

Understanding Out-of-Network Insurance

At Salem Regional Medical Center, we strive to be completely transparent with you about your cost of care.

If your health insurance provider does not have a contract with Salem Regional Medical Center, then you have an out-of-network, or non-contracted, insurance plan and you will be financially liable for all medical services.

How do I find out if my insurance is in or out-of-network?

SRMC has developed two lists for your convenience: currently accepted insurance plans and non-participating insurance plans. SRMC advises that you confirm both provider and facility plan benefit coverage details prior to seeking non-emergency services with our facility.

2026 Non-participating Insurance Plans
