

## ACOUSTICAL CEILING PANELS

# CARDINAL REVEALED EDGE MAX LAY-IN + CUT

If you're using a drop ceiling in a space that requires maximum sound absorption, don't settle. By combining the benefits of Cardinal Revealed Edge Max Lay-In Ceiling Panel and Cardinal Cut, you get an integrated solution that promises maximum performance and a sleek aesthetic.

Cardinal Revealed Edge Max Lay-In + Cut offers increased absorption ratings that don't compromise the original durability or finish. With the addition of lightweight, thermal, acoustic insulation to the backside, you can now maximize noise control from your suspended ceiling.

Available in standard horizontal, vertical, grid, diagonal, or diamond patterns, these panels can be combined to create artfully designed acoustical solutions. Custom designs are also available.

## CARDINAL PLUS

This versatile acoustic solution combines features and benefits of our most popular ceiling and wall panels into a single product, delivering high-performance sound absorption with sleek design, easy installation, and lasting durability.

### APPLICATIONS

- Gymnasiums
- Libraries
- Rec Centers
- Offices
- Conference Rooms

### FEATURES

- Compatible with standard 15/16" Intermediate Acoustical Suspension System
- Abuse-resistant
- Easy to install
