<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment. You also may contact 1-877-800-5556 for emergency medical treatment information.</p> <p>NOTE TO PHYSICIAN: This product contains petroleum distillates and may pose an aspiration pneumonia hazard.</p>	

Environmental Hazards

This product is toxic to fish. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to bodies of water or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product may only be used in residential yards and gardens to treat the types of plants listed in the use table on this label. Keep other persons and pets out of treatment area while product is being applied. Do not enter or allow others to enter treated areas until sprays have dried.

This product is a refined miscible oil for winter control of certain insects. Apply in dormant period before buds open - late winter or early spring. Do not apply when spray will freeze to limbs as injury may result from the excess deposit. Remove all loose bark prior to spraying. Scales may be protected by these "shingles". Spray to wet all twigs, limbs, and the trunk. Measure dosage to be used carefully. Add to water, and mix thoroughly. Do not use mixture after standing without stirring.

SHADE TREES & SHRUBS: (Including conifers, deciduous varieties, evergreens & woody ornamentals.)	APPLICATION RATE	Hose-end sprayers; Dial settings, Oz.	TIME OF APPLICATION (Stage of Development)	USE PRECAUTIONS	Aids Control of: SCALE, INSECTS, & MITES
Apple, Pear, Peach, Cherry, Plum, Grapes	1/2 cup (4 fl. oz.) of product per 1 gal. of water	4 oz.	Dormant		European red mite & eggs, clover mite & eggs, pear leaf blister mite, pear psylla, San Jose scale, lecanium scale, eggs of aphids, mealybugs, scurfy scale, pine needle scale, juniper scale, oyster shell scale, Forbes' scale, golden oak scale, terrapin scale, cottony maple scale & rose scale.
Oak, Elm, Willow, Basswood (Linden)	1/2 cup (4 fl. oz.) of product per 1 gal. of water	4 oz.	Dormant	Do not use on maple, mountain ash, and beech.

Be extremely careful not to overspray.	1 cup (8 fl. oz.) of product per 3 gals. of water	3 oz.	Dormant	Do not exceed this dosage. Apply just before new spring growth starts. Do not use on broadleaf evergreens.	

HOSE END SPRAYERS:

For hose-end sprayers with dilution:

Measure the required amount of oil into the jar according to the number of gallons of spray to be used. Fill jar to proper mark with water. Stir until white cream emulsion forms. Attach to sprayer head and apply. Do not use after standing over a few minutes without re-mixing.

For hose-end sprayers without dilution:

- Use hose-end sprayers such as the Ortho® Dial 'N Spray® or the Gilmour® Dial-A-Mix® Sprayer. Do not add water to the sprayer jar.
- Set the dial to 3 oz. or 4 oz. as described.
- Spray to wet all foliage. Target the undersides of the leaves and try to penetrate dense foliage with the spray droplets.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Keep from freezing. Store in original container in a locked storage area inaccessible to children or pets.

CONTAINER DISPOSAL: If empty: Nonrefillable Container. Do not reuse or refill this container. Offer container for recycling, if available. If recycling is not available, place container in trash. **If partially filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
