

The League of Women Voters of New Jersey, Arts Guild NJ, and Regal Legacy Magazine are calling on New Jersey artists: Show us Why Voting is Important to You.

Why is voting important?

Why does voting matter to you?

Why should NJ voters turn out this November?

How can voters cast their ballot?

With the 2026 Midterm Elections coming up we are calling on artists to help us connect with voters. Visual artists are encouraged to use their creativity, experience, and personal connections to voting to design compelling visuals that express the importance of participating in the midterm elections.

Art is a powerful medium for empowering voters. Use your creativity to connect with communities and strengthen democracy.

Selected designs will be shared and promoted by all partner organizations on social media, in digital communications, and in communities. You will remain the owner of your art and we will credit your name when sharing your art.

Nonpartisan Policy: This is a nonpartisan project. All submissions must stay nonpartisan. Please stick to educational and factual messaging that empowers voters and defends democracy. Partisan submissions will not be considered.

Submission Instructions: Please submit your artwork digitally by **Friday, October 16, 2026** using the form linked below. Submissions will be reviewed on a rolling basis. You will be contacted if your artwork is selected and shared.

The form will collect your full name, your email address, the title of your artwork, and a description of how your artwork represents the importance of voting and reflects the League's mission and values (<https://lwvnj.org/about>). Participants under the age of 18 will require a parent or guardian to complete the form. Artwork must be your own original work. Additionally, AI-generated art will not be accepted.

Submission link: <https://form.jotform.com/262664350882059>

File Requirements: Please submit artwork as a clear, high-quality digital image suitable for online display. Traditional artwork may be photographed or scanned (no physical artwork is accepted). We recommend artwork that can be reasonably photographed or scanned without loss of detail. Maximum file size: 5 MB
