

INTELLUM

Creator Agent

From Bottleneck to Breakthrough—at AI Speed

Your AI-powered instructional design partner for expert-quality learning in record time.

Instructional Design Meets Generative AI

Creator Agent transforms raw source material—documents, transcripts, outlines—into complete, instructionally sound courses in minutes. No rework, no wasted effort. Just ready-to-learn content built with proven design logic.

How It Works

Anchored in Learning Science

Every course is scaffolded using best practices from MIT, Harvard, and Google learning experts.

Objective-Driven

Goals and assessments align automatically—so every output delivers measurable impact.

Real-Time Collaboration

Work iteratively with AI to shape content, adjust tone, refine complexity, and get it right—faster.

Customizable & Transparent

Choose your AI model (OpenAI or Gemini). Maintain control, own the outcome.

What You Can Expect

**Cut course
creation time by
up to 70%**

**Eliminate rework
and reduce
creator burnout**

**Launch faster,
scale smarter, and
deliver learning
that actually sticks**

What Customers Say

The Creator Agent is like a learning scientist. You add in the course goal and source material—then it builds the skeleton, the assessments, the flow. It's pretty wild.

– Sr. Program Manager,
Fortune 100 Tech Company

I'm not a learning designer. I cosplay as one. This gives me the structure, the flow, the confidence to build something great.
