Declaration of Compliance

Jubo Rustfrit Stål A/S hereby declares that all stainless steel items manufactured for use in food contact comply with the requirements of the EU regulations:

- EC 1935/2004, “ Materials and articles intended for contact with food”
- EC 2023/2006, ”Good Manufacturing Practice” (GMP)

Items for food contact are manufactured in accordance with good manufacturing practice, so that they under normal or foreseeable conditions do not contaminate in quantities that may:

- Provides a danger to human health
- Cause an unacceptable change in the composition of the food
- Causes a deterioration of the organoleptic properties of the food

The declaration covers items made of stainless steel types suitable for use in food contact, such as austenitic, duplex or ferritic stainless steel according to EN 10088-1.

A prerequisite for the corrosion properties of the stainless steel is that the steel is handled and treated properly. Otherwise corrosion and contamination to the medium may occur.
