SRMC Primary Care-Columbiana to Host Comprehensive Blood Screening

On Saturday, October 25, area residents are invited to learn more about their health by participating in a comprehensive blood screening provided by Salem Regional Medical Center (SRMC) and SRMC Primary Care-Columbiana.

The screening event will take place at SRMC Primary Care in Columbiana, located in the SRMC Surgery and Outpatient Pavilion at Firestone Farms, 400 Town Center Avenue.

Comprehensive blood screenings can help to identify many health problems in their early stages, when they are most treatable, and may detect conditions such as high cholesterol, anemia, infections, diabetes and other disorders. Some of the tests included are cholesterol, lipids and triglycerides, red and white blood cells, platelets, electrolytes, enzymes, blood sugar, BUN and creatinine, bilirubin and thyroid function.

Cost of the comprehensive screening is \$50. Optional tests available for an additional charge include a prostate specific antigen test for \$15; an HgA1c diabetes screening for \$30; and a Vitamin D screening for \$30. A lipid panel, which measures cholesterol levels and is included in the comprehensive screening, is available as a stand-alone test for \$15.

Screenings begin at 7 a.m. and an appointment is required. To schedule an appointment or for more information, call 330-482-3871.

A service of Salem Regional Medical Center, SRMC Primary Care-Columbiana is the practice location of Family Medicine physicians Vidya Counto, M.D. and Katarina Barlow, M.D.; Internal Medicine physician Michael J. Buchenic IV, D.O.; and Family Medicine/Sports Medicine physician Zachary D. Vallandingham, D.O.
