

AM LITE CLASSIC

AM LITE CLASSIC X

AM PEDESTAL SYSTEM

Our entry level Acousto-Magnetic is focused on strong detection of adhesive labels, reliability, and flexibility. It was designed to operate as one or two pedestal solution with easy installation and synchronization. Thanks to its small dimensions it is perfectly suitable for retailers with limited entrance area.

The AM ACE CLASSIC system prove that an economical solution does not mean sacrificing performance or quality. Equipped with our latest AM technology detects soft labels on up to 2 meters

The LITE CLASSIC comes in two design options in tree colors where LITE CLASSIC-X is a transparent pedestal that easily blend with any store entrance and LITE CLASSIC is equipped with a popular advertisement panel for further marketing use.

The AM ACE PROFI supports remote connectivity and data collection and can also be connected to our **STOREMONITOR** cloud platform for advanced system and store performance analytics.

In addition to all these options and features, the system is equipped with our new smart **ECO** MODE that saves up to 35% of the EAS energy consumption. This way we help to reduce our customer's unnecessary utility costs, increase lifespan of the system and stay environmentally friendly

Features & options:

- Remote maintenance and diagnostics 
- Advertisement panel
- Jammer detector
- Tag too close indication
- **ECO** MODE

Remote connectivity and data collection are standard inbuilt features of our systems. It ensures that our systems are not only easy to install but can also be serviced and maintained remotely with fast response and without unnecessary travel costs.

An **advertisement** panel on your security system can be an additional sales tool with our “easy slide” access to printed banner replacement. An identical pedestal but without the opaque panel, the Classic X pedestal features a transparent acrylic surface that blends in with the surrounding space.

Our Classic line of pedestals are available in three standard colours (silver, black and white) as well as two stylish options. The standard Classic pedestal is a lightweight, fully closed pedestal with opaque panels in one of our standard colour. The second option is transparent design with acrylic panels added to protect crossbars from possible damage at high traffic places.
