

ATLAS 500

Straight Stairlift

UPGRADED MOBILITY

This sleek, stylish stair lift has been thoughtfully upgraded to give you even more comfort, safety, and independence when moving up and down your stairs.

Designed for everyday living, the Atlas 500 combines a slim-profile footprint with plenty of power and reliable performance. It takes up only about 11 inches when folded – so others still have room to use the stairs. The durable construction and assembly means it's built to last going up and down your stairs.

FOLDED RAIL

In some cases, there may be a door close to the bottom of the stairs, or another obstruction that the track may interfere with. With the folding rail, you won't have to worry about those obstructions. The rail can be easily folded away from the obstruction, giving clear access.

Folding Rail Features

- Has charge strips above and below the hinge for constant charging
- Continuous motion, unit does not stop while rail extends/retracts
- Optional tall rail brackets to keep rail from extending into hallway at top of staircase

KEY FEATURES

- Extended battery life, up to 60 cycles during power outage
- Grease-less track system
- New fully upholstered seat back/bottom for maximum comfort
- Full, spacious seat
- Right hand or left hand control option
- Retractable seat belt
- 90° seat swivel at top of rail for an easy exit
- Two call/send remote controls
- Provides clear walkway at bottom landing
- Optional key-lock to prevent unauthorized use

COMPACT AND BUILT TO LAST

When folded, the lift measures just over 11 inches, making it *the most compact stairlifts available*. That means more open stairway space for family members and guests to comfortably use the stairs when the lift

isn't in use without sacrificing safety or performance. The Atlas 500 is built to last, with tough construction that withstands normal wear-and-tear far better than any other stair lift on the market.

Safety Features:

- Meets CSA B.613 safety standards
- Built-in safety system that prevents the stairlift from going too fast
- Seat Swivel Interlock
- Obstruction sensors
- Footrest obstruction sensors

Warranty:

- 3 years on parts
- 1 year on warranty
- 1 year on call-out travel fee
