

AI transformation for enterprise learning

AI-powered enterprise learning management

Intellum LMS is the only AI-first learning management system with a proven history of enterprise-level deployment. Accelerate content creation, reduce management time, and significantly improve learning outcomes in one reimagined platform.

Introducing Intellum AI

Create and manage enterprise learning programs in a fraction of the time with AI agents that automate common tasks for content creators, managers, and learners.

Creator Agent:

Better quality content in less time

- Turn source materials, like policies, decks, and videos, into publish-ready courses.
- Cut course development tasks by up to 70%.
- Maintain consistent quality without extra review cycles.

Manager Agent:

Less software admin, better outcomes

- Tell the agent what you need and watch it work.
- Eliminate repetitive tasks, like enrollment and catalog management.
- Gain deeper insight faster with reporting that works like a conversation.

Learner Agent:

Learn more and reach mastery faster

- Every learner gets a personal AI tutor.
- Reinforce skills and fill gaps automatically.
- Drive faster mastery and higher adoption without extra admin effort.

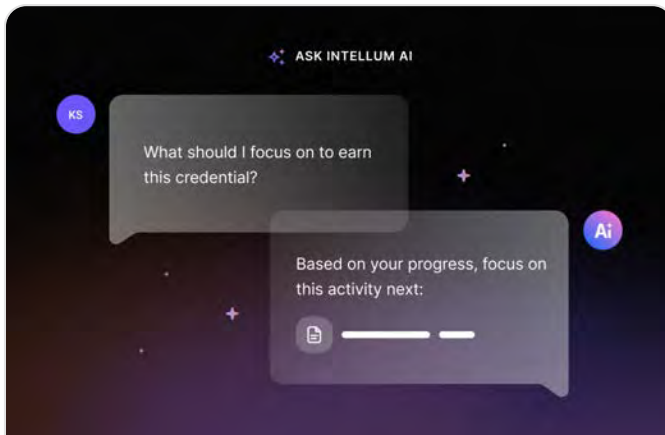

The Intellum Platform

AI-first from the ground up

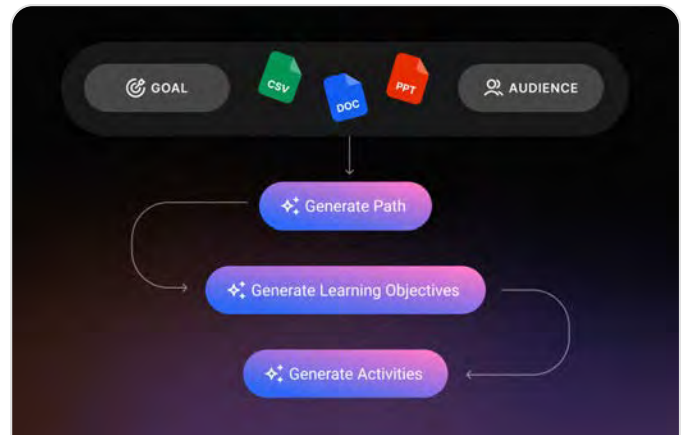

The all-new Intellum LMS is built from the ground up with AI, leveraging 25 years of innovation and expertise running the world's largest and most successful programs.

Platform features

Personalized Learning

- Improve learner engagement and reduce time to mastery with the help of an AI tutor
- Segment audiences into specialized catalog, registration, and authentication experiences
- Deliver the most modern and easily branded UI used by top brands

AI-powered Authoring

- Accelerate course authoring from source material
- Ensure human oversight and intervention
- Increase quality by automating Instructional Design best practices and evaluation

The Intellum Platform

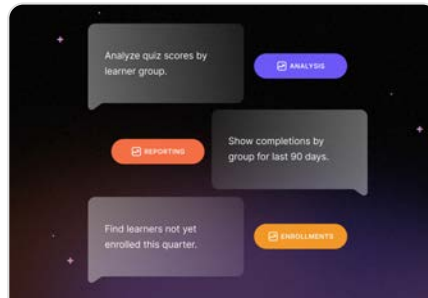

Intellum AI

Built from the ground up, not bolted on. The Intellum AI approach transforms the way creators, managers, and learners consume and manage learning.

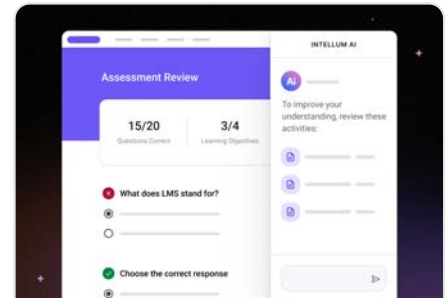

Creator Agent

Quickly generate content and automate best practices to improve quality.

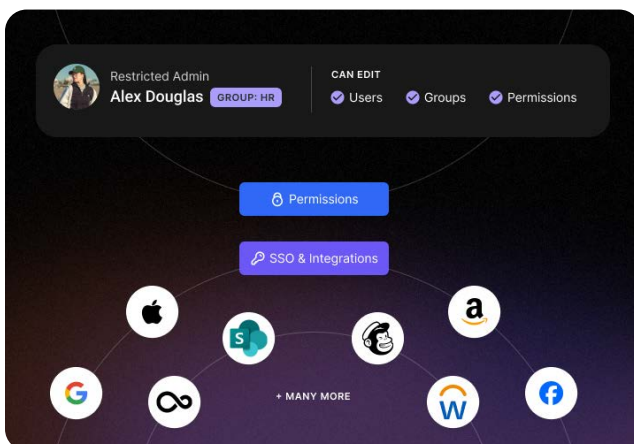

Manager Agent

Say what you want and watch it assign, automate workflows, and make reporting and analysis intuitive.

Learner Agent

Learn with a personal tutor that identifies gaps and supercharges learning.

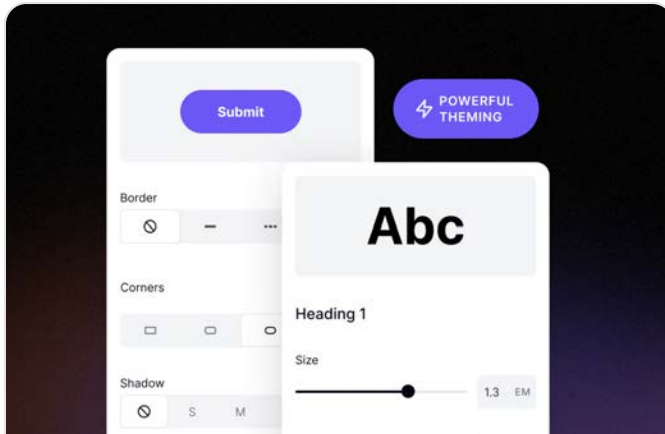

Integrations that Scale

Leverage over two decades of experience navigating complex challenges with leading enterprises.

- Connect to Salesforce, Workday, Okta, Zoom, Teams
- Sync with HRIS and CRM systems
- Automate with APIs and Pub/Sub events
- Flexible SSO and permission controls

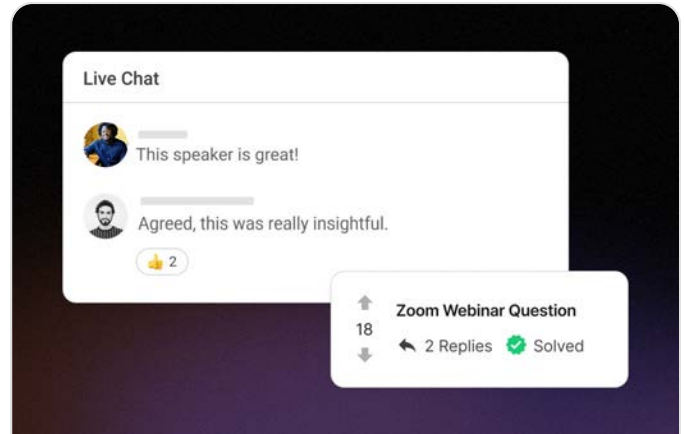

Platform add-ons

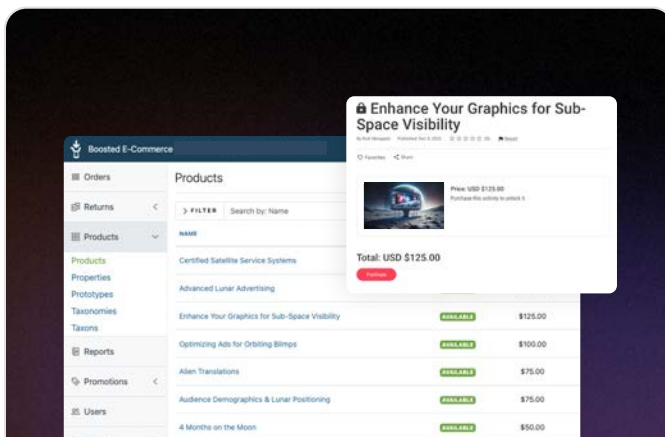

Evolve Authoring

- Powerful theming and branding trusted by top brands
- Easily build the most powerful interactions
- Collaborate in real-time and automatically sync changes with Intellum LMS

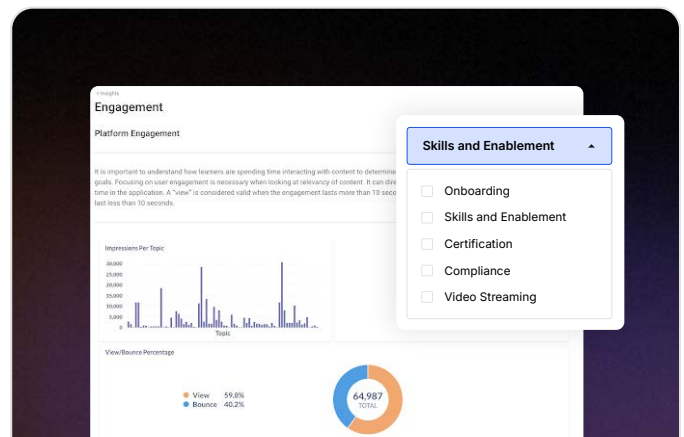

Social

- Provide engaging social feeds to build community and reinforce learning
- Crowdsource answers or use AI with embeddable Q&A functionality
- Allow real-time chat for cohorts and event attendees

E-commerce

- Allow one-time purchase of courses or time-based subscription to catalogs
- Support regional pricing and taxation with the processing gateway of your choice
- Integrate credits and training accounts with your billing system

Data Connector

- Access real-time data updates for all LMS data objects
- Integrate as a data source using your internal reporting or BI tools
- Connect program engagement data with private business outcome data

Trusted by leading brands

Imagine your outcomes, achieved

The world's leading companies turn to Intellum to drive business outcomes through education initiatives:

What our customers have to say

Intellum by and far has the best learner experience... [and is] the only platform we found that could support one learning environment with multiple audiences.

– CEO in the safety technology industry

Intellum has allowed us to scale our customer training quickly... [with flexibility] to design nearly every essential component, from use of our logo, fonts, colors, icons and more.

– Executive Sponsor in marketing and advertising

Intellum's reporting feature is extraordinary... Using [it] to track training hours solved a problem with which we have wrestled for years.

– Instructional Designer in the mining and construction industry

Intellum uses the best of modern UX design principles to create a world class enterprise learning experience.

– Technical Enablement Director in the legal technology industry
