

ROI Calculator

Utilize Azuga to the fullest extent to realize the highest ROI

Return on Investment is an essential part of the decision-making process. Azuga's ROI Calculator is customized based on your company's vehicle data and compares it to similar-sized fleets and competitors in your industry also using Azuga Fleet.

From the Azuga Dashboard you can see the savings in real-time, whether its safety, fuel economy, or productivity. You are in charge of setting the goals for your fleet's performance.

Creating a safety-first culture includes what happens on the road. A slight improvement in driving behavior can lead to better efficiency across the fleet. Lower fuel costs. Fewer accidents. Vehicles last a bit longer. ROI can be achieved with positive encouragement and rewards through gamification.
