

Solar Rechargeable Asset Tracker

GL601MG

**Long-term smart tracking for high-value
assets designed to protect your business**

Solar Rechargeable Asset Tracker

GL601MG

Global LTE Connectivity

Cat-M1 & NB2 LTE coverage ensures reliable connectivity and efficient battery power usage

High-Accuracy GNSS Tracking

Multi-constellation GNSS (GPS, BEIDOU, GLONASS, GALILEO, AGPS) with **<2.5m** accuracy.

No charging or wiring required – Solar panel keeps the device powered indefinitely. Set it and forget it.

Real-time location tracking – Know exactly where every asset is, anytime, from the Azuga dashboard.

Low battery alerts – Get notified before the device needs attention. No surprise downtime.

Equipment tracking – Track non-powered assets like trailers, generators, and containers.

Trip start/end detection – Automatically know when an asset starts or stops moving.

Durable and weatherproof – Designed for outdoor use in harsh environments.

See all assets on a live map

Reduce time spent
searching for equipment

Set geofences

Receive alerts when assets
leave approved areas

Review trip history

Know usage patterns and
idle time

Solar Rechargeable Asset Tracker

GL601MG

Industry-Leading Battery Life

- Up to 6–8 years when solar-assisted
- 12,000 mAh internal battery
- Flexible reporting intervals for extended longevity
- Ideal for remote, hard-to-access assets

Built for Harsh Environments

- IP67 waterproof & dustproof
- –5 degrees to 150 degrees operating range
- –20 °C to +70 °C operating range
- Rugged housing for long-term outdoor deployment

Smart Monitoring & Alerts

- Scheduled reporting
- Geofence entry/exit
- Low-battery alerts
- Battery health reporting
- Temperature alerts
- Tamper detection
- OTA configuration and firmware updates

APPLICATIONS

Trailers &
containers

Construction
equipment

Heavy
machinery

Generators &
pumps

Long-term
field assets
