

One conversation, one next adult choice

Responsive-conversation reflection

Learner focus

A fictional learner is building a tower.

Contribution noticed

Says “big one” and chooses a wide block.

Adult response

Acknowledged the block chosen.

Relevant language offered

“You chose the wide block for the bottom.”

Next contribution

Places another block and taps the base.

What I will try next

Stay with the building and use a short action comment.

Use the next contribution to review the adult choice. This reflection is not a learner language score.

Structural Learning. Authored reflection aid. Source connection: EEF, The ShREC approach (Fliss James, 1 July 2025); Ang et al. (2025), ShREC components, printed pages 9–10. No learner score, fixed turn quota or attainment judgement.
