END OF KEY STAGE TWO ASSESSMENT

PROGRESS

- This Progress Measure compares children's Key Stage 2 SATs results with other children nationally who achieved at a similar level to them when they were in Key Stage 1.
- All children nationally are placed in categories based on their Key Stage 1 achievements.
- When they complete their Key Stage 2 SATs, their Scaled Scores are averaged
- If an individual child achieves the same Scaled Score as the average in their category, their progress score is 0
- If they score higher or lower than the average, it is recorded as a positive or negative progress score
- These progress scores are then averaged for the school – see the table below

- A score of 0 means pupils in this school do about as well at key stage 2 as those with similar prior attainment nationally.
- A positive score means pupils on average do better at key stage 2 than those with similar prior attainment nationally.
- A negative score means pupils do less well at key stage 2 than those with similar prior attainment nationally.

***The Department for Education will not provide progress data for schools in 2024 or 2025 as these cohorts do not have Key Stage One results to calculate them from due to COVID.**
