

Scheduled Maintenance

Break free from
reactive maintenance.

Tired of juggling paperwork for your fleet's maintenance? Azuga simplifies the process. Our automated system keeps track of service schedules, costs, and records, ensuring your vehicles are always in top shape. No more searching for missing documents or worrying about missed appointments.

Maintenance Dashboard

Quickly identifies vehicles needing immediate attention and those overdue for service.

Service Entries & History

Create and manage a complete service history for the entire fleet, preserving records and receipts.

Alerts & Reminders

Automatic notifications for upcoming service intervals based on factors like oil changes, engine hours, mileage, and other preventative maintenance requirements.

Maintenance Reports

Provide comprehensive reports on maintenance history and accurately forecast vehicles requiring imminent attention.
