

Asset Tracker Overview

Best-in-Class Asset Tracking Solution

Whether monitoring machinery in the field, tracking deliveries, coordinating service operations, or helping your team locate equipment and trailers quickly and efficiently, Azuga helps you find and report on the whereabouts of your important assets in the same easy-to-use interface that you use for vehicles. Get better operational control, reduced risk and lower costs.

- Azuga's web-based administrative portal is easy-to-use and features dynamic maps, asset groupings, alerts, and more
- Custom settings let you define geofences, landmarks, and alert settings
- Detailed reports show asset activity, utilization, and location history

Benefits

- Improve utilization and productivity by knowing the exact location of every asset for fast, intelligent dispatch
- Simplify billing with detailed reports that show when and where assets were deployed for customers
- Get real-time alerts when assets start moving, enter or exit specific areas, or stop for long durations
- Reduce theft and loss and improve recovery efforts
- Deter unauthorized use of valuable assets

Long Life Asset Tracker

- Up to 5 years battery life
- Sealed and rugged enclosure (IP67)
- Built-in motion sensor
- Internal GPS and wireless antennas for easy installation

Rechargeable Asset Tracker

- Up to 6 months battery life
- Attaches to 12 or 24v power
- Weatherproof enclosure
- Built-in motion sensor
- Internal GPS and wireless antennas for easy installation
