then we all die. Okay, go ahead show that brother Okay. (pointing to the screen).

All right, so this happened yesterday at 6: 22 p.m. They had the emergency session. These people are crazy, folks. That's what President Trump told Zelensky. You're playing with World War III. You are behaving crazy. Stop playing with World War III.

These are millions of people's lives you are playing with. So President Trump is trying to stop that, folks. He's trying to stop it. But they're trying to do the World War III, make it nuclear, so the U.S. is forced to come in. That's got to be stopped. We've got to put the prayer power out like never before, seriously. Because that's all we've got, seriously. Even for us in America we were preparing for civil war. We have guns, we have big guns, and all this stuff, but it's going to be real bloody fighting the federal government, real bloody. Out of all the wars in America, in American Civil War, we had the most American casualty, right? Because Americans killed Americans. So, if we have another civil war in America, it's going to be a lot of Americans dying, right? I mean, the conservatives, we have all the combat vets, we have all the green berets, we have all the army Rangers. We have all of them.

You know we have like 99% of them, and they can raise up armies. That's what they do, especially green berets. We trained with them. But that's what they do in other countries; they make armies, and militias, folks. In America we can make militias. Europeans, you can't understand this. We can gather together in groups of hundreds of men with rifles and body armor and have a militia. That was where we were headed.

WE DON'T WANT WARS

Now, even if that's the case, that's going to be super bloody, and we don't want that. We're praying to God, please, let's not go through that course. We have to be ready for it. If that's where we have to go, we have to go. And honestly, the Gospel will probably spread faster. The Complete Testament Gospel will spread really fast, in the Civil War time. It'll spread very quickly. So honestly for the spreading of Father's Kingdom, it's actually going to be a benefit, but honestly no American wanted it, right? Because, we're going to get all our children killed. I've got nine grandchildren, folks. I got five babies with the Queen, and we got nine grandbabies. (audience applauding), thank you, thank you, thank you, we did absolute sex training, romance training really power, like every healthy couple should do, right? But you understand what I'm saying. So, I don't want my grandbabies growing up in this craziness!!! I don't want them seeing their daddy die in Civil War.

And what am I going to do? I got four sons. I got four military-age sons. And you know, the feds had their sights on us, because we're the gun church. We had hundreds of people with rifles and body armor. We were at Vice, MSNBC, BBC; everybody had us on the front page, trying to get us locked up by the CIA and FBI.

Waco, you know Waco? That's a department of alcohol, tobacco, and firearms. They're a totally an evil department. Anyways, they raided Branch Davidians. It's like Jehovah's Witnesses. You know Jehovah's Witnesses?

You all have that? You have that, right? Jehovah's Witnesses. You know, they're nice people. They go witnessing every day, right? Branch Davidians are a sect of them. And they're just living on the Waco compound. And they claimed that their leader, had a sawed-off shotgun. He had a shotgun which he cut. So, the police, they could catch him anytime, if they wanted to, because he goes to Walmart. He goes to the city, he goes visit the sheriff, he goes everywhere, right? They could have picked him up any time. Any time, right? They decided not to do that. They decided to bring in joint operations with Homeland Security and ATF, a terrorist organization. ATF is a terrorist organization. They brought in tanks to the Waco compound, because this guy had apparently a sawed-off shotgun. They killed like 58 women and children. People don't know anything about the Waco compound either. In the Waco compound, everybody thinks they're white, right? In Texas they had over 80 black people there. The white media never talk about that. You, racist white media. You never talk about that. They killed all those innocent black people women and children, they were burnt in a fire.

The federal government lit the house on fire, murdered everybody inside. Now, the branch of Indians did shoot back, they did fight, they shot back, they killed, I think, three or four officers. Guess what?

There's some that survived, they went to court with the police. Who do you think won? Huh? The police actually lost. The police lost the trial, where four officers were killed by returning gunfire, because the people in the house were exercising self-defense. So, they actually lost the case after they killed everybody, they killed the majority of the people. But, when they actually went to the court with the survivors, when they actually brought them to court, the survivors actually won. Which proved that the ATF is a terrorist organization, and it selected a community, that had lawful and legal firearms to exercise power through terrorism. That's what the ATF federal government did. That's the organization that in the U.S., we, the gun owners, fight that organization a lot.

Legally, legally, they kill our people, like our gun owner folks. They got away with it, at Ruby Ridge, that's another incident, they killed another pregnant woman, they killed her child and they got to get away with it, right? So, there's a lot of incidents with the FBI and especially ATF that has done this to innocent Americans, innocent people, right? So, that's what they were saying, we are the next Waco, right?

THEY CALL US EXTREME RIGHT

Because we speak so hard against the globalists, and the political satanists. We speak very hard. That's why they banned me on YouTube, they banned me on the internet, they banned me on Facebook, they banned me so many times. We're on a fourth channel on YouTube because we speak out hard against the political satanists. And we support America, like we support and promote people. Get armed. Create militias. That's your American right. It's an American right. So, on the FBI, ATF, we're high on their list. Even one of our guests who is a famous journalist in America named Jack Posobiec, he said it too, that basically we're very high on the list, right? Because in America, we're not only conservative, we're seen as very hardcore anti-communist conservatives. They call us extreme right.

But then by calling us extreme right, you're calling a 100-million-gun owners, extreme right. You're calling 88 million Trump supporters extreme rights, because we believe basically the same things that they do. You know, we have difference in theology here and there, but mostly our worldview is exactly the same. We don't want to kill children. We don't want to have our children be sexualized early and be homosexualized and transgenderized by the federal government. We don't want federal government to control our lives. We want to be free. We want to own our own land. We want to have guns to protect it. And we have kingship. We have crowns. And we are priests. That's 88 million people in America. That's not just our small group that they call terrorists, you know.

But we were very, like, we were kind of dramatic about it, right? Because all the Vice and the Rolling Stones magazine reported on us. The European Union, you guys know Rolling Stones magazine? Yeah, they covered us, right? They called us the dangerous Rod of Iron Ministries. I'm not a rock star, but I was in the Rolling Stones.

Even though, God blessed us with the number two hip-hop album in the country. That was God's blessing. That was God's blessing. But the point is, all these media outlets had us on their front page, all up in the front. That's when I wore a lot of camo back then, remember?

Everything I wore was like camo. So, it was kind of a scary image, okay. I got a bullet crown, and I had a camo. So, when the BBC came, I definitely thought that BBC was going to say, look at the gun cult Christian ISIS. That's what we were expecting. We were expecting, look at this dangerous group in America. The Christian ISIS has arrived. The terrorist Christians. They did a two-weeks, three-weeks documentary, you remember? What's that boy's name? What's that, Jamali, Jamali Maddox, a comedian from Britain. They just released that in Britain, they just released it in America too; Vice bought the rights for that, so they just put it out. But anyways, the point is, I thought definitely they were going to say, from their angle that we are a terrorist organization. We have guns, guns, guns, guns, guns, we want to take over the U.S. government, we want a Christian caliphate, I almost could guarantee this was the angle they were going to take. But actually, they didn't, they actually didn't. I don't know why, but they didn't take that angle.

They were actually pretty soft. It was pretty weak. I was disappointed. I said, hey bro, I was expecting something a little harder. Hit me a little harder. Come on. But obviously they're putting us on such high-level media in order to say to FBI, and CIA; these people are a problem. When Kamala gets in, get rid of them. So, they already promised all the J6ers were going to be locked up. We are J6ers too, on top of it being the gun church.

So we would get double lock up. And we're friends with the other folks that got locked up for 30 years, like the Proud Boys and the Oath Keepers and all these Patriots, man, we know these people. And we're kind of plugged in with Trump's family, as you all see. Like we go to Trump Tower, right, and meet up with the Trump family and then we also hook up with the generals too.

And this is all, of course, by God's grace. So, this is a dangerous thing. They want to get rid of this quickly, because they don't want this to spread. If this spreads in America, then it becomes a problem for the centralized governments of the world.

THE KINGDOM CULTURE

We do not believe in Christian fascism. That's what the Catholic Church and Orthodox Church create; crystal fascism. We do not believe in it. It's against our religion.

We're the only church in the entire world that does not want to create crystal fascist end-times kingdom. We are the only ones. The Protestants are salivating for the crystal fascist Jesus, who will reign and rule and kill everybody in end times Kingdom. The Orthodox believe, that their church is a kingdom of heaven, so do the Catholics. Unfortunately, the Catholic Church is a pedophile child raping and trafficking organization. Even in our state of Pennsylvania, when we used to live there; Pennsylvania sued the Catholic Church and found over 50% of the priests were raping children 50%. That was a state. That was an entire state in America, Pennsylvania. They sued the Catholic Church in PA. They found over 50% of the priests were raping children. That's a problem. Was that the kingdom of God? No. That sounds like the kingdom of hell. Right? So, we know in Europe what Catholicism or Orthodox create. It creates Christo-fascist countries. It doesn't give you free speech. All of us would be killed. If

I lived in a medieval period in either Byzantine Christianity under Turkey, or in Constantinople and we taught the divine principle we'd be killed. If we lived under Rome at the time of Martin Luther, and we taught divine principle, we would have been killed. Isn't that true? So, actually we need freedom of speech for our religion. We need to have freedom of speech; in order that we can debate. Oh, my goodness, have you seen the third King's latest video? Holy shmita!!! That boy tearing it up. (Applause) My goodness, that boy is totally gifted. I'm telling you. Father has blessed him. He might be still a student, but we train him hard. But, boy my gosh wow!!!! He's going to learn Koine Greek (Hellenistic Greek). He's now studying Koine Greek next semester. He's at Liberty University, by the way, which father saved. It is the most famous Christian University, where Jerry Farwell was the head of it and Father saved it. Father saved Liberty and now the True Father's third heir, the third king, is now in that same university. And he's studying theology, you know the core curriculum, but he's going to start ancient Greek this next semester, ancient Greek. So, by the time he graduates, he will be four years of ancient Greek, probably two years of ancient Hebrew, and then two more years in the graduate level. He's going to be BA (slang language) you understand? I don't know if you know what that means? Y'all

know what BA means? Some of you know it. Do you know what BA means? It means Bad ash tray (in order to avoid bad language) training.

Okay, he's going to kill it. I mean, that boy, he's going to go against the top Christian apologists on YouTube or anywhere. We'll be at their level, when he comes out of all that formal training. We will be at their level. We can debate any team on the planet. By the way, we are not stronger only on theological level, but our final fruits, on what we believe being the kingdom of God. We do not believe in crystal fascism. We believe in a world of freedom and responsibility. If there is freedom of speech, there will be freedom of religion. Because in order for there to be real love; there has to be free will, amen? So, that's why we say, you can't force your children to have faith. That's why we want to evangelize our children, right? We want to be in a practice of evangelizing and not just telling them, "You are my child, you must just shut up and believe".

That doesn't work no more. Especially you Asian mamas, don't do that, tiger mommy. Don't do that, okay? You have to think of evangelizing your children, right? So, today one brother had a question. Oh, should I do five o'clock Hoon Dok Hae every day? Will that build up faith? I said, you know, when they're younger that's fine, because it builds discipline, but once they hit the teens you don't focus on ritual. Don't focus on ritual. Focus on witnessing the heart. That's what you must focus on. If you focus on ritual, you will probably lose your children. Because you're not explaining anything. Any of the deep struggles they got, they can't really have counseling for that. But think about it, if you're witnessing anybody else on the street or some spiritual child you're witnessing, you wouldn't make the time to answer their questions, wouldn't you? You would make the time to be extra patient even though they bother you a little bit. Is that true? Okay, so that's the same type of energy, same type of perspective we've got to have for our children. Are you with me, folks?

RAISING CHILDREN

Because, the children are not being raised by us, the children are being raised by the world. So they're going to have struggles, especially in their teens, and that's where we want to put on your witnessing hat. Don't put on your command-and-control hat. "I'm your father". "I'm your mama" (in an authoritarian way).

"Do it or you go to hell, Satan has entered you". If you do that and as some of you may have done that, you probably know what happens. Are those children in the church? Probably not, okay? Right, okay. That's what we told to that brother. We said Hey, you know when they hit teen time, that's a very important time for witnessing. So, for example, when my children got into their teens and they were struggling, because you know, they're people too; they struggled with God they struggled with Jesus, they struggled with True Father, I don't just keep forcing them to get up, Hoon Dok Hae! Because, I can sense that's starting to piss them off, right? It's going to anger them, because they're not able to get any closure with that. You see what I'm saying? They're just sitting there listening. Are you with me folks? So daddy can sense that. So when I sense it, I say, don't worry.

Take a break from Hoon Dok Hae. Take a break. You see? I get a breathing room. And then of course, since they're very young, we've been doing the date training with them. We've been going to one-on-one date training with them. So, by the grace of God, and through some training, glory to God, thank you Father; you know a lot of our children have some level of faith. But that

comes through training, right? When they have question, they know that daddy is trained, so I can be like a professor. So, when they have question, I don't get angry. I just treat them as if I'm talking to somebody I'm witnessing to. Even though that's my boy. I want to strangle his neck and... No, I'm just joking, ha, ha, ha. You understand? But I do that in Jiu-Jitsu (laughter). I don't need to do that. But, you understand, I treat it like a professor. I treat it like an evangelist. And the queen, too.

So, that's why the parents who do that kind of training, if you focus too much on ritual, that's kind of a Buddhist way. A lot of our sisters from Buddhism or maybe Catholicism, they push that ritual very heavy. If you come from those traditions, you may find yourself as a mama trying to force that, but that doesn't work. It doesn't see, it doesn't witness the heart. We want our children to love God. Is that true? You want them just to do like the rituals, but it is all fake? But, they may be doing it to just get your money or something. You want that? That's ridiculous. That's not real. We actually; every parent, want our children to have a relationship with God, right? So, that's why we've got to prioritize building relationships. Especially like teenage, maybe 10 years old or above. But we don't have to prioritize ritual, or ascetic practice or ritual practice. That comes later, when you have a developed faith. The rituals make a lot of meaning but, that's when your faith is developed.

You see what I'm saying? But when they're younger, we have to work on witnessing the heart. It's hard, because they are our children, so we want to say, "just do it! Our family is Mooney! You must be Mooney!" Okay, but look, we did not, not only us, but also Christians did that way too. Christians failed big too, right? Look at Christian Church evangelists, I mean also missionaries, 90% of their children do not believe in Jesus. Missionary families, pastoral families, those are pastors, right? 60% of their children do not believe in Jesus. That's a Christian Church! That's not even our church, right? Our numbers are probably pretty close, similar to that too, because the first generation was going through the indemnity period, you had to sacrifice to build a nation. And we honor you for that. They sacrificed first hand. But after liberation and completely released period; Father initiated the training, and he made me do the husband-wife training and the children training from 2006 from Korea Cheong Pyeong. That's when we were teaching about the date training when you get blessed; beautiful young couple go do your dates. You have to do your date training. Invest in your marriage. Go on wonderful dates and take beautiful pictures, look good when you go out, so that you make the outside world jealous. You show them that you are young you're beautiful.

You go on beautiful dates, but you're not sleeping around. You're putting your money in the right place. You are putting your time and money into something that's going to last. Good investment mindset. Right? When all your girlfriends try to make you feel jealous, because they're in France or they're in some beach in their bikinis saying, oh baby what are you doing or where are you at? Well then you can show them that you are with your husband going on this beautiful date. Then when you get your children, you have your dates with your children. You're putting your youth and energy into relationships that are going to be with you, and are important until the death and beyond. You're not putting that money in stupid places. You're not just wasting it. You're putting it in actual relationships.

And when you have children and you're young, you're giving them the blessing of being young. So, they get to grow up with young parents, who are already training, so you're more mature, even though you're young. If you've been training, you've been investing in your marriage;

you're already higher level than the normal person, who has been dating and failing and dating and failing and dating and failing, right? You're already higher level.

When you have babies, then you will be taking those babies on the dates. You are investing in those relationships. So, by the time you're 30 and 40, you have three, four, five children, whatever the case may be, but they're children that are thankful to you. They are thankful that you actually poured into them, and you put your time and youth and energy into giving them wonderful, youthful parents. So, that they can do adventures with and learn how to ride a motorcycle with, and go scuba diving, and do jujitsu and do MMA, and go skydiving and all that stuff we do in the right training. With your children, though, you get to help them unlock their epigenetics. You are the hero. Not some government bureaucrat. You are their hero.

INVESTING IN MARRIAGE

You know, even most liberal women, 80% plus, say they want marriage and family. Okay, well, if that's your goal, honey, you've got to put your investments in early. Don't be throwing that away. If that's your goal to have marriage and family, you've got to be investing in that. Don't be investing in men that's going to be using you, toss you in the garbage, sex you up and throw you out. Sex you up, throw you out, destroy marriage, destroy relationship, destroy relationship. You are going to be so scarred. Even if you got one sex partner outside of marriage, a stat show, you have 50% higher chance of divorce. Just by one sex partner outside of marriage. One. You add more, it's going to be harder to hold on to marriage. Because you train yourself to keep changing the girl or the guy. You see what I'm saying? But if you train yourself young and you're investing in marriage, you're trained to be joyful and excited finding new things about each other. You're in that kind of training, excited about being married, investing in a long-term relationship, right? So that by the time you're 40 and your girlfriends and all your friends; they got debt, they got apartments, but they don't own them, they got cars, but they don't own them, they got torn 10, 20, 30, 40, 50 failed marriages. But you have a wife or a husband that truly loves you. you've had 20 years of dates. You got 20 years of photo looking hot. You got 20 years of raising beautiful children, that you've done adventures with and did the training with, and you've unlocked; you made them epic people, and not commies. Moreover, they're grateful to you for having chosen them over money. Okay, now you have what the billionaires don't have. You see what I'm saying? Andrew Tate, he's got billions but he doesn't have that. All he got is high, what do you call them, high-class hoes. That's all he got. He doesn't have somebody, a woman that will be with him, that truly loves him, that he's invested his whole life with. You don't have children that respect their parents' marriage. You want to have a hundred sons? Andrew Tate, he's a good fighter, so I don't want to fight him, but he said he wants a hundred sons. That's his next goal. He wants to make 50 women pregnant since he is a Muslim. So he can have multiple wives too. How are you going to raise 100 sons? I have four sons and one daughter; I'm not a dumb person okay. I'm not the super IQ, but I'm not a dumb person, okay. But already five was a challenge of time. So if you want to have a hundred sons; how are those children going to feel any relationship with you? Wasn't Osama Bin Laden the 28th? He wants to blow up the world because his daddy never gave a dang hug or took him out. I mean my gosh; what are you doing? It's not about just having the child, right? You must have a relationship with each and every one of them, amen? That's what's so wonderful about a Cheon Il Guk

culture; when the children grow up in an environment where their parents actually saw them as a worthwhile investment of their youth to pour into. The children feel grateful. They would say, "thank you dad, thank you mom, that you thought I was worthwhile to pour into." And you take them out when they're married and you reminiscing on when they were growing up, and stuff like that and you're crying at the hamburger joint and you're saying, damn, I'm rich. I'm freaking rich.

NEVER TOO LATE TO DATE YOUR SPOUSE AND CHILDREN

And then when your children get grandbabies popping out, the cycle continues. You understand? It's like, oh my gosh. No amount of prostitutes and hoes and, you know, Andrew Tate's private planes is going to fill that void.

No amount of it. Right? So, the Cheon Il Guk culture is so different. Right? So that's why for the young people and also older folks; if you're older folks too, you got to do your date training too, folks. You know what, I tell you, you first-gen folks, the date training; we have couples that have done it in Korea, Japan, they're 80, 70, 70 years old, 80 years old, they've been doing the date training, okay the first time. Since some of them were ministers they never could go on a date with their wife for 80 years. So, they didn't know what to do. I had to actually take them. I had to chaperone them to the coffee shop in Korea. I said, "okay you sit here, now you say three things in gratitude to each other. So, now ma'am, tell the reverend three things that you are grateful for."

Okay, wonderful. We clapped, everybody clapped, and then, okay reverend tell the ma'am three things you are grateful for okay? Then he would say, "oh, I'm thankful because you know she stood by me. Oh, I praise God. We applaud each other. Beautiful. Oh yes, yes. Right, and then they pray. You know, and then they have their little coffee or whatever, their strawberry thing, whatever it is. How come when I bring out the food comments everybody get happy all of a sudden? (Laughter). I thought half of you was sleeping. I talk about strawberry shortcake then you wake up.

Then they do that little cute date. And I remember Rev. SA, doing his first date after he was 80. He's a Korean minister. They're fiery; so, when they finished their date I told him, okay brother now you can pray. He said, ok and started praying out loud in the middle of cafe, "Heavenly Father." (Laughter). There are people in the cafe. Oh, my Lord. Oh, my golly. I said, okay. All right, okay. We can't do anything about it, but we're already in. We're already in. Just let him do it. Let him do it. It was a holy fire, holy fire. But that's cute. It's so cute, adorable. It's actually beautiful. It's beautiful. And they'll never forget it, okay? And so I will check up on them. I will say, brother, are you taking out your queen? You see what I'm saying? Are you doing your training? And they will say, Yes, I'm doing the training.

Right? And guess what? Like a lot of the ministers, because they had to devote their lives to ministry, a lot of their kids left the church. But the first time, now they're saying, wow, dad and mommy, you're doing a date training? Because they take a picture, a cute picture with the, whatever, the matcha ice cream with the little thing, and then they send a picture to the child, hey, you know, I'm doing the date training. And the kids are like, what is going on here? Golly, what are you doing, daddy, mommy? Right, but actually, it opened up a door. So many of those families are now actually talking to their children again. I mean praise God, just by the power of dating your spouse. Y'all got to have fun dating your spouse, y'all got to have fun in marriage you

understand? Y'all going to have fun; marriage is fun. You're going to have great sex life great romance life, adventure with your children, training, live young, live youthful. You know what I mean, you've got to live youthful.

THE BENEFIT OF PHYSICAL TRAINING

Even the older folks, that's why even at Tennessee or Pennsylvania, now we are lifting weights after service, right? We're lifting. The young people do jiu-jitsu, do MMA training. We stay young and youthful, right? That's the difference with a Christian church. Christian church, New Testament church, you go to the priest who comes and do ding dong ding and then leave. But in the Completed Testament church, we don't only inherit a spiritual kingdom we inherit the physical kingdom too. That's how we're going to be healthy. We are the peace militia, so we have to stay fit. We have to look good for our Queen, right? There is nothing wrong with the husband looking good for a queen, amen? Okay and vice versa we want our queen look good too. We have to try. We've got to keep on training, right? So, that's the difference, because we inherit not only the physical kingdom, but also spiritual physical kingdom too. Right, so in PA and Tennessee church now, they're doing fitness at a actual gym. One of our new members that joined and is a blessed family now, Theodore Roper's kingship, they own a gym, beautiful gym. Big weights, everything, power lifting rack, everything. So our Pennsylvania community, the older folks; we hit the gym, anybody over 40, we hit the gym. That's old, okay, old. To young people, anybody 25 and up is old.

Okay. Y'all are old, okay, is that why you're laughing? Okay, all right. But, 40 and up, we hit the gym, we do weight training.

I told my other instructors how they should do it for the young people, like 12 years old to 35, they will do martial art training. That's wonderful. You're learning self-defense, learning how to protect yourself, learning how to have power, learning how to have confidence, learning how to have discipline, right? And as you get older, you have to do weight training, right? Older folks, I told this to the Russians. This is Tennessee (pointing to the screen). This is Tennessee. We just got the academy racks outside, so at the gun range now. After Tennessee service, we just go hitting the weights, right? The boys are out there, we're living it, right? And we have new folks coming in. The new folks are lifting with us, too. The guests, they just come in and say, all right, we're going to hit the weights. They say, all right, let's go. They're hitting the weights together. It's bonding, it's fellowship. We're doing natural witnessing. Why? Because we're creating a cultural sphere where they can see not only our theology, theology is intellect, right? But they can see our culture. We have a culture where we are building strong marriages, we love being married, we're playful in marriage, we date a lot, right?

We love, we try to invest in our children and we do physical training, we love God, we love our neighbor, right? We do have a culture, right? In America, we have rod of iron training too, so we do some lifting, and then we can shoot our guns, right?

So we have this culture. And people come and they've never experienced a church like that. Never! Because New Testament church only goes to the spiritual kingdom. Doesn't inherit the physical kingdom. Whereas Complete Testament, we have the blessing of receiving even the physical kingdom. I mean, sovereignty. Amen. Kingship. Yeah.

Oh yeah. Amen. (clapping). So, you are the defense for the kingdom, right? Everybody here we love God, we love one another. By protecting one another; I will protect you, and you protect me,

right? So in order to protect you I cannot be lazy; I need to train to be the best that I can be. And then we celebrate each other. When our blessed families look great, they go on a beautiful date. Baby, you look great. Y'all look great. Yeah, we celebrate each other. We don't want to say, that stupid girl, she's on a date and envy them. No, we don't want to play the jealousy game. Why? Because we're part of the same police force. We're part of the same militia. Amen. So when one of our families is doing a great date, we say, praise God! Praise God! Y'all look beautiful. Y'all making Satan's culture jealous. Good. Right? We love it. We want to celebrate one another as we are training in our marriage and with our children etc. Amen. You know in Russia I told the brothers and sisters when Father was in his 80s; he was doing 300 squats. Every morning before Hoon Dok Hae he would do like 300 squats. 300 at 80. And then when he was in his 90s after the helicopter accident it was around a hundred. That was after the helicopter accident in his 90s. Father was still pushing himself. Since he had gone to prison so many times he followed a prison routine, right? Father had a daily routine in prison. The prison guys get very tough, right? The prison people get very tough. But did you know that Father was that kind of intensity. Isn't that wonderful? How many 80-year-olds here can do 300 squats. Even some of these young people could not do 300 squats. That's incredible. That's really, that's so awesome. I really love that about Father. I just love that about his example. So disciplined. Every day.

Even the securities would see it. Every day he would run. Father had a long white Korean underwear. It goes down to here. You Asian people, you all know what I'm talking about. The Westerners would wonder, what? Long underwear? Y'all don't know what I'm talking about. But trust me, there's some kind of baggy long underwear like down here. My father would be running with that, doing squats with that. I love that about Father. That's something rarely seen by public, right? The security could see, because they have the cameras and all, but it's something rarely people could see.

I made it my homework to learn Father's training routine. And then I taught it to my instructors. And so, we do that like after each training. We always started with that and stuff like that, you know. But that's really important. Isn't that amazing? 300, like in the 80s and then 90s like a hundred. That was after the big accident with the spinal injury and all that. Remember the helicopter crash? Right? So that culture is very important to have in our sanctuary. We can't just be studying. All right, so let's do a hundred push-ups. Let's go. Let's do 100 push-ups. We did with the Russians

You can't lose to the Russians. (Laughter). Come on. Let's do it. Let's do 100

PRAYER

Father God, we thank you for this day. Father, we thank you for God's people that have gathered in this place today. Father, we thank you that you are a living God, and you are not defeated by the grave. You are alive in us with the same power of the resurrection that rose Jesus from the grave and rose our True Father from the death camps of Heung Nam prison.

Father God, we repent in front of you; we ask for forgiveness today, Father, for we have sinned before you dear God. We have let our country slide and slip into political Satanism Father. We have been inadequate with our Cheong Seong, and we know that our Cheong Seong cannot stop the wars, and cannot stop the assassination of President Trump. But Father we know that as your children we can plead towards you. We can cry out your name.

We can ask for forgiveness. We can turn from our wicked ways and come and return back to you Father God. Father, we thank you for giving us grace which is unmerited blessing. Father, we pray for your hedge of protection, right now upon President Trump; who is fighting to stop this third World War that we are being forced into. Father God, we ask your hedge of protection around Elon Musk that is using the social media and the X in twitter to expose the machinations of the political Satanist, Father.

Father we ask that you bind the hands of the political Satanists; bind them in Jesus' name and Father who are one. We bind them in the power of heaven and the power of an almighty Holy Ghost. Father God, we come before you as your children asking you to stand strong at this hour to fill us with courage at this time, Father God. Father, fill your children in the micro with the spirit of God; so that we may lead the macrocosmic realm. Father God, we know that many times we feel that we are so small in number. We think that we are such a small force.

But we must never forget that you changed the entire world by just 12 disciples. Much less than the ones gathered in this place today. You changed the course of history and the course of nations, for they are in your hands. They rise and fall, but you are the eternal God, dear God. Father God, we ask your protection upon our brothers and sisters here today and upon Europe. Father God, we ask that those who are planning to destroy the world with these wars will be foiled, that their plans will be confounded and their encampments may be chaos. We pray that the Holy Ghost as Gideon's army may rise forth and shed the torchlight of the kingdom of God upon the peoples, leading us back to repentance, leading us back to your will, Father God, and leading us back to strong marriages, powerful families, Father God; peace police and peace militia, Father.

Let your kingdom spread, your kingship spread. Let your constitution spread, let freedom and responsibility spread, let the motto of the peace police and peace militia, love God, love your neighbor spread, Father. Let us train our bodies to be good defenders and protectors, Father, of our neighbor and of each other. Let us train our mind upon the Word of God and feast on the everlasting bread of life. Father God let us drink from the well springs and fountains of life that comes from you, Father God. Father, we ask that you strengthen our spirit with the power of Chambumonim Og Mansei, Father, that you would anoint us this day, that you would heal the sick and make the blind see, and by one touch of your hand change our lives forever, dear God.

Only you can transform our lives. Only you can bring these hearts and our wicked hearts to repentance, dear God; no foreign force or coercion can do it. Only the mighty hand of your grace can penetrate the hearts of our people, Father God. So we ask you Father that you stand today, that you make us stand with you, Father. You give us a strength and the fortitude to rise up as your children, as the army of God dear God; that we stand in the gap where there is the need to stand in righteousness dear God; to stand and call out the workers of iniquity dear God. So that their plans may fail, and that your will may be accomplished on this world Father God. Father, we ask you for the spreading of your word; a gospel of peace; the gospel of the Completed Testament age. Father God, bring spiritual salvation to the hearts of the lost. Bring spiritual salvation to those who hunger and thirst for you in the spirit, dear God. Be with them in the night and in the dark hour, Father God; for there may be weeping in the night, but joy cometh in the morning as your words say dear Lord.

You are the light unto our path and you are the lantern that lights away, dear God. Let us hold

fast to the hem of your garment, Father God; for we know you are leading us in this land of tribulation and this time of great crisis dear God. We thank you that you have not forsaken us and have not left us, but are leading us along the path of righteousness and your kingdom. As you say in your word, Matthew 6 and 33, you said, “Seek ye first the kingdom and His righteousness and all things shall be added unto us,” Father God.

You take care of the lily in the valley and the birds of the sky. Dear God, let us not be confounded with worry and anxiety at this critical hour, but let us hold on to the peace of your leadership, the peace of your strength, the peace of your courage. Have our feet shone in the preparation of the gospel of peace, our helmet of salvation, our breastplate of righteousness, the shield of faith and the sword of truth, which is the living word of God the belt of truth and the feet shone in the gospel of peace. Dear God, anoint us with the armor of God at this hour. Allow us to stand in your righteousness, your might, in the light of your Holy Spirit, dear God. Bring us into your kingdom dear God, not only the spiritual kingdom harvest but bring the physical kingdom harvest dear God. Prepare the hearts and the fields that can be sowed, dear God let the earth be the fertile soil for the seeds of Faith that are spreading right now, dear God. Let this faith of the small as a seed of mustard be brought up into the living tree in the garden of life, Father God. We thank you for your powerful presence today. We thank you for Loving your children even though many times we betray you and forget you, Father God; even though many times we have left you in the darkness to pursue our own dreams and missions, Father God. We pray that we would be emptied of ourselves dear God, and have your dream and your mission and your will to be our will, Father God. We pray for the 1.4 billion people in China, Father God who are under the totalitarian fist of the Chinese Communist Party. Father use President Trump to bring down the CCP. Father God, free those poor Asian folks, our brothers and sisters that are waiting for the Messiah, Father God. The ones who are waiting for the Lord of the Second Advent, Father God. They are waiting to be unlocked and released by the power of the Holy Ghost, and evangelism and the spreading of the gospel of the Completed Testament age throughout all the lands of China from Hebei to Fujian to Beijing and Shanghai.

Father God, let it all move and burn with the power of your Holy Spirit. Let the CCP come down. Let the people be liberated to find their True Father. Father God, Father, lead us in this path of righteousness, dear God. And as we see the freeing of our people in China, Father God. Let North Korea, your fatherland, our fatherland be freed, Father God.

And let Cheongju, your homeland, Father, and the Myeodu-san, the meeting place with Jesus, place of the citadel of the Tongil mark be the new Jerusalem that will be erected to be the light on top of the hill; to lead the countries into righteousness and with the constitution of the kingdom of God the “Cheon Il Guk constitution” to protect liberty across the earth to create and spread the rod of iron kingdom to the furthest corners of the world, Father God. Give us a heart of the mission, Father God. Give us a heart of love for those in the four corners of the earth, let them be filled with the Spirit of God. Let us go forth into the nations and all nations to spread the gospel of the kingdom of God, dear God. Use our spouses Father God, use our families Father God, and let us do our 5%. Let us train with our spouse and invest in our marriages, Father God. Let us invest in the one-on-one days in relation with our children, Father God. Let us invest in our training of peace police, peace militia, with our family in our community, Father God.

Let us be strengthened by those things and at the same time let our hearts swell with compassion and love for the world, Father God. So that we would seek to save those who are lost, and those who are at the end of the rope in the midnight hour, and the darkness of night. Father God, be a hand upon their shoulder, right now Father God. We reach out to them with those who can hear this voice, Father God. Stop the spirit of suicide. Stop the spirit of sickness, the spirit of anxiety and depression Father God; be renouncing to rebuke in Jesus name and Father as one. Father, we thank you for your spirit and powerful mighty hand.

We love you Father, and we want to praise you this day, Father. We know that in “Chambumonim Og Mansei,” there is no disease, there is no cancer, there is no diabetes, there is no sickness, there is no depression or anxiety or fear, Father God. For thou hath not given us a spirit of fear but a power of love and a sound mind. You have empowered us with the spirit of God, Father. We ask you that our praise be more and more pure each day, Father God. Even though we are starting in our training today, let the prayer of “Chambumonim Og Mansei,” become more and more pure, Father God. So, we enter into the fullness of praise, into the fullness of your presence with praise and thanksgiving, Father God. And use that power, use that anointing, Father God, to bring the gospel of the Completed Testament age of the kingdom of God, of liberty and responsibility to the far corners of this world. Father, we thank you that we are more than the 12 disciples, even though we are lacking and many times inadequate. We repent of our sins, we repent of our nation's sins, dear God. We repent that we have killed so many children in the womb. We have allowed that to happen, Father God. We repent for the sexual debauchery that has covered and destroyed our families and our nations, Father God. We want to have beautiful marriages once again, Father God. Let us be the example in the shining light in these cultures of darkness and betrayal and breakups and heartache and backstabbing, Father God. Let us be the examples of the blessed couples, Father God, that can embody love and peace and strength and training and physical and spiritual salvation, physical and spiritual blessing. So that we may share the light of your gospel to the rest of the world, and bring the nations into the Kingdom of God, the Rod of Iron kingdom. Father, we thank you for giving us this day of prayer and meditation and training; where we can pray for the peace in Europe, Father and the stopping of the World War Three. Please, we beg you Father, you are the same one that stopped the bullet that almost killed President Trump and ended freedom worldwide. Father, but you saved President Trump, and you have saved America even though now there is such a battle, Father. We pray for your anointing and your hand. Please be with the European nations at this critical hour, Father. Please be with the brothers and sisters now praying and doing Cheong Seong and weeping and crying out in repentance to you. Father, just like you did with Job and Sodom and Gomorrah, Father. Hear the cry of your children and your people this night Father. We ask you; we implore you; we beg you Father for that is our love towards you, Father God.

So, please Father move with your anointing as you will. Move with your spirit as you will, and let us be strong in this midnight hour, Father God. Let us be strong now as we move to China Father God and the front line in Taiwan. Please bless the people of Taiwan to be receptive to your word and a Completed Testament age. Father, there are so many people that are prepared even from the Buddhist realm. Let them be fertile soil for a new births and new blessed families now arising on a front line, in front of China, ready to move into missionary work into China. Father God, be with your Kingship that is going to those front lines, Father God. We thank you

for leading us and commanding us to go, Father. You fill us with bravery, Father God. You send us to the places that we don't want to personally go Father, but through that you are building us courageous, you're building us strong Father. So, we thank you and we glorify you this day, Father. We want to give you the praise, glory, and honor Father. We want to unite our Cheong Seong here today, and we want to lift you up in praise and thanksgiving, and worship you, Father God. We thank you for all that you have done and will do in the future. And we have faith that no matter what road the world goes down, you will not forsake your people and you will show us the way. Let us hold fast to your kingdom, hold fast to the hem of your garment, Father God. Father, please be with us and be with our nations, be with your people and be with your children this day.

We give you the glory, we give you the praise and the honor. With all the kingship lines that is gathered here today, with your Three Generation Kingship, we pray in your precious name, Amen, Amen, and Aju. All right, folks, let's all rise together and let's do the Og Mansei. Hallelujah. Amen, and Aju. Hug your neighbor, hug your neighbor? Welcome them. God bless. Aboji Kamsahamnida, Aboji Kamsahamnida. Also say hi to your neighbors; north, south, east, west. Say hi to your neighbors. North, south, east, west. Bless your neighbor. Bless your neighbor.

Bless your neighbor. Praise God Almighty. Aboji kamsahamnida. Hallelujah.
