

GOD MATH

LEADERSHIP CAMP ★ 2025 SOUTHWESTERN UNION

GOD MATH

"God math" is a concept that refers to how God's actions and principles in the Bible often defy conventional mathematical logic and lead to unexpected, miraculous outcomes. It's a way of understanding how God operates with generosity, love, and grace, often resulting in abundance and blessings that exceed what seems mathematically possible.

KEY VERSE

"And we know that God causes everything to work together for the good of those who love God and are called according to his purpose for them."
Romans 8:28 NLT
