The Latest News - "A New Era Begins in Oregon City!"

Beaudin Construction is excited to announce its NEW headquarters unveiling, in Oregon City, OR ~ August 2026.

This strategic move is a key part of Beaudin's future plan, positioning for continued success in the industry, and marking a significant milestone in the growth and expansion of Beaudin Construction.

The new headquarters will showcase state-of-the-art custom designs, and serves as a true showpiece of **Beaudin's Craftsmanship**. The natural light and open office space will feature a welcoming lounge cultivated for group events, complete with a regulated conference/ping pong table.

Beaudin's new headquarters is strategically located to better serve its clients and partners by providing easier access and more effective service. With the new location, Beaudin aims to strengthen relationships with both new and existing clients and partners by offering enhanced support, a larger warehouse capacity, and continued improvements in response to the ever-evolving construction and design industry.

One of the most exciting additions to the new headquarters is a custom golf simulator room, bringing year-round fun and friendly competition to meetings, client visits, and Beaudin's popular **Thursday Night GOLF** networking events.

At the center of the conference room is an oversized table crafter from specialty wood salvaged from the beloved Singer Hill Cafe, preserving a piece of the building's history as it begins its new era as Beaudin Construction's headquarters.

This is a true "must-see" addition to Oregon City. Well worth a visit!

Q2 2026
