

Business Continuity Plan Information

Introduction – CERES has developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us – If after a significant business disruption, you cannot contact us as you usually do on our app or by e-mail at info@cerescoin.io, you should call our business continuity number (877-694-3106 ext. 888) or go to our website at www.cerescoin.io.

Our Business Continuity Plan – We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting CERES' records, and allowing our customers to transact. In short, our business continuity plan is designed to permit CERES to resume operations as quickly as possible, given the scope and severity of the significant business disruption. Our business continuity plan addresses: data backup and recovery; mission critical systems; financial and operational assessments; alternate communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their assets if we are unable to continue our business.

Varying Disruptions – Significant business disruptions can vary in their scope, such as only our company's office, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In the event of a significant business disruption, we have plans to place to move to a back-up location or remote locations as necessary. In either situation, we plan to continue in business, transfer operations to our primary transfer agent if necessary and feasible, and notify you through our website www.cerescoin.io and/or our business continuity number, 877-694-3106 ext. 888, how to contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customers' prompt access to their assets.

For more information – If you have questions about our business continuity planning, you can contact us at info@cerescoin.io.
