Introduction

Welcome to our 2023/2024 catalogue.

This catalogue includes hundreds of new products, innovations, updates, redesigns and range extensions making it our most comprehensive catalogue to date. We are confident that you will find the sign that you are looking for, but if you can't we are more than happy to offer a bespoke solution to meet your requirements.

As ever we have kept an eye on changes to legislation and have developed innovative and practical products to ensure we continue to offer a comprehensive range of Health and Safety Signs and safety related products.

You can find more information about our most popular materials, along with details on how to order our signs, on pages 2-3.

Whenever possible all signs shown within this catalogue have been designed to display an approved ISO 7010 symbol. On the rare occasion where a symbol has yet to be adopted by International Standardisation, but has proven comprehension levels under BS 5499, these signs will be manufactured to BS 5499 Standards. Our signs also meet the required colorimetric and photometric properties as specified in BS ISO 3864 to provide a consistency in colour and design at all times and ensuring our customers receive a "technically correct" safety sign that meets all relevant UK legislation.

Latest and Featured Products

We offer a wide range of unique and innovative products throughout our catalogue. Below is a small sample of our latest and featured products. Remember, if you don't find the item you require please let us know and we'll attempt to find a solution that works for you.

Ice Detector Signs 99

An early warning system that can be used in any outdoor area. The signs have a temperature sensitive reflector attached to them which rotates depending on the temperature.

PPE Posters 36

A range of eye catching safety posters portraying a clear safety message advising of what PPE (Personal Protective Equipment) is required to be worn but with a humorous image.

Good to Go Safety 123

A tagging and checklist system designed to improve safety, reduce maintenance costs and comply with legislation by spotting potential faults, before they develop into a more costly defect.

Document Holders 47

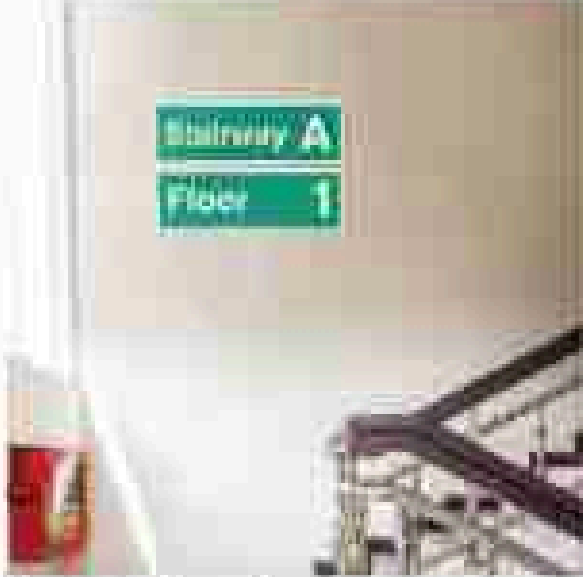

Keep important safety documents in a clearly displayed and readily available central location. This range helps staff remain informed and up to date regarding all workplace information.

Double Sided Stickers 75

These stickers apply to the inside of a glass window so the appropriate message can be seen from both sides.

Stairwell / Dwelling IDs 15

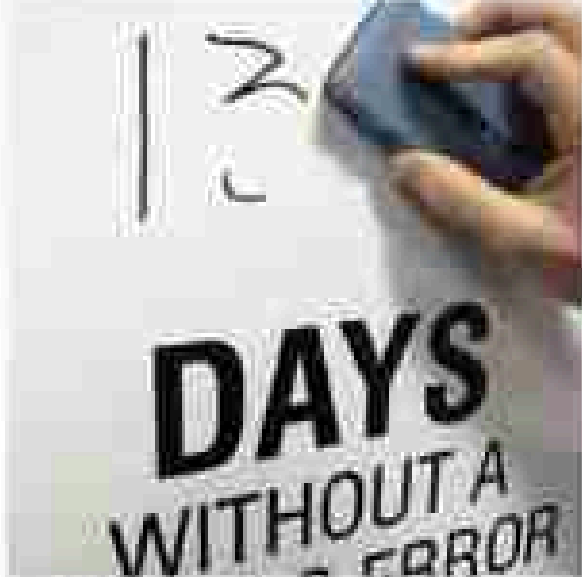

Assist the fire and rescue service to identify each storey of a building with stairwell / dwelling signs.

Reflex Sign System 102

A temporary plastic road sign system which removes the need for stocking multiple frame shapes and sizes.

Wipe Clean Signs 56

Highlight key performance information and update when required. Simply wipe clean and re-use time after time.

Custom Made Signs

Despite the thousands of signs available in this catalogue we appreciate that there will always be a time when you need something unique, branded with a logo, including photography or designed to specific guidelines. This is where you'll find our "Custom Made" options very handy. When you need a specific design printed on materials such as Rigid Plastic, Self Adhesive Vinyl, 3mm Foam, Aluminium, Aluminium Composite or Reflective Aluminium navigate to pages 132-133 where you'll find a variety of sizes that may suit your needs. Please note that these are not the only custom made options available, we also provide custom:

Free-Standing Signs	32	Cover-Up Sign	70	Acrylic / Aluminium Stand-offs	83	Pavement Car Park Sign	97	Hooded Banner	115
Roller Banner	54	Scaffolding Roll Top	73	Engraved Valve Tags / Key Fobs	85	RA1 Zintec Signs	101	Site Saver Sign	118
Floor Graphics	62	Engraved Signs	82	Hazchem Placard	93	Cone Sign	103	Eyelet Banner	121
Door Screen	70	Aluminium Door Slider	82	Verge Sign	95	Site Safety Boards	110	Document Holder	126

Index

Please refer to pages 2 - 3 for an explanation on how to order. You can find a comprehensive breakdown of all products found in the index at the back of this catalogue: 134 - 136

How to Order

Each product within this catalogue has its own unique product code. To help you to understand the meaning of the codes and identify the size and materials available please follow the guidance below:

Step 1

Find the sign required using the index, contents or by simply browsing.

Step 2

When you find the sign you require, use the **BOLD NUMBERS** (at the start of the code) and using the material grid (our material / size grid is on the bottom right hand corner of every double page spread) find out which materials are available for your chosen sign design.

Step 3

Using the **LETTERS** (at the end) identify the available size options for your sign of choice. To help choose the best size for your situation you should also take into account the recommended viewing distances for safety signs – please see our viewing distance guide below.

Example

This sign is available in four standard material options '1, 2, 3, 4'

The unique design code is '3407'

Each letter identifies available size option for the sign: **SQUARE** letters represent landscape orientations. Letters in **CIRCLES** represent portrait orientations.

5 codes refer to products with miscellaneous materials / sizes and therefore have the details required beside the code, (e.g. Floor Graphic)

If the sign you require doesn't come in the material / size you're after, don't worry we can manufacture any design to your specifications.

Material Codes

- 1 Rigid Plastic
- 2 Self Adhesive Vinyl
- 3 Photoluminescent Rigid Plastic
- 4 Photoluminescent Self Adhesive
- 5 Miscellaneous
- 6 Aluminium
- 7 Polycarbonate
- 8 Quick Fix

Landscape Sizes

- | | | |
|----------------------|----------------------|----------------------|
| A 100 x 75mm | H 300 x 250mm | G 800 x 450mm |
| B 80 x 80mm | I 400 x 200mm | S 200 x 75mm |
| C 150 x 150mm | K 400 x 300mm | T 100 x 100mm |
| D 150 x 100mm | L 450 x 150mm | V 300 x 150mm |
| E 200 x 150mm | M 600 x 200mm | W 900 x 600mm |
| F 200 x 200mm | N 400 x 400mm | X 200 x 100mm |
| G 300 x 100mm | P 600 x 400mm | |

Portrait Sizes

- | | | |
|----------------------|----------------------|----------------------|
| A 100 x 75mm | F 300 x 250mm | O 600 x 450mm |
| B 80 x 80mm | I 400 x 200mm | S 200 x 75mm |
| C 150 x 150mm | K 400 x 300mm | T 100 x 100mm |
| D 150 x 100mm | L 450 x 150mm | V 300 x 150mm |
| E 200 x 150mm | M 600 x 200mm | W 900 x 600mm |
| F 200 x 200mm | N 400 x 400mm | X 200 x 100mm |
| G 300 x 100mm | P 600 x 400mm | |

Step 4

Once you've identified the sign design, material and size you require. Use the price list found at the back of the catalogue (or available on request) to find the price of your selected sign. Miscellaneous products (which begin with a 5) are listed on a page-by-page basis beneath the price grid.

Viewing Distances

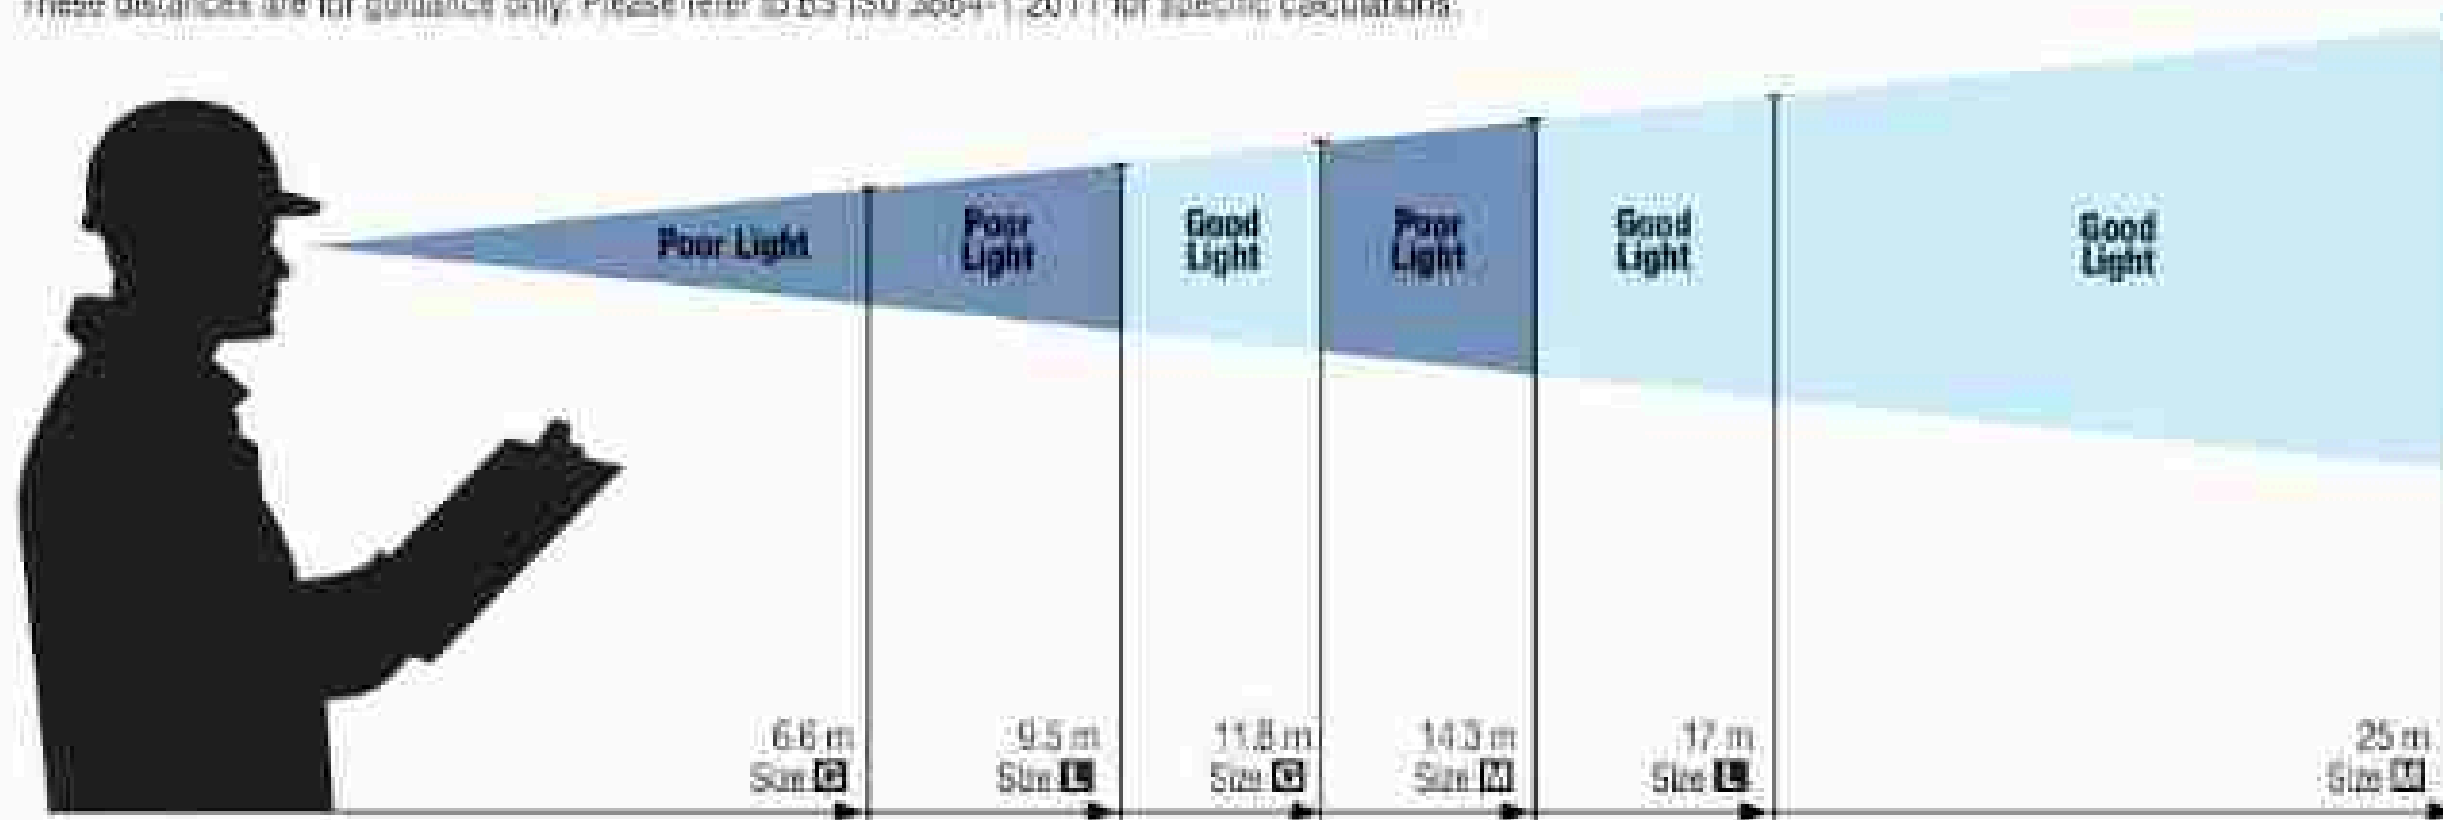

There are many factors that can influence a person's ability to view a safety sign, all of which are covered in depth by BS ISO 3864-1 these factors should be considered when deciding on your choice of sign size. The maximum distance a person must view the sign, the angle they are viewing the sign from, lighting, and vision impairment can all have significant influences on the ability to read and comprehend a safety sign.

It is also worth considering the room layout to ensure signs are not obscured by furnishings in a room. Locating signs at a suitable height maximises their potential to be seen.

If you can't find the sign you need in a suitable size we will be happy to provide a quote for your specific requirements.

Viewing Distance Estimates

These distances are for guidance only. Please refer to BS ISO 3864-1:2011 for specific calculations.

The example above shows an estimate viewing distance for three of our sign sizes depending on conditions of light.

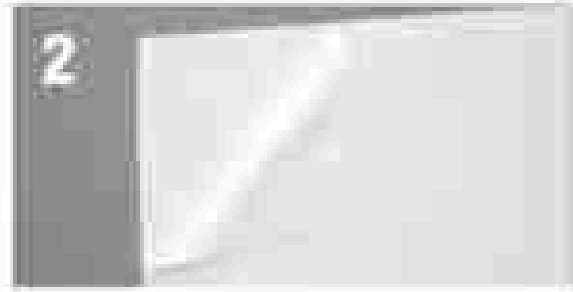

Standard Material Information

Deciding on your sign message is only the first step. When ordering a sign, thought should also be given to where that sign is going to be displayed. Consider the environment it will be located within – is it internal or external? Is it for display in a warehouse or a prestige hotel? Our guide below will help you to decide which material is best for your location and covers our most popular sign materials – this list is not exhaustive so if you can't see the product you require please contact our sales team and we will be happy to quote in the material of your choice.

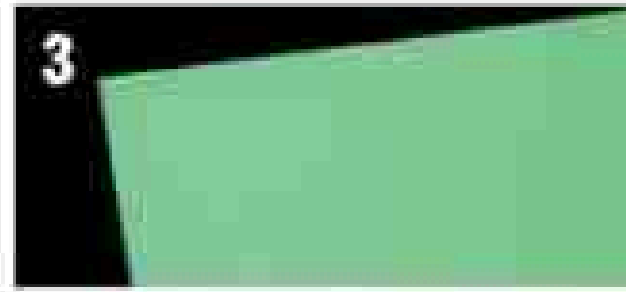

Rigid Plastic

Easily drilled, white, glossy, rigid plastic. A lightweight material with high impact strength, suitable for internal and external use. Rigid Plastic is used for Quick Fix signs.

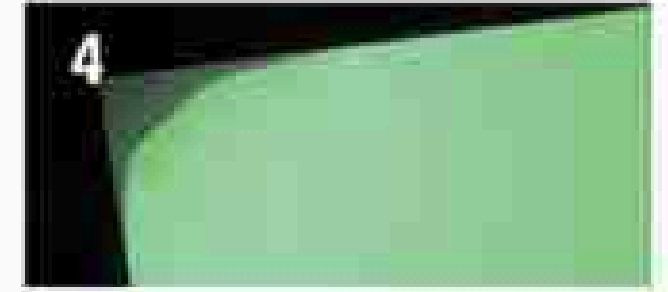

Self Adhesive Vinyl

High gloss, flexible PVC with self adhesive backing. Suitable for most smooth, dry and clean surfaces. Ideally suited for indoor signs and warehouse labelling.

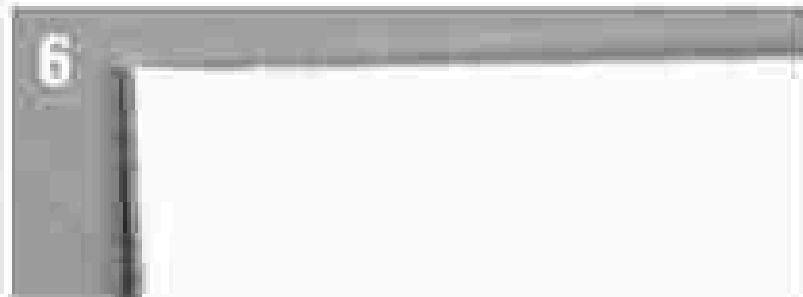

Photoluminescent Rigid Plastic

Rigid PVC with photoluminescent pigmentation. After glow properties exceed PSRA 'Class C' Standard. Luminance properties and performance measured to DIN 67510.

Photoluminescent Self Adhesive

Flexible self adhesive PVC with photoluminescent pigmentation. After glow properties exceed PSRA 'Class C' standard. Luminance properties and performance measured to DIN 67510.

Aluminium

Aluminium with gloss white powder coating. Ideal for both internal and external applications. Excellent weathering and UV resistance. A long-life product.

Polycarbonate

2mm transparent, flame retardant polycarbonate. Sub-surface printing prevents damage/vandalism. Extreme high impact resistance.

Rigid PVC with Adhesive Backing

A white rigid PVC surface provides a durable finish, whilst a self adhesive backing removes the need for drilling, screws or additional adhesive fixings.

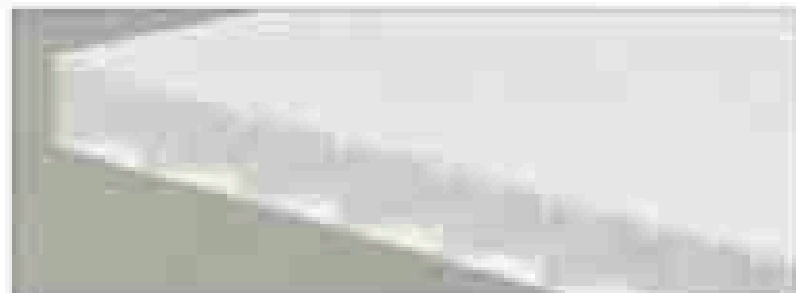

5 Series (Miscellaneous Products)

Any product outside of our standard choice of material or size ranges begins with a 5. This may include items such as rolls of tape, sign frames or banners, or any sign requiring bespoke design. It may include products using (but not limited to) the following materials:

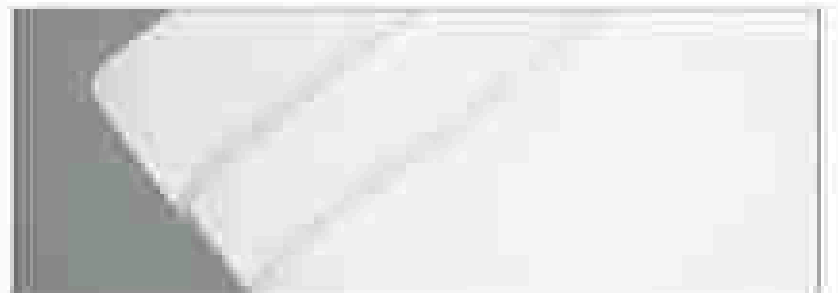

PVC Banner

Flame resistant, 440gsm PVC banner for indoor and outdoor applications. Digitally printed for eye catching displays.

Fluted Polypropylene

4mm, ideal for a temporary signage solution. This material is lightweight, waterproof, strong and 100% recyclable.

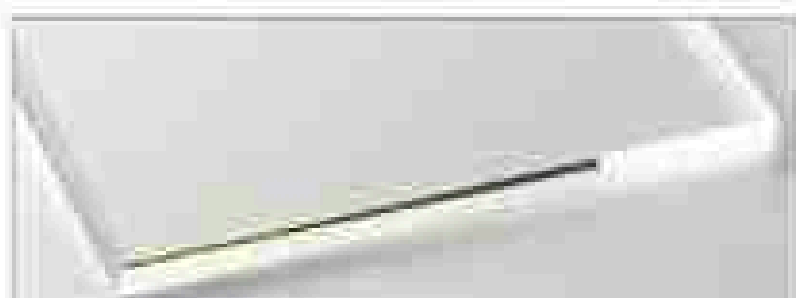

Synthetic Paper

110gsm high density polyethylene. Highly durable: tear, water and grease resistant. Ideal for eye catching posters.

Foam PVC

Available in 3mm, 5mm or 10mm. Bright white, lightweight & waterproof. Easily drilled for fixing. Ideal for external site safety boards.

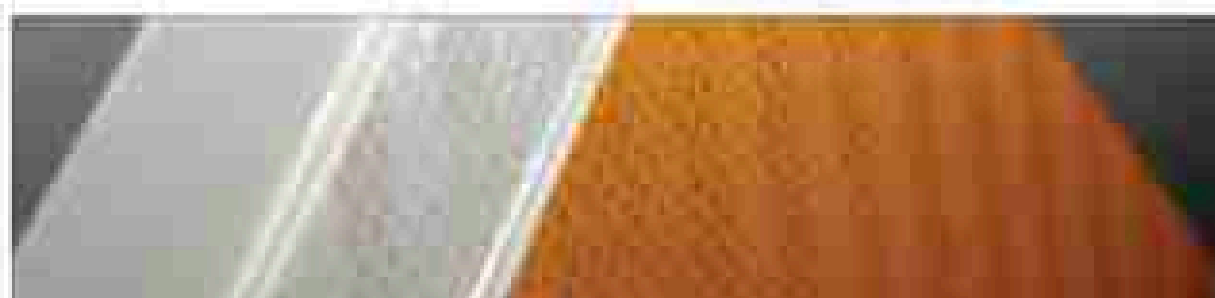

Acrylic

5mm, high quality cast acrylic (non-shatter). Good resistance to weather, discolouring and most chemicals. 100% recyclable.

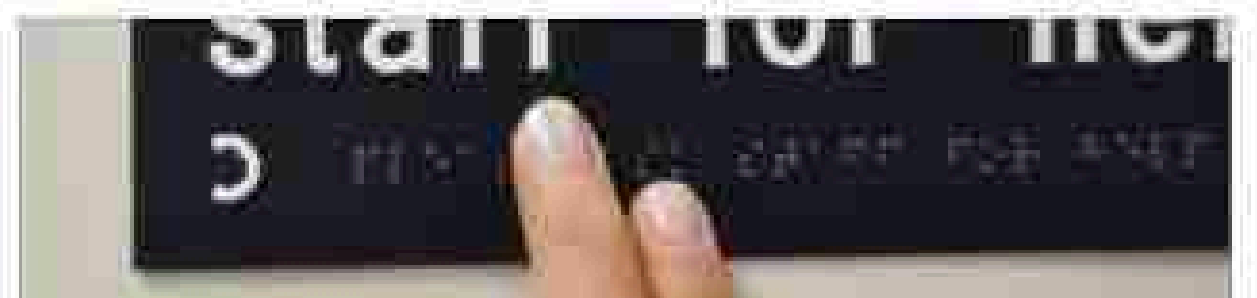

Aluminium Composite

3mm White aluminium skin with a polyethylene core. Lightweight & weather resistant. Ideal for external site boards. No scrappage value reduces theft.

Reflective

Available on various materials (aluminium, zinc & aluminium composite) with a choice of reflective finish. RA1 reflective (engineering grade) for temporary traffic signs. R2 reflective (high intensity) for permanent traffic signs (CE marked).

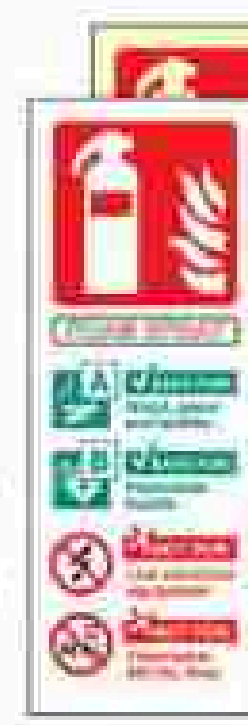

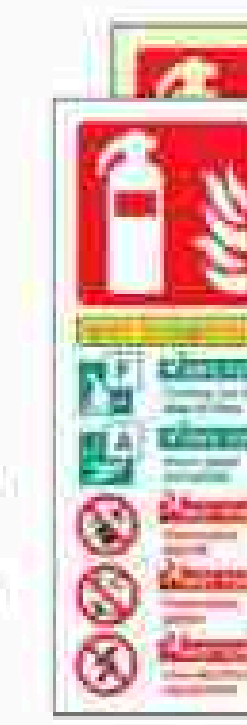

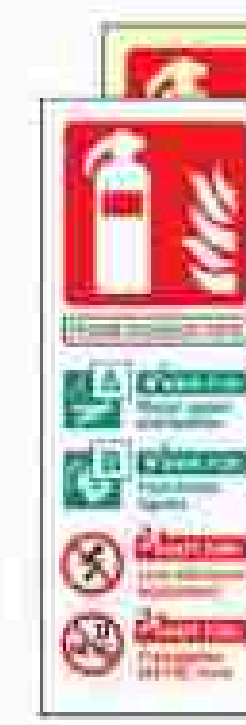

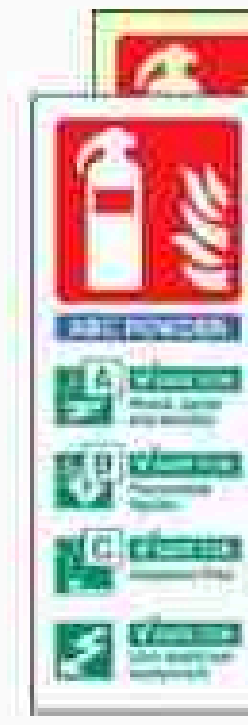

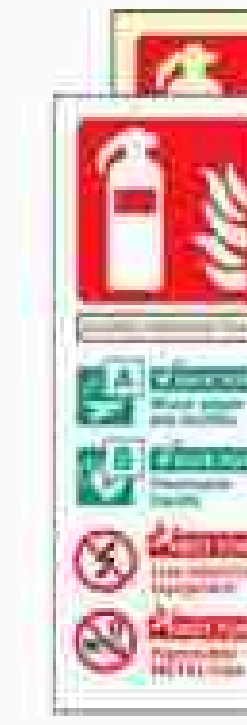

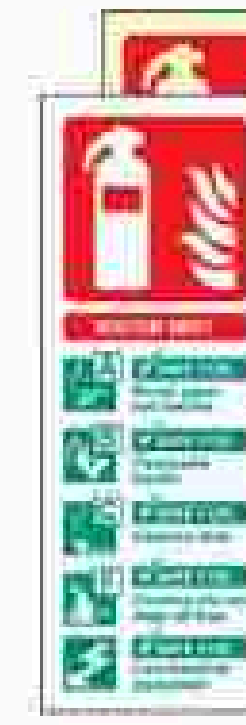

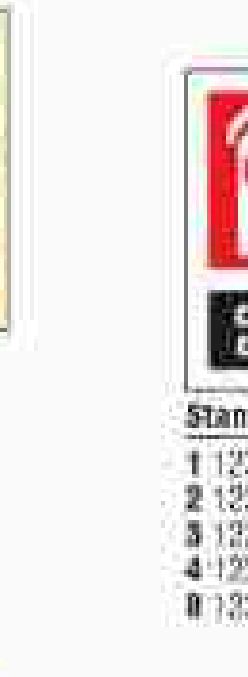

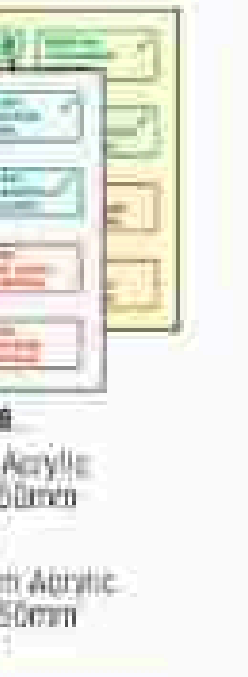

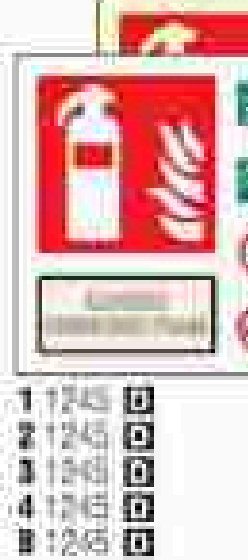

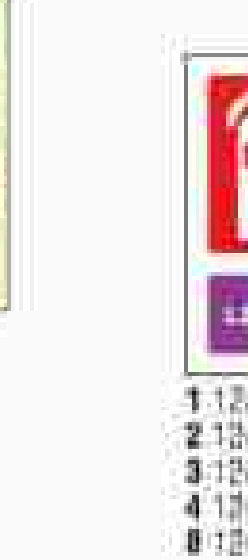

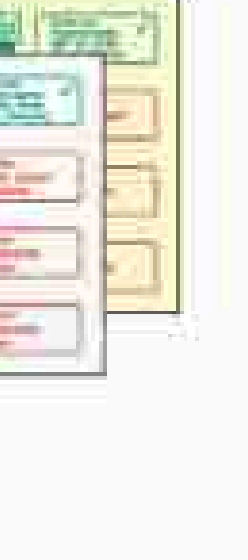

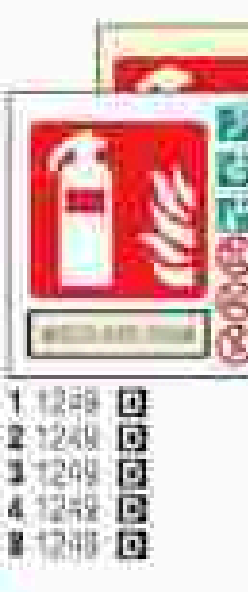

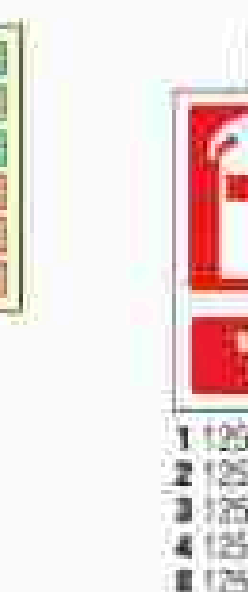

Braille & Tactile

2-ply ABS thermoplastic material for internal use offers a durable, scratch resistant, glossy surface. Available in various colours and surface finishes. Laser and routing capabilities offer a high quality finish.

Extinguisher Identification

The Regulatory Reform (Fire Safety) Order 2005 places responsibility of fire safety on employers to ensure that a fire risk assessment has been conducted to establish fire risks and that appropriate actions are taken to reduce them. Failure to comply could lead to severe legal penalties. Under the Regulatory Reform (Fire Safety) Order 2005, any non-automatic fire fighting equipment should be positioned and signed in accordance with BS EN ISO 7010:2012 to ensure maximum levels of comprehension. By positioning an appropriate fire equipment sign at a height between 1.7m - 2m from the floor it helps to locate and identify essential fire equipment in the event of it being obscured by furnishings in the room.

Acrylic Stand-offs

For prestige locations why not consider our acrylic stand-off signs to indicate your fire extinguisher ID. Manufactured from 5mm clear acrylic with a choice of sub-surface print on either a frosted crystal or photoluminescent finish.

Brass / Aluminium

Manufactured from anodised aluminium or brass with printed detail. Supplied with a self adhesive backing for easy installation.

Ideal for prestigious environments.

See page 84 for more information

Fire Extinguisher Location Boards

Extinguisher brackets (*not supplied) should be fixed through the panel and onto the wall

Extinguisher Inspection Tags

Mat PVC - Pack of 10

BS5306 recommends that a monthly inspection of all fire extinguishers should be completed. This tag should be attached to the extinguisher to remind and ensure such inspections are being completed.

Record and display results of monthly extinguisher inspections.

Supplied with 150mm nylon cable ties

50 x 83mm
\$ 0108

80 x 150mm
\$ 1080

\$ 8107

\$ 8120

Fire Extinguisher Pocket Guides

An ideal solution to help remind employees of the different fire extinguisher types. Semi-Rigid PVC - 75 x 90mm - Pack of 10

Fire Log Book

Maintaining a fire log book is considered good practice. It is used to demonstrate that fire safety responsibilities in the workplace are being managed effectively. It also provides fire engineers with a full service history.

Record all the dates and times of servicing and inspections in line with BS 5839-1:2013.

Sprinkler Signs

Sprinklers are seen as the only system which detects a fire, suppresses a fire and raises an alarm, making them vitally important as part of a fire safety programme. This range of signs helps identify and highlight the locations of important sprinkler equipment within a building.

Fire Door Signs

A fire door's purpose is to enable an emergency escape route through a property whilst compartmentalising a fire and preventing the spread of smoke and flames. This range of signs highlights a fire door and advises of its proper use.

Fire Door Signs

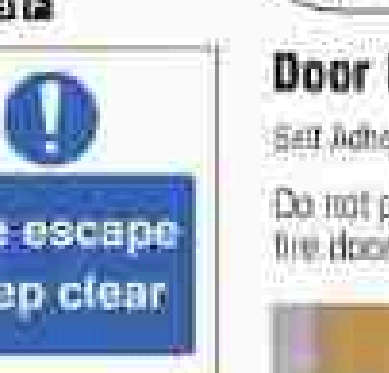

Every fire door should have a "Fire door Keep shut" sign fitted. When doors can be used from both sides a sign is required on both sides. Doors that open on to a fire escape corridor should be locked shut and signed accordingly. The window stickers are all double sided and designed for use on glass doors. They ensure the message is visible from both directions.

Fire Action Signs

Multi-Lingual Fire Action Signs

EasiFIX Fire Action

Fire action EasiFIX Kits are manufactured from a self adhesive photoluminescent material with aperture to accommodate regulation size fire alarm call points. Simply pop out the call point symbol and apply the main sign over the call point box then position the "popped out" symbol on the wall above the call point at a height of between 1.7 and 2 metres from the floor. Main sign: 150 x 330mm Pop-out: 100 x 100mm

Directional Emergency Escape Signs

Emergency escape signs are provided to guide you from wherever you are in a building, via a place of relative safety (the escape route) to the place of ultimate safety (the assembly area). It must not be assumed that everyone will know all safe routes through the building. Emergency escape signs should comply with BS EN ISO 7010:2012 to ensure maximum levels of understanding. The old EC Directive (92/58/EEC) designs should no longer be used due to their low comprehension credentials.

The photoluminescent materials we use exceed the performance requirements of **PSPA Class C**. It complies with The European RoHS-Directive 2011/65/EC (Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment). It contains none of the substances of very high concern (SVHCs) or banned substances as identified by the RoHS standard and provides razor sharp edge definition which results in opt. consistent colour density so your safety signs remain clear, strong and crisp, even in blackout conditions.

CUSTOM MADE

Stairway, Floor Level & Dwelling ID Signs

To assist the fire and rescue service in identifying each level of a building, storey identification signs identify the level by "Floor Number" and should be located on every landing of a fire-fighting stairway and every fire-fighting lobby (or open access balcony) into which a fire-fighting lift discharges. Storey ID signs should be supplemented by dwelling indicator signs positioned directly below the Storey ID sign, which provide information as to the dwellings (flats or maisonettes) located on the storey in question.

Please specify the range of flat numbers to be included, (e.g. 1 - 9 or 1A - 5C).

Large Double Sided

These large double sided emergency escape signs are manufactured from 5mm Foam PVC. At a size of 1200 x 400mm they are ideal for factories and warehouses where lighting may be poor and/or there may be large open areas where emergency escape directional signs are required to be viewed from multiple viewing angles. These signs are easily drilled which means you can suspend them from a ceiling using your choice of our sign suspension kits.

Large Photoluminescent Directional

These large photoluminescent fire exit signs are manufactured from Photoluminescent Rigid Plastic - 900 x 300mm - Easily drilled for wall fixing.

No Escape Sign

Branded Site Saver Signs

Low-cost, lightweight and durable making them perfect for temporary site signage. You can even add your own logo for no extra charge.

Double Sided Stickers

These double sided stickers allow application to the inside of a glass window / door.

Emergency Escape for Disabled People

This range of signs is specifically designed to assist the safe evacuation of physically disabled people in the event of an emergency. These signs meet the requirements of BS9999:2017 – Code of practice for fire safety in the design, management and use of buildings.

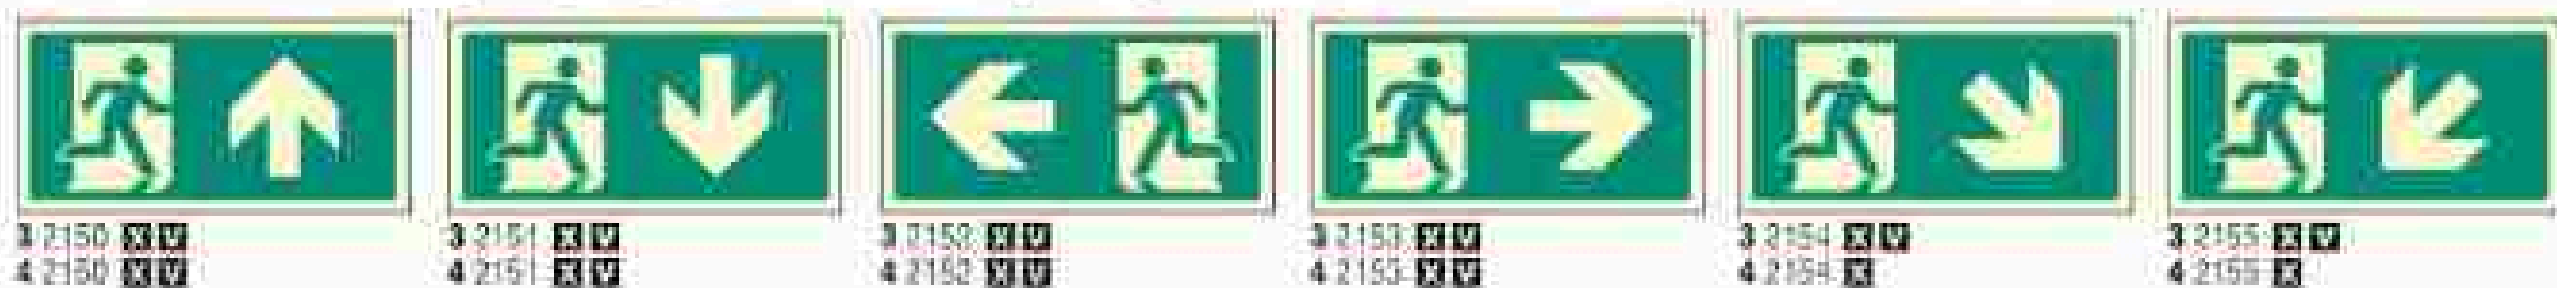

Emergency Refuge Signs

Intermediate Markers

ISO 18069:2004 describes the principles governing the design and marking for Safety Way Guidance Systems. In addition to the requirement for installing exit signs at 1.7m - 2.2 metres from the ground, this standard recommends that additional intermediate and low location markings may also be required. Position at a maximum height of 400mm from the floor for low level marking. Subject to a full risk assessment, additional escape guidance should be provided through the use of both continuous guidance lines and safety signs to ensure there is an uninterrupted safety sign system to aid an efficient and safe evacuation from a building. Fire fighting equipment, hazards along an escape route, boundaries, stairs and ramps should also be identified.

Door Plates

These door plates are manufactured from Photoluminescent Rigid Plastic and are complete with a self adhesive backing.

Plates should be installed to reinforce the exit message. They should not be installed instead of an exit/fire exit sign above the door.

75 x 300mm

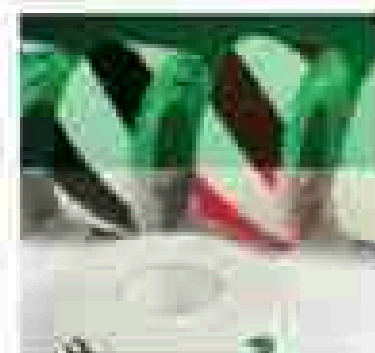

Projecting Signs

Visible from a number of angles, these projecting signs help in the quick identification of suitable exit or fire exit routes. Includes drilling guide for simple installation. Designed to conceal flange for a neat finish.

Photoluminescent Safety Tapes

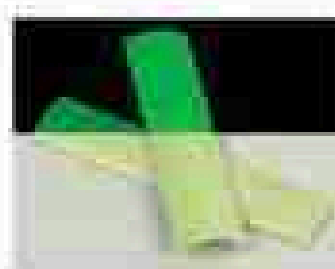

10 Metre Roll - Self Adhesive Vinyl - Perfect for highlighting door frames and / or the location of fire fighting equipment.

Handrail Marking Strips

Curved for easy application to circular hand rails. Exceptional luminance properties.

Rigid Photoluminescent Class D
Self Adhesive Back
1200 x 25mm
5 8573

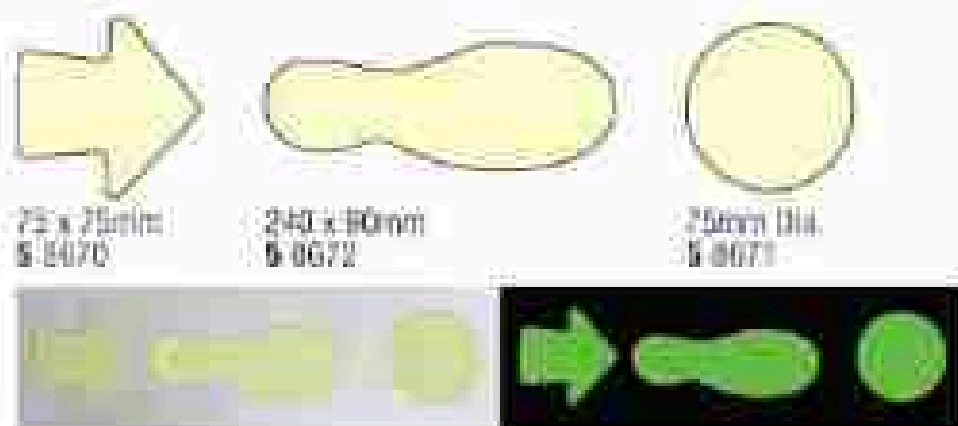

Marking Strips

Perfect as a low level repeater message to complement your fire escape strategy.

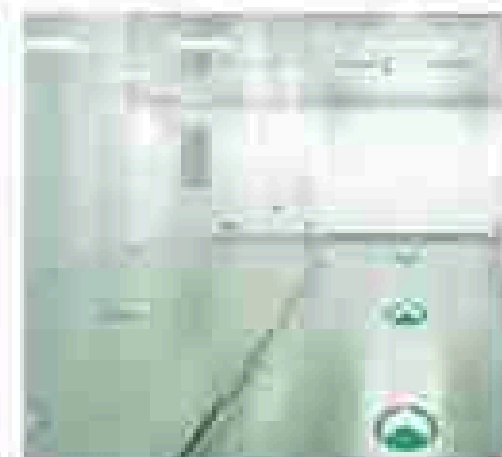

Floor Markers

Photoluminescent way finding floor markers are an effective method of marking escape routes. These floor markers have an anti-slip surface, strong adhesive backing and come in packs of 20.

Deluxe Floor Markers

Aluminium back provides extra strength and durability in high traffic areas. Anti-slip surface. Photoluminescent Class D aluminium with adhesive backing.

Emergency Lighting Fascias

Replace the front of an emergency light with an ISO 7010 compliant graphic.

Rigid Plastic

Assembly point Aluminium 450 x 600mm 2.4m Pole Collapsible \$ 2123	 Designed for a fire warden to use during a fire evacuation. Ideal for built up areas where there is no fixed assembly point such as city centres. Collapsible pole enables easy storage until required.
---	---	--	--

Evacuation Procedures: Choosing an Assembly Point.

Fire assembly points should be far enough away from the building to avoid interference with the fire brigade and danger from falling debris caused by the fire. Providing clear and visible signage will help ensure all evacuees know where to gather in the event of a fire or fire drill. They must be easily accessible and have an unobstructed pathway leading to them. Larger sites may require multiple assembly points that can be identified with allocated numbers/letters.

Shelter

This cost effective shelter comfortably accommodates four occupants, making it ideal for a number of applications. This shelter provides users with protection from the elements, whether you wish to use it as a company smoking shelter, shuttle bus point or even as a fire assembly point, its durable and sturdy design ensures its users are safe from the wind and rain.

Smoking is not only an unhealthy habit but also a very messy habit. This shelter when used as a smoking shelter provides a specified smoking area and reduces smoking in undesignated areas. Also when used with cigarette bins it helps reduce the spread of litter and any potential fire hazards.

Made from high quality components, in a powder coated finish for lasting protection from rust, water, impact and it is also fire resistant. Domed roof prevents water pooling. Includes a cigarette bin with mounting plate. Supplied flat packed with full assembly instructions and drawings. *Additional carriage charges may apply.

Fire resistant powder coating

Designated Smoking Area Signs

Under BS EN ISO 7010 and BS 5499 signs relating to Designated Smoking Areas are deemed as "Safe Condition" signs. Safe Condition signs should always use white text on a green background, alongside a tick or appropriate symbol. Whilst we actively endorse and, wherever possible, adhere to the relevant Standards, we feel in this specific instance signs permitting smoking should under no circumstances be deemed as "safe". In acknowledgement of the damaging effects of smoking, please note our range of signs utilises black to clearly differentiate these signs from Safe Condition signs.

No Smoking Regulations

The Smoke-free (Signs) Regulations 2012 state that at least one legible no smoking sign is displayed in smoke free premises.

England and Northern Ireland: You must display signs at each public entrance to any work or public place. Signs should also be displayed in public / business vehicles. Bedrooms in hotels, care homes and prisons are exempt.

Wales: Any work or public area must display the 'Law' sign at each entrance. General, dual language 'No smoking' signs should also be on display in public and business vehicles.

Scotland: Signs should be displayed at each public entrance to any work or public place. Signs should also be displayed in public / business vehicles. Bedrooms in hotels, care homes, police interview rooms and prisons are exempt.

Harmful Substances

Displayed to advise and forewarn of potential dangers. These signs should include a yellow triangle with black border containing a warning symbol conforming to ISO 7010.

The signs' supplementary text should always include one of three words: - **Danger** - High level risk that could result in death or serious injury. This keyword should be limited to the most extreme hazard cases. - **Warning** - Medium level risk that could result in minor or moderate injury. - **Caution** - Low level risk that could lead to minor injury.

Arc Flash

An arc flash is an explosive release of energy that includes brilliant light, dangerous sound levels and sometimes a blast pressure wave. It is primarily caused by an electrical short circuit or overvoltage between live conductors or live conductor and earth. When the flash results in a blast, explosive noise and shrapnel can accompany it. Isolating the supply of electricity and using appropriate PPE are popular methods for reducing the risk of an arc flash, as is the use of appropriate signage to highlight the inherent dangers.

 Warning Arc flash and shock hazard 1 4318  2 4318 	 Warning Arc flash and shock hazard. Appropriate PPE and tools required when working on this equipment 1 4320  2 4320 	 Warning Arc flash and shock hazard Isolate before opening cover 1 4321  2 4321

Glass / Door Highlighting

Provision 14 of The Workplace (Health, Safety and Welfare) Regulations 1992 states that every window or other transparent surface in a wall or door shall, where necessary for reasons of H&S, be appropriately marked or incorporate features to make it apparent. These self adhesive vinyls can be used to highlight glass surfaces.

Polypropylene - 300 x 600mm - Double-Sided Warning - Foldable, Waterproof, Durable and Compact

Lightweight Free Standing Signs

Fluted Polypropylene - 300 x 600mm - Double-Sided Warning - Waterproof, Durable, Lightweight and Compact

Custom Free-Standing Signs

These popular double sided, free-standing signs can be customised and personalised to show the warning message you require. They can also be used to promote brand awareness while you work – add your company name and contact details to ensure potential customers know who to contact if they want similar work completed.

To customise these signs in any way simply quote the relevant code and supply the wording/message or image that you require when ordering.

Choose your design and include up to two words on both sides.

Personal Protective Equipment (PPE) Signs

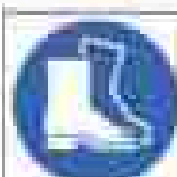

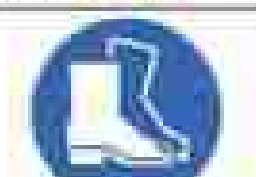

Employers are responsible for the provision and use of personal protective equipment (PPE) at work. PPE is equipment that will protect the user against health or safety risks at work. It can include items such as safety helmets, gloves, eye protection, high-visibility clothing, safety footwear, safety harnesses and respiratory protective equipment (RPE).

PPE must be properly looked after and stored when not in use. Employees must make proper use of PPE and report if it has been lost, damaged or if any fault is found. Safety signs and posters can prove a useful reminder that PPE should be worn during specific tasks or in specific locations. Take note of any changes in equipment, materials or methods – you may need to update your signs accordingly.

Noise Activated Sign

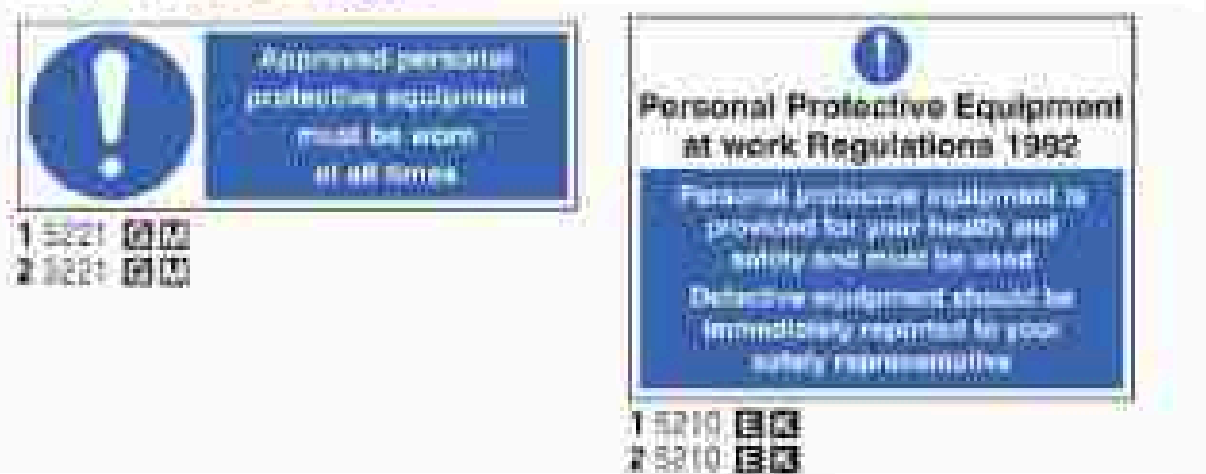

A highly visible noise activated sign for use in areas where there's a need to clearly warn or indicate when a preset noise level is reached. A great solution where noise levels are intermittent or vary significantly such as factories or entertainment venues.

- Lights up when a preset noise level is exceeded.
- Quick and simple to install. Will mount and connect to mains via 5m cable.
- Trigger level: 40dB(A) to 114dB(A) for use in any environment.
- High intensity wave LED for high visual impact and a long operating life.

PPE Posters

PPE at Work Regulations 1992
(Personal Protective Equipment)

What you need to know

Employers must ensure that their employees are provided with and trained in the use of appropriate personal protective equipment (PPE) to protect them from risks to their health and safety.

When you need to wear it

When you are exposed to a risk to your health and safety that cannot be adequately controlled by other means.

What you need to know

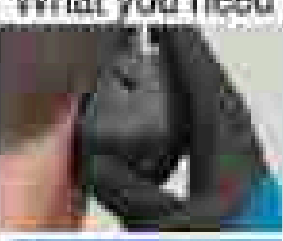

Employers must ensure that their employees are provided with and trained in the use of appropriate personal protective equipment (PPE) to protect them from risks to their health and safety.

Key points

- Employers must provide PPE to their employees.
- Employers must ensure that their employees are trained in the use of PPE.
- Employees must wear PPE when it is required.
- Employees must not use PPE if it is damaged or defective.
- Employees must report any damage or defect to their employer.

WAREHOUSE NOTICE

-  **Caution**
Forklift trucks operating
-  No unauthorised persons allowed beyond this point
-  High visibility clothing must be worn
-  Protective footwear must be worn
-  Pedestrians must keep to walkways

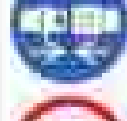

1 4307

DRIVER NOTICE

-  **Caution**
Be aware of pedestrians
-  No unauthorised entry
-  All drivers and visitors must report to reception
-  Parking and driver instructions must be obeyed
-  10 Speed limits must be observed

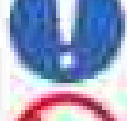

1 4302

DRIVER NOTICE

-  **Caution**
Be aware of pedestrians
-  The use of mobile phones while driving is prohibited
-  All operators must have a valid forklift licence
-  Seatbelts must be worn at all times
-  5 Speed limits must be observed

1 4305

FORKLIFT PARKING

-  Engage parking brake
-  Forks must be lowered to the floor
-  Masts must be upright
-  Do not extend forks into the aisle or walkway
-  Return keys at the end of your shift

1 4310

DRIVER NOTICE

-  Report to site manager before coupling to trailer
-  Loading must be completed before coupling to trailer
-  Comply with traffic signals at all times
-  Parking brake and wheel chocks must be applied if uncoupling trailer
-  Do not attempt to pull away on a red light

1 4306

FORKLIFT LOADING

-  Complete a daily check of forklift before use
-  Ensure all loads are secure and stable
-  Ensure brakes are set and wheels are locked on trailers before loading or unloading
-  Do not stack the load too high

1 4309

FORKLIFT SAFETY

-  Do not use truck until a pre-shift inspection has been completed
-  Report all defects immediately
-  Record and report all near miss incidents

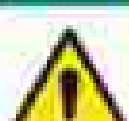

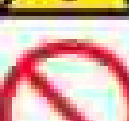

1 4308

Site Safety Multi-Message Signs

Our full range of multi-message site safety boards are on pages 110 - 112. Choose from our standard range or create your own multi-message site safety board by selecting a template and adding the safety messages you require.

DRIVER NOTICE

-  **Caution**
Be aware of pedestrians
-  Vehicles must not enter the site without the authority of the site supervisor
-  Unsupervised reversing in and out of site is strictly forbidden
-  Speed and parking restrictions must be observed

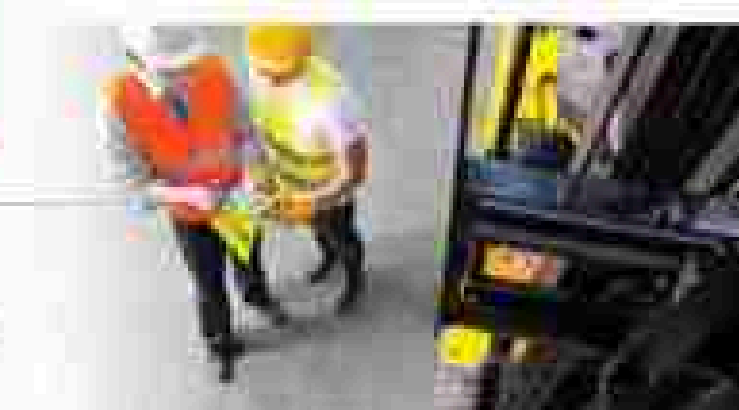

1 4304

FORKLIFT SAFETY

Only adequately trained personnel are allowed to operate lift trucks on this site. Pre-use checks should be carried out in compliance with the Provision and Use of Work Equipment Regulations 1998.

-  **Caution Forklift trucks operating**
-  Daily checks must be completed before use
-  Sound horn and drive slowly
-  Seatbelts must be worn at all times
-  Do not travel with forks raised

1 4306

Forklift Inspections

Employers have a duty of care to ensure all employees operating or working in the vicinity of forklifts are protected from harm. Good to Go Safety offers a simple yet effective solution for forklift safety with daily or weekly inspections. Complete pre-use checks as part of your forklift safety maintenance programme and ensure all staff are aware of the forklift's status at all times. See pages 123 - 125 for more information.

Multi-Message Design Rules

Multi-message signs can be used to display several safety messages on one sign, consolidating important information into a single focal point and removing the risk of sign clutter. Different safety sign categories can be placed together vertically or horizontally on the same sign. The sign should never combine two categories into one message. Multi-message signs should follow the design principles of BS EN ISO 7010:2012 to ensure maximum levels of message comprehension.

First Aid Signs

Under the Health and Safety (First Aid) Regulations 1981 (as amended 1997) employers have a legal obligation to assess and introduce first aid provisions. Any such provisions should be easy to locate.

Our range of eye-catching safety posters are a perfect solution to businesses wanting to clearly, quickly and concisely display specific health and safety guidance and advice to a wider audience. We always recommend the regular rotation of posters to keep your displays fresh and interesting to staff, increasing the potential for posters being read. You will find a range of frame options on page 55 to help protect and further highlight the poster on display.

Document Displays

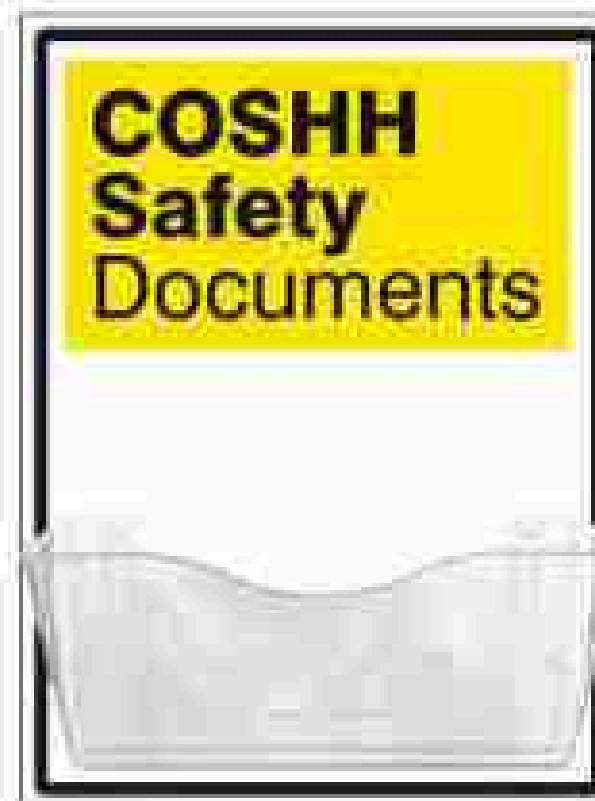

10mm Foam Board – 450 x 600mm

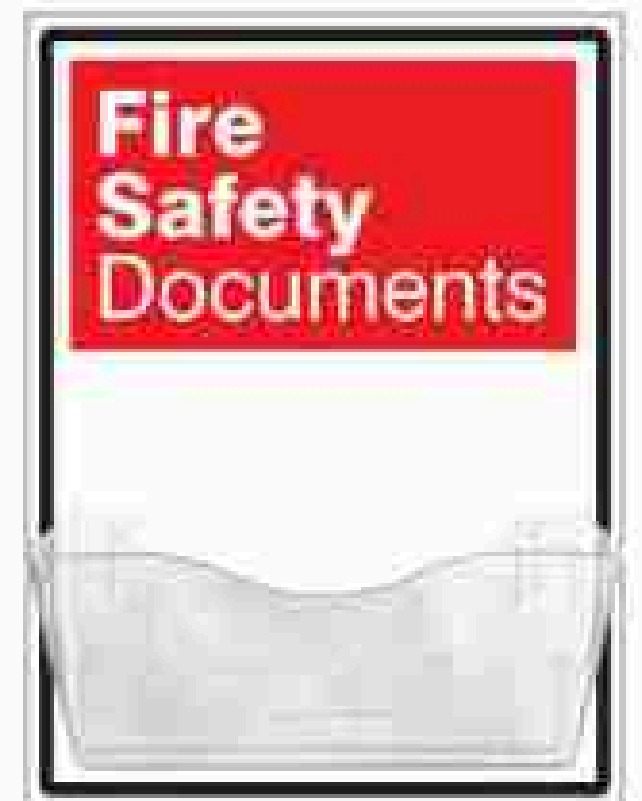

Keep important safety documents in a clearly displayed and readily available place. This range of document displays help companies organise their important documents and help staff remain informed and up to date regarding all workplace information. Signs are supplied with a clear polystyrene document holder.

Permits to Work

Permits to Work are an integral part of every Health and Safety Management System.

They include a risk assessment and sign-off to ensure that only competent employees are working on the identified hazards.

Permits contain three parts (original, plus two carbon copies for management records) with a useful card backing in the form of an A4 sign.

D.S.E.A.R

Dangerous Substances and Explosive Atmosphere Regulations

The Dangerous Substances and Explosive Atmosphere Regulations (D.S.E.A.R.) were introduced in 2002 to set a minimum requirement for the protection of workers from explosion and fire risks relating to dangerous substances and/or potentially explosive atmospheres.

The Regulations implement two European Directives.

Explosion-Atmosphere (ATE) Directive, 94/9/EC
 The main aspects of this Directive require that you:

- **Engineers must undertake the following to comply with the DSEAR:**
 - Conduct a risk assessment of all processes involving dangerous substances.
 - Develop measures to eliminate risks.
 - Carry out maintenance and examinations.
 - Make arrangements for emergency testing, stoppage and shutdown in a regular basis.
 - Stop emergency testing, working with accidents and emergencies.
 - Making information and training to employees and others.
 - Identify signs and substances including dangerous substances.
 - Record significant findings, assess a response, document, train staff and prepare.

Dangerous Substances include:

- 1. Acids
- 2. Organic materials like oil/fat
- 3. Flammable
- 4. Combustible and explosive dust
- 5. Oxidizers

Abrasive Wheel Regulations

ABRASIVE WHEEL SAFETY

MAXIMUM OPERATING SPEEDS

Always consult the supplier's operating manual for the wheel to find the operating speed shown in maximum wheel size for diameter.

The table below shows the maximum operating speed in feet per minute (FPM) for the abrasive wheels in common practice wheel diameters and maximum operating wheel size.

Maximum operating speed (FPM)

Health & Safety Guidance

Health and Safety Law Poster

The HSE has reprinted the Health and Safety Law Poster which now includes enhanced security features. The features include an image flip hologram with surface relief, optical variable ink, embossed roundel, rounded corners and is printed on recyclable polypropylene material.

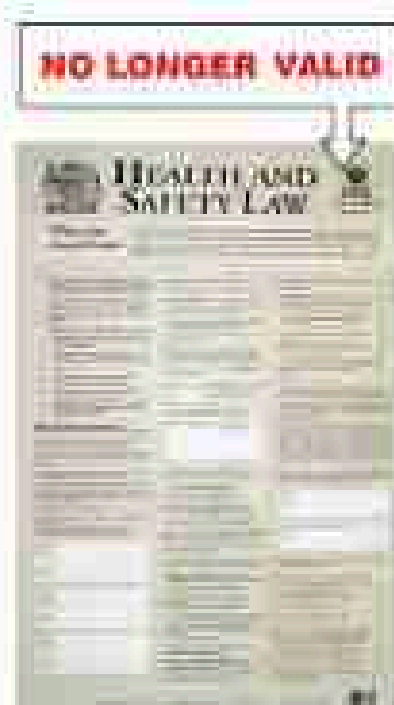

Easy to read and understand, providing benefits from increased awareness to both workers and employers.

Unlike the previous poster, there is no need to provide the name and address of the enforcing authority for the premises.

Reduces the administrative costs for employers, who no longer need to include and update additional information.

Roller Banners

Roller Banners are the ideal choice for creating a free standing display quickly and easily. The graphic is protected inside the roller cartridge when the stand is not in use and a carry case is provided for easy transportation.

Create your own promotional Roller Banner for use at exhibitions, trade shows or for in-store point of sale messages. Simply supply high resolution artwork when ordering or call us for assistance.

- Lightweight aluminium base and top bar
- Lightblack PVC banner material prevents light shining through
- Roll-up system with fast assembly and safe storage
- Retractable tensioning system
- Complete with carry case
- Banner size: 3500 x 800mm

55123

Hints & Tips

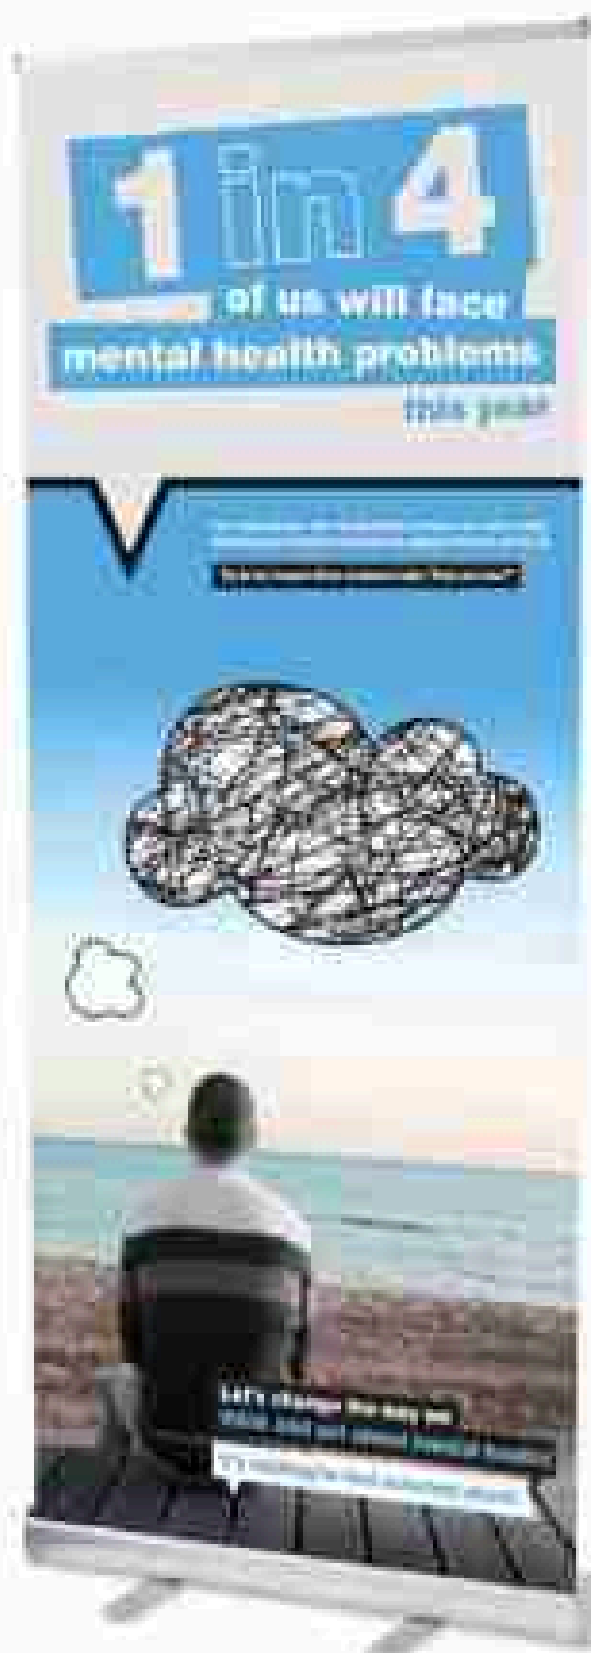

Include your company logo at the top of the banner to create brand recognition, visible from a distance

Place your key message at eye level

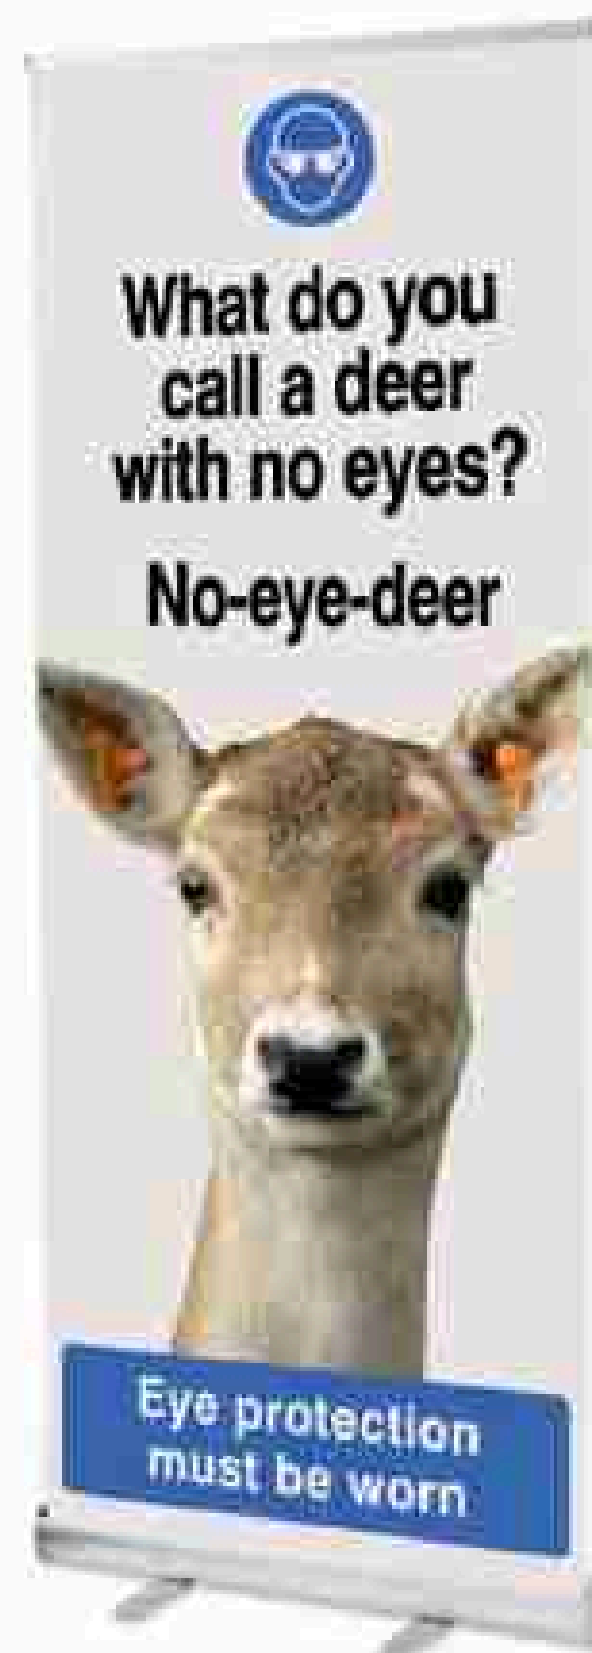

Align your text, keep sentences short and punchy, reading left to right

Use high resolution images and avoid placing text over them

Don't be afraid of leaving white space. If in doubt, ask us for assistance

Rack Protector

Cost effective protective bumper, minimises the impact of forklift truck collisions. Supplied with two velcro straps (700mm) for quick and easy fixing to most uprights.

- Polyethylene - no fading or denting
- Waterproof and chemical resistant
- Ability to reform itself after an impact
- Slim fit provides minimal aisle intrusion
- Manufactured to comply with BS6399-1: 1996

Clips to any frame width between 75-90mm - Height 500mm

\$ 9235

Racking Sack

Made from tough waterproof polyester, the racking sack can adequately withstand the rigours of an industrial environment.

The re-usable waste sack helps promote a green and tidy work place and is suitable for racking systems between 900-1100mm deep.

Quickly fixed/removed to the end of racking using the hooks provided. When hung it has a large open mouth to easily receive waste, without encroaching into the floor area.

Alternative colours and messages are available upon request.

900 x 1000mm (W x H)
\$ 8933

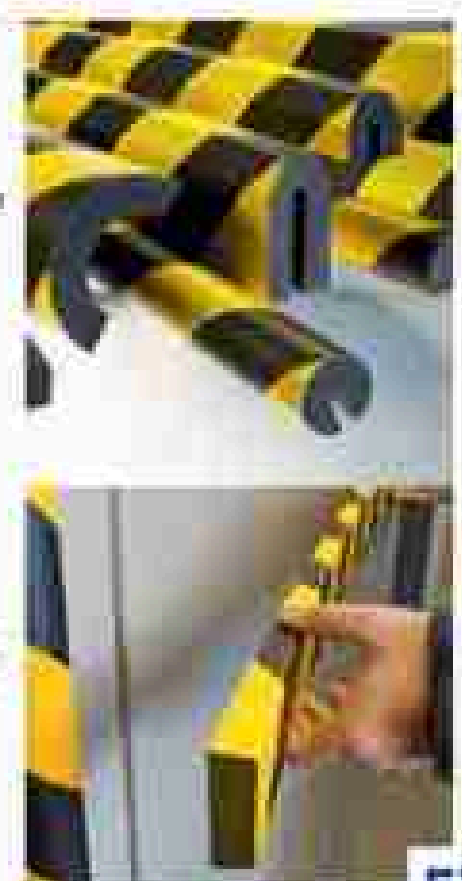

Impact Protection

The impact protection system cushions and warns of protruding corners, edges, vulnerable pipes and protects many other areas such as walls, kerbs, trolley parks, vehicles, plant and machinery and is ideal for racking and shelving. Supplied in standard lengths of 1000mm and manufactured from high-grade flexible age resistant polyurethane foam with self adhesive or push on profiles. Protects staff from injury and property from damage. Can be easily cut to the required length.

Reflective Tapes 50mm x 25m - Self Adhesive

High visibility, retro-reflective marking tape that is resistant to corrosion, weather and most solvents. Shines brightly in the dark when light is directed at it.

Floor Safety Tapes 50mm x 33m - Self Adhesive

Ideal for use in warehouses etc. Soft surface printed and over laminated in hard wearing, anti-slip polycarbonate film. We advise the use of primer, edge sealer and floor cleaning fluids for improved adhesion (See page 54).

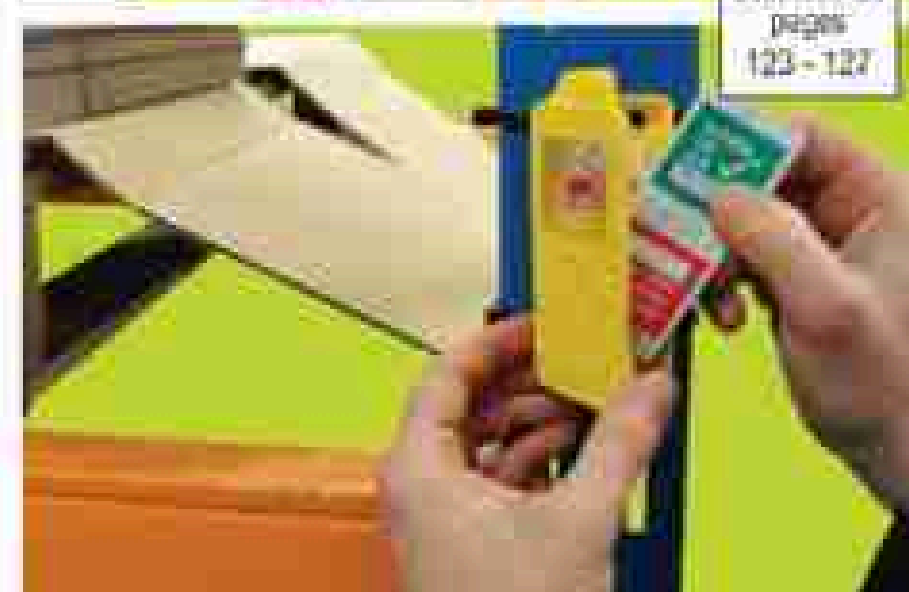

Equipment Inspections

Equipment tagging and inspection system designed to improve workplace safety. Perfect for ensuring warehouse equipment is always 'Good to Go'. Simply attach tag to equipment and use the corresponding check book to carry out an inspection, inserting the completed checklist inside the tag. A duplicate carbon copy of the completed checklist is provided for your management records. A tamper evident seal can be used to deter unauthorised access. Provides a clear visual confirmation of equipment status. A weekly kit provides everything required for 50 inspections, the daily kit for 275 inspections.

Domed Mirrors

Ideal for shops and warehouse premises.

Quarter and Half Dome are supplied with wall fixings.

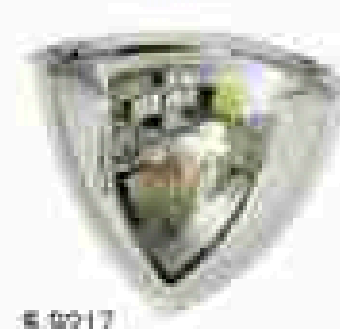

Full Dome includes chain kit for hanging from ceiling.

S 9241

S 9240

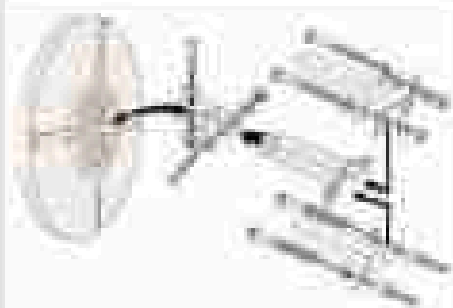

S 9217

Description	Size	Viewing Distance	Direction	Code
Quarter Dome	410mm	4 metres	2 way 90°	S 9217
Half Dome	600mm	6 metres	3 way 180°	S 9240
Full Dome	600mm	6 metres	4 way 360°	S 9241

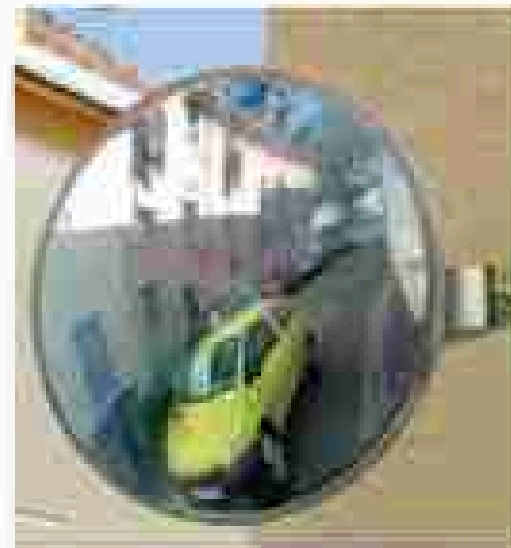

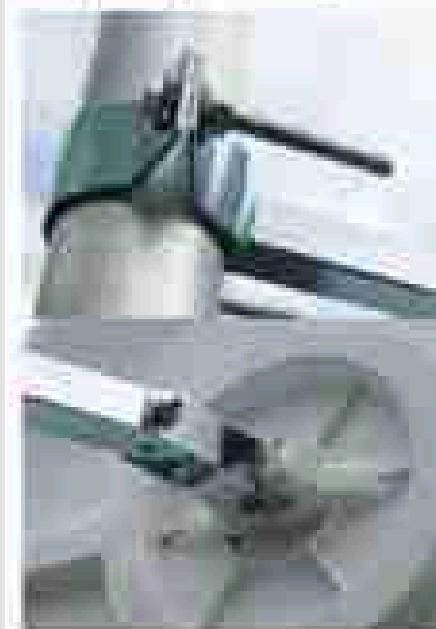

Convex Mirrors

A range of light and virtually unbreakable convex mirrors supplied with a three year guarantee. Includes fixings.

Convex mirrors are supplied complete with fully adjustable bolts & bracket kit for either wall mounting or for posts (34 - 90mm diameter).

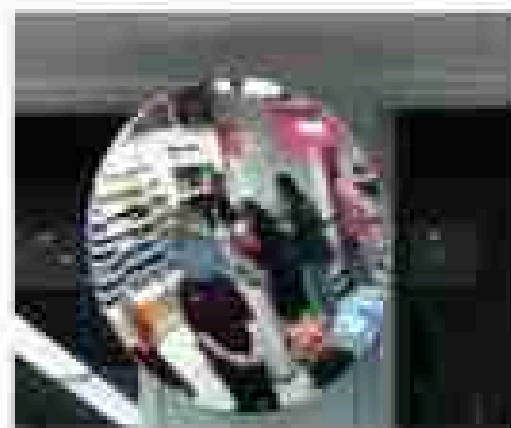

The kit is robust and tested to withstand winds of up to 163 km/h. Easy to install, allows precise adjustment for optimal positioning.

Multi-Purpose Internal / External Use

Ideal for use in warehouses, high-risk collision areas, stock surveillance, work station safety and direct observation of hidden parts of machinery.

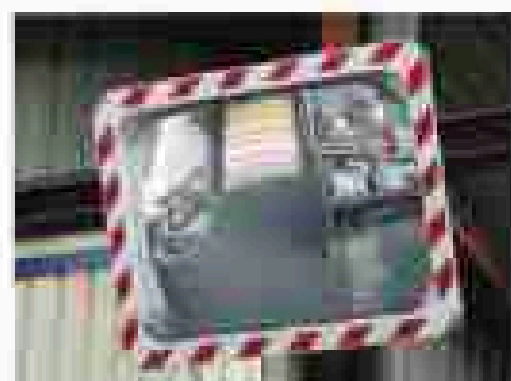

Size	Viewing Distance	Code
300mm	3 metres	S 9201
400mm	5 metres	S 9202

Multi-Lingual Signs

Multi-Lingual signs are a useful way to get key safety messages across to employees and the public, within areas known to have a large percentage of people where English may not be their primary language. We are able to supply signs in a wide range of languages, so if you can't find the language or message that you require please contact us for a quote.

Custom Floor Graphics

A great solution to highlight potential dangers or identify warehouse aisle / bay letters and numbers. Simply supply us with your message of choice, logo or photograph and we will print your floor graphic.

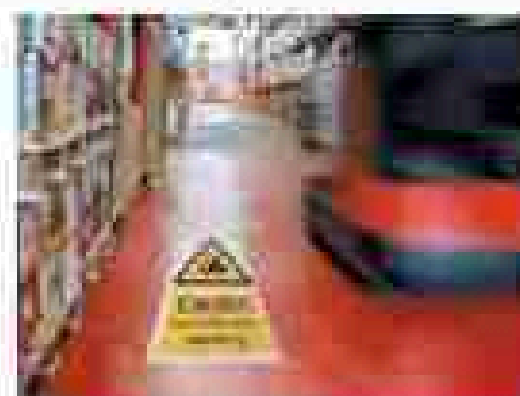

Custom Multi-Lingual

If you have a specific language requirement please call us for a quote.

You can supply us with the required text or we can supply a translation service at an additional charge.

Floor Graphics 400 x 600mm

Floor graphics are ideal for use in warehouses. Sub-surface printed and laminated in hard anti-slip polycarbonate film. The use of primer, edge sealer and floor cleaner is recommended for improved adhesion.

Floor Graphic Frames

Tough permanent adhesive colour edged PVC frames that enable a printed message or barcode to be placed and protected onto the floor. Manufactured using a thin plastic membrane, the frames bond onto the floor surface and are therefore resistant to the rigours of a busy warehouse. Ideal for identifying stock locations or to highlight important information. Displays an A4 message. Alternative frame colours available on request.

400 x 310mm frame with Clear A4 window to display your message of choice.

Yellow £ 8535
Yellow / Black £ 8938

Cable Protector

High grade fire retardant and non-conductive flexible polymer cable protector. No fixings required. Split base membrane allows cables to be pushed inside to leave the cable protector sitting flush to the floor. Gently sloping sides allow smooth passage of trucks and trolleys, whilst yellow warning stripes along each side of the profile ensures maximum visibility and reduced risk of a trip hazard.

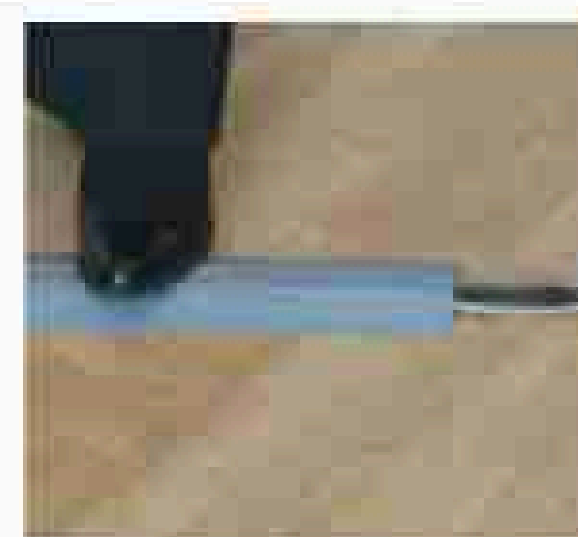

Polymex - Easy to Cut
External: 15mm x 80mm x 9m (H x W x L)
Internal: 7mm x 30mm (H x W)
£ 9332

Economy Cable Cover

Grey rubber cable cover provides an effective solution to trip hazards where cabling is exposed. Smooth easy-clean surface, easily cut to length off the roll. Base can be slit for easy cable insertion. Gently sloping edges allow smooth passage of trucks and trolleys. Ideal for office environments.

Spray Paints

Long lasting, durable synthetic resin paint. Easy to use, simply shake the can, insert into an applicator and apply. Produces markings that are highly visible and are abrasion and chemical resistant. Adheres to most surfaces - concrete, asphalt, tarmac, metal and tiles.

Economical - one 750ml can produces a 50mm wide line approximately 50-90 metres long (dependent on surface). Environmentally friendly. Conforms to the latest EU regulations.

Red £ 9607 White £ 9608 Yellow £ 9606

Paint Applicators

The hand held applicator is perfect for use with stencils giving you free movement, whilst the 4-wheel applicator is ideal for creating neat, straight lines without the worry or shaky hands.

Hand Held Applicator

This hand applicator has been specially designed for comfortable use. Ideal for use with stencil sets. Makes marking steps or obstructions easy.

£ 9604

4-Wheel Applicator

This 4 wheel paint applicator produces 50 - 75mm wide line marking of roughly 25 metres per minute.

Minimal assembly is required and the rear wheels are removable to get up close to walls and racking.

Colours can be changed quickly without clearing the machine.

£ 9603

Line Marking Kit

This handy kit contains everything you need to mark-out warehouses, factories or car parks.

The four wheel paint applicator produces a 50 - 75mm wide line marking of roughly 25 metres per minute.

The long lasting synthetic resin spray paint produces highly visible, chemical resistant marking that adheres to most surfaces such as concrete, asphalt, metal and more.

Additional paint can be ordered if required - if you require the kit with an alternative colour please advise.

Chain Posts

Plastic posts and chains offer a lightweight, flexible option for cordoning off areas quickly and easily, making them perfect for temporary hazards such as spillages or for preventing access to areas during cleaning or hazardous work activities. The posts and bases are easily detached for ease of storage.

Universal Chain Post & Base

An ideal, low cost solution for cordoning off areas both internally and temporarily in outdoor environments. Quickly and easily deployed.

Use with plastic chains and chain links below (sold separately).

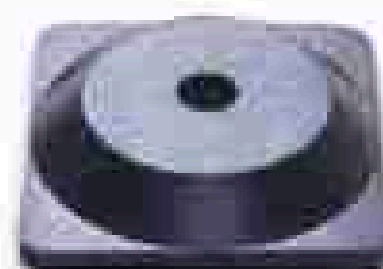

We recommend a maximum of two metres of plastic chain between posts.

- Corrosion proof plastic construction
- Four chain eyes in cap allows easy directional changes
- Highly visible post colours

Heavy Duty Chain Post & Base

A highly stable and extremely effective heavy duty chain post system consisting of a reflective, polypropylene post and recycled PVC base. Suitable for both internal and external use for either temporary or permanent applications.

100mm diameter post includes a retro-reflective red and white finish, providing excellent visibility when light is shone at it. The chain eye on top of the post rotates, guiding the chain to any angle required. Simply thread the chain through the eye and secure to the end posts with a connector link (sold separately). The post twists and locks into the base and easily dismantles for storage.

We recommend a maximum of 2.5 metres of plastic chain between posts.

Base
Recycled PVC base with carry handles
Dimensions: 7cm high, 37cm diameter
Weight: 8.5kg

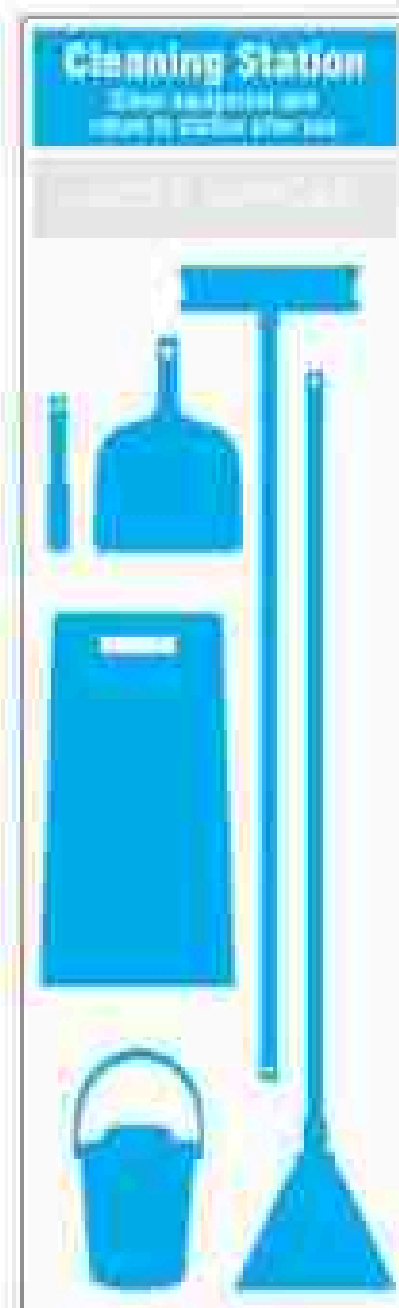

Post
Wound polypropylene with reflective finish and rotating chain eye
Dimensions: 1metre height with 10cm diameter
Weight: 2.7kg

Shadow Boards

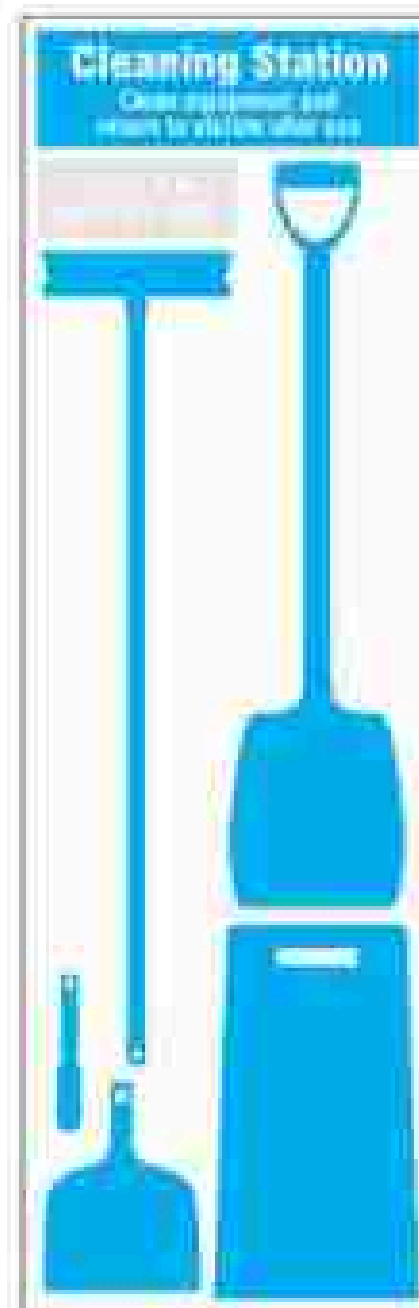

A Shadow Board is a great addition to any 3S / 6S system, acting as a locator for tools and equipment. They can be customised to mirror your site processes and devices, with personalised graphics/shadows that indicate exactly where the item should be stored when not in use. The shadow board allows the easy recognition of missing items and helps to ensure everything is stored correctly. Each shadow board is marked for accurate attachment of hooks, hangers and rails.

There are many important benefits derived from using a shadow board system such as: **1. Systematic storage in an organised manner** - makes it easy to locate items when needed, **2. Improved productivity** due to removing wasted time searching for tools and equipment, **3. Accountability** - with each worker responsible for their workstation missing items are quickly identified, **4. Space utilisation** is improved by keeping everything stored neatly in one easy-to-reach location.

6S Safety Signs

6S is a system for organising spaces so work can be performed efficiently, effectively and safely. This system focuses on putting everything where it belongs and keeping the workplace clean and tidy, which makes it easier for people to do their jobs without wasting time or risking injury.

A neat and tidy workplace will see higher productivity, produce fewer errors/defects, meet deadlines better, be a safer place to work, identify problems earlier, promote stronger communication levels, reduce waste and lower costs. Our range of signs and posters help to promote the importance of 6S.

6S Steps to Safety

6S is a system for organising spaces so work can be performed efficiently, effectively and safely. This system focuses on putting everything where it belongs and keeping the workplace clean, which makes it easier for people to do their jobs without wasting time or risking injury.

The Steps to Follow:

- 1. SORT** (Red Tag)
- 2. SET IN ORDER** (Yellow Tag)
- 3. SWEEP AND SHINE** (Green Tag)
- 4. STANDARDISE** (Blue Tag)
- 5. SUSTAIN** (White Tag)
- 6. SAFETY** (Purple Tag)

Door Screen Signs

Door Screen Safety Signs offer an innovative solution to warn people of potential hazards and prevent access by fitting a barrier with the appropriate message across a doorway.

- 600 x 450mm flexible PVC sign
- Rubber end caps for maximum grip
- Wipes clean and rolls away for easy storage
- Spring loaded poles (710 to 1010mm to fit most single doorways)
- Warning message prevents access and warns of hazards
- An excellent temporary barrier to prevent access during cleaning or repairs.

Cover up Signs

The Cover-Up Sign provides a clear barrier to faulty equipment such as toilets, vending machines and office equipment. A clear visual message warns of the fault whilst the sign itself provides a physical barrier. Assembled in seconds, using hook and loop fixings. Simply collapse the Cover-Up sign when it is no longer required and store until the next use.

- Floor or wall mounted, wipe-clean material
- Collapsible and reusable for easy storage
- Provides a clear message and physical barrier
- Strong, lightweight and waterproof
- Offers a professional looking solution for short-term maintenance issues

300 x 575mm - Polypropylene - Provide a clear and appropriate warning of risks with our yellow self-standing signs.

Up to 10 words on both sides

Spill Kit Station Signs

Regulation 13 of the Control Of Substances Hazardous to Health Regulations 2002 places a duty on employers to provide for appropriate emergency response including immediate remedial action. EN-ISO 14001 requires organisations to 'establish and maintain procedures to identify potential for and respond to accidents and emergency situations, and for preventing and mitigating the environmental impact that may be associated with them' (Clause 4.4.7).

Our range of signs inform how to effectively respond to any oil, chemical or general fluid spill on site, land and water, inline with EU guidelines and legislation to assist with ISO 14001 compliance.

Material information

Deciding on your sign message is only the first step. When ordering a sign, thought should also be given to where that sign is going to be displayed. For more information on our most popular materials and the locations they are most suitable for see page 3.

Recycling Signs

An extensive range of recycling signage to ensure your workplace identifies bins and areas dedicated to your recycling programme. Waste & Resources Action Programme compliant.

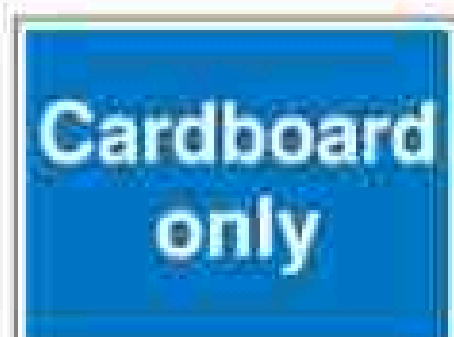

The aim of the WRAP programme is to help businesses, local authorities, community groups and individuals recycle and reuse more, and to reduce food waste. If you can't find the sign you need for your businesses' recycling programme let us know and we are happy to quote for custom designs.

Adapt-a-Signs

A cost effective sign solution, allowing you to adapt the sign to efficiently manage any changes in personnel or company details. Helps ensure your signs remain up to date at all times. Developed to hold a standard A4 sheet of paper, which you can simply print off with your relevant contact details and insert into the sign frame. Manufactured from a 3mm PVC, with a hard wearing clear PVC cover. Size: 215 x 310mm.

How they work

There's no need to buy a new sign each time personnel changes - just print off a new list and insert into the relevant Adapt-a-Sign.

1. Type up personnel details

2. Print out on A4 page

3. Insert printout into Adapt-a-Sign

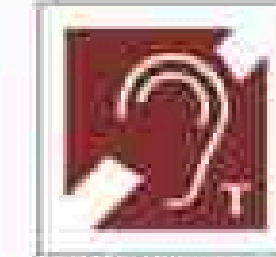

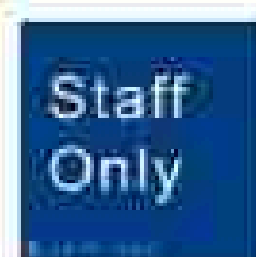

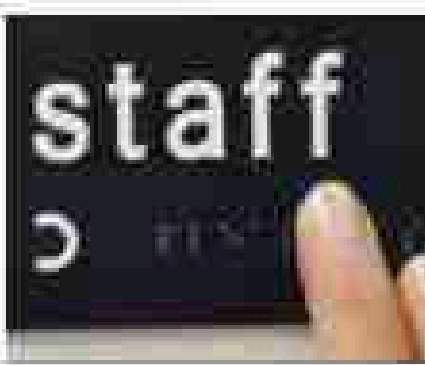

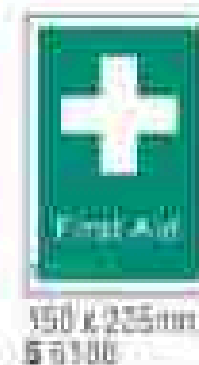

4. Replace when details change

Braille Signs

Designed to help you meet your obligations under the DDA and Equality Act 2010. A 2-ply PVC material with a self adhesive back offers a durable, easy to install, scratch resistant braille sign for internal use. Available in various colours and surface finishes. Laser and routing capabilities offer a high quality finish. Raised letters, symbols and braille help ensure people with visual impairment can read important messages. No need for additional signs as our braille / tactile range can be read by everyone.

Our braille signs are manufactured to conform with the DDA Act 1995 and the Equality Act 2010. This legislation means that companies must provide all people equal access to public buildings, as well as to anyone providing a service to the public. Organisations must make "reasonable adjustments", one of which is providing large, well defined braille signs for visually impaired people. If you can't find the message you require we will be happy to provide a quote for any custom design that you require.				 150 x 225mm £ 6178	 150 x 225mm £ 6179	 150 x 225mm £ 6180	 150 x 225mm £ 6188

Custom Engraved Signs

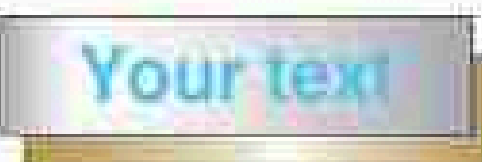

Engraved signs can be supplied in a wide range of materials and sizes and used to provide a professional and attractive look throughout a facility to help staff and visitors find their way around. The 2-ply material means that the top layer is removed during the engraving process to reveal the sub-layer that contrasts with the surface colour. These signs include a self-adhesive backing for ease of installation.

Deluxe Door Discs 76mm Diameter - Pre-drilled - Fixings Included

A range of stylish door signs that are ideal for prestigious environments where a high quality finish is essential. Supplied pre-drilled and with screw fixings.

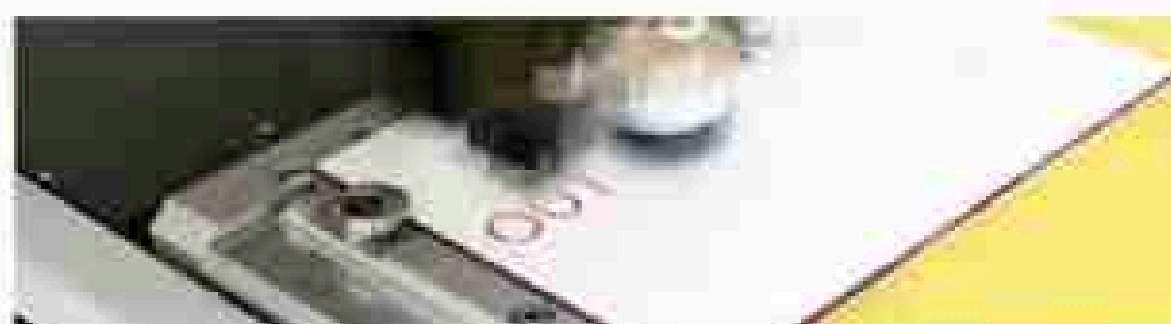

Aluminium and Brass Safety Signs

Manufactured from anodised aluminium or brass with printed detail. Ideal for prestigious environments. These signs are supplied with a self adhesive backing for easy installation.

Engraved

Our range of engraved products are supplied on a 2-ply 1.5mm rigid PVC laminate. This material is heat-resistant and robust to withstand the toughest of environments, making them a cost effective and practical solution for many industrial applications. Engraved signs and tags provide a permanent and effective message, removing the risk of print being scratched away or damaged during general cleaning and maintenance. If you can't find the sign or shape that you require please contact us for a quote.

Engraved Valve Tags

Pack of 50 - 1.5mm 2 Ply PVC Engraved Valve Tags

Our valve tags are engraved to give better quality than printed, stamped or punched versions. The tags are drilled at the top centre allowing you to fit to a ball chain or split ring.

Numbered Only

Each pack contains fifty sequential numbers. Please specify the number range required (eg. 1-50)

Numbered with Prefix

Each pack contains fifty sequential numbers with prefix lettering. Please specify the number range and prefix you require (eg. GAS 1-50, T51-100)

Engraved Signs

1.5mm 2 Ply PVC Engraved Adhesive Backed Signs

In addition to our standard range of engraved signs on page 55 you are also able to create your own message on a range of sizes and colourways. Ideal for creating door signs, table numbers or industrial tags, the permanently engraved surface has the advantage of being tamper proof, and is less easily damaged by general cleaning and maintenance. This range of signs are supplied with a strong self-adhesive backing for ease of installation. Please specify your text of choice when ordering.

Deluxe Signs

Sometimes a standard sign is not enough and the location requires something a little more elegant. Our acrylic stand-off range help your signs stand out from the crowd. See page 83 for more information.

Lock Out Tag Out

The term lock out tag out (LOTO) refers to a safety procedure that ensures that machinery and energy sources are properly shut off and not unexpectedly / accidentally started up before the completion of maintenance or servicing work. These energy sources could include electrical, mechanical, hydraulic, pneumatic, chemical, radiation and thermal hazards. The point of a LOTO procedure is to identify and isolate a hazard that may cause injury if it were to start up or release stored energy during the maintenance process.

Hasps

For use by multiple workers who wish to isolate the same equipment with their own personal padlock.

The hasp has six padlock holes on the handle, 6mm shackle diameter.

25mm Clearance: **£ 3313**
38mm Clearance: **£ 3314**

Padlocks

Thermoplastic padlocks with a steel shackle (6.3mm dia, 38mm vertical clearance). Temperature and chemical resistant, UV stable and corrosion resistant.

Every padlock supplied with unique key for maximum security.

For keyed alike versions please call for a quote.

Green **£ 3318** Purple **£ 3320** Red **£ 3316** Teal **£ 3321** Yellow **£ 3317** Orange **£ 3316** Blue **£ 3319** Black **£ 3322**

Rotating Gate Valve Cover

This rotating valve cover surrounds the valve operating handle to protect against accidental operation. Manufactured from tough, lightweight, dielectric thermoplastic bodies ensure it can withstand chemicals and perform effectively in temperatures of -47°C to 177°C. The design allows for easier installation in confined space applications. The centre knockout can be removed for rising stem gate valves. Each rotates into itself and nests within the next larger size to save space in storage. Multiple workers can apply their own padlocks. Supplied with "Do Not Operate" warning label.

Fits Valve Diameter	Number of Padlock Holes	External Diameter	Code
25 - 76mm	1	100mm	£ 3336
50 - 127mm	3	155mm	£ 3337
101 - 155mm	4	200mm	£ 3338
152 - 254mm	4	295mm	£ 3339
263 - 330mm	4	385mm	£ 3340

Breaker Lockout

This miniature circuit breaker (MCB) lockout device is universal for many makes and models. It requires no tools to fit it on to the MCB and locks out virtually all ISO / DIN circuit breakers throughout the world.

Dimensions: 52.65 x 17.70 x 29.89mm
Body: PBT with brass thread insert
Cover: PBT and Thermoplastic
Screw: Stainless Steel
Operating Temperature: -40°C to 70°C
Corrosion Resistance: ASTM F883 Grade G

£ 3312

Electrical Plug Lock Out

Simple and effective Plug Lockout device to make safe trailing leads from Portable Equipment, especially developed to secure all types of plugs. Completely encloses electrical plugs to prevent accidental reconnection. When closed the access hole will accept a cable up to a diameter of 25mm.

Small 90 x 50 x 50mm **£ 3304**
Large 180 x 80 x 80mm **£ 3305**

Lock Out Tag Out Kit

This Lock Out Kit includes devices for locking off valves and electrical isolators.

- 6 x Red Padlocks (Keyed Alike)
- 2 x Lockout Hasps
- 3 x Adjustable Cable Lockout
- 1 x 25-76mm Gate Valve Lockout
- 1 x 50-127mm Gate Valve Lockout
- 1 x 101-165mm Gate Valve Lockout

Material Information

Quoting on your sign message is only the first step. When ordering a sign, thought should also be given to where that sign is going to be displayed. For more information on our most popular materials and the locations they are most suitable for, see page 3.

External Speed Restriction Stickers

A range of speed restriction / speed limit stickers to apply to a van, lorry or coach when they have a speed limiter fitted. Self-adhesive vinyl is easily applied to clean, dry surfaces.

External Vehicle Stickers

These stickers should be applied to the outside of a van, lorry or coach to highlight safety warnings. Self-adhesive vinyl is easily applied to clean, dry surfaces.

Internal Vehicle Stickers

Remind drivers of their legal duties and responsibilities with this range of dashboard stickers.

Speed Restriction Signs

Car parks on private land are managed using the laws of contract or trespass, whilst car parks operated by local councils are generally regulated by law. Typically, a principle sign will be displayed near the entrance to the car park describing who the car park is for, and if there are time or speed limits and details of any charges or free periods that may apply. Additional signage in and around the car park may provide more information relating to freight restrictions, traffic flow and any designated parking bays.

Verge Signs 450 x 150mm - 2mm Aluminium sign supplied on a 800mm pole

A quick and easy solution for parking and information signage. Can be simply sunk into the grass verge using the pole spike for temporary use or can be set into concrete for extra stability and permanent fixtures. When ordering customised verge signs please state the message, logo or number you wish to display.

Custom Verge Signs
We can provide verge signs at any size, with any message or image.
Call us now for more details and depending on the quantity we'll be able to provide you with next day delivery!

Pavement Sign

Recycled PVC Base and Aluminium - 465 x 867 x 54mm (W x D x H) - Weight: 3.5kg

This eco-friendly, portable, high performance sign is ideal for pavement and forecourt messages and promotions. Manufactured from durable aluminium and recycled PVC it gives off a perfect display in all types of weather.

It has a large display area of 465 x 823mm on aluminium which is securely locked into the base with a blue wedge. The recycled PVC base provides an excellent ballast and has been tested in winds over 70mph.

*Single sided display. Please contact us for a quote if you require a double sided display.

Bird Deterrent Spikes

Birds often find refuge in parking lots/structures and perching overhead on street lights, creating a mess on the cars and surrounding area. Bird deterrent spikes are a simple but effective solution to prevent birds from perching and nesting. Manufactured from transparent UV stabilised polycarbonate to blend into the background. Spikes are rounded so not to harm birds or maintenance personnel. Spikes can be fitted by the use of screws or with double sided weather resistant tape.

Pack of 3 Polycarbonate Spikes
333 x 90mm
\$ 0107

Speed Bumps

Our range of speed bumps are particularly popular on private roads and car parks to ensure that traffic travels at a sensible and orderly speed. When used in conjunction with speed reduction signs companies have noted calmer traffic effect and a reduced speed of 10mph.

Manufactured from heavy duty recyclable PVC segments, supplied with built in white cutt eyes and a chequered surface pattern for additional grip. Use these segments to build a speed bump to your required length and secure to the surface using M10 bolts (not supplied) through the fixing holes.

Inner Segment: 75 x 500 x 405mm (H x W x D) Weight: 10.5kg
End Cap Segment: 75 x 235 x 465mm (H x W x D) Weight: 3.5kg

Drop Down Parking Post

Collapsible yellow and black post is ideal for reserving parking bays and restricting access to private driveways or car parks. Internal pin mechanism allows the post to be locked in the upright position using a padlock (supplied) or tied flat.

- Powder coated steel construction is tough and weatherproof
- Combined lock housing and lift handle
- 750mm high x 80mm diameter post
- 800mm overall height and just 100mm high when folded flat
- Supplied with 4 x M12 surface mounting bolts and a quality padlock
- Not to be used with cars with lower clearance than 140mm
- Must only be used on a flat surface

Ice Detector Signs

Reduce the risk involved with costly slip and fall accidents on your property by installing our Ice Detector Signs.

The Ice Detector sign is an early warning system that can be used in any outdoor area, including car parks, railway stations, depots, roads, hospitals, retail locations, airports, walkways and outdoor workplaces. These signs incorporate a temperature sensitive blue reflector, which gradually revolves into sight when the temperature reaches 2°C and by -1°C is in full view. It requires no power and is virtually maintenance free.

The signage system will lower the personal injury financial risk involved with costly accidents and helps make up part of the employers' Duty of Care" charter to their employees. A simple visual indicator of imminent freezing conditions. The Ice Detector Sign has a three stage indication process utilising a temperature sensitive blue reflector, which revolves into place when temperatures start to move below 2°C.

Illustrated in this simple illustration, when the temperature is above 2°C, the grey indicator will show that conditions are normal. As the temperature drops, the reflector will transition to show that conditions are becoming colder and the threat of potential freezing conditions are therefore a possibility. When the temperature drops below -1°C then the reflector display will be fully blue.

Our signs are manufactured from 3mm thick aluminium composite, making them lightweight and durable. Each sign is equipped with channelling on the rear for post mounting. They should be positioned in a way to ensure they are clearly seen at eye level, to provide the quickest indication of the temperature outside of any building or car parking facility when entering or exiting the building.

RA1 & R2 Traffic Signs

From 1st July 2013, any **permanent** sign directing traffic as listed in the TSRGD Traffic handbook must be CE Marked. This means that any road traffic sign erected on a public highway will need to be manufactured in accordance with the CE Marking Standard. All of our R2 reflective signs are supplied complete with CE marking. If you cannot see the size or design that you need please call us for a competitive quotation.

Permanent road signs must be **CE** marked

All signs are manufactured from 3mm traffic grade Aluminium Composite, a lightweight and weather resistant material ideal for external use. Aluminium Composite has no scrap value and therefore the risk of theft is reduced. Our road traffic signs are manufactured in accordance with Chapter 8 of TSRGD guidelines. Our reflective material meets the specification of classes RA1 (for temporary use) and R2 (for permanent signing) under BS EN 12899. All signs on this page are supplied complete with channeling for post mounting.

Need a different traffic sign or symbol? Contact us and we can provide you with a quote.

RA1 Zintec Traffic Signs

How well signs are seen dictates how drivers react. That's why the brightness and clarity of signage is so important. Manufactured using engineering grade (Class RA1) reflective sheeting applied on to 20/22 gauge Zintec plate. These traffic management signs are designed for use with road sign frames as shown on page 105.

RA1 Zintec Supplementary Plates

					What is Zintec? Zintec is a durable, rust resistant steel sheet that is covered in a thin layer of zinc using an electromagnetic process, making it extra strong and providing a smooth finish. As a result Zintec proves a great option for temporary traffic signs when you know they will spend time being stored or transported between use.

Reflective Signs

Available on various materials (aluminium, zintec & aluminium composite) with a choice of reflective finish. RA1 reflective (engineering grade) for temporary traffic signs.

The Re-Flex System

A temporary plastic road sign system that removes the need for stocking multiple frame shapes and sizes. The Reflex System is easy and safe to handle due to no sharp edges. Due to it being an all-plastic design it will not conduct electricity, corrode over time and removes the risk of theft for scrap metal.

Reflex Frame

The frame is strong and robust, giving durability and long life. The frame has a simple folding system for compact storage and can be completely recycled at the end of its life.

- Folding frame for simple deployment and stacking
- Design is of HDPE and no metal components
- Strong and Robust whilst being lightweight
- Allows any Reflex Sign to be applied
- Non-conductive

Reflective Cone Signs

Lightweight Reflective Polypropylene cone sign for use on a 750mm / 1000mm traffic cone (not included). The fixing loops on the rear of the sign allow quick and easy attachment to cones. A perfect solution for providing temporary messages on site.

600 x 450mm Rectangular Cone Signs

Custom Cone Signs

Customise these signs by quoting the relevant code and supplying the required message / image.

750 x 750mm Square Cone Signs

750 x 850mm Triangular Cone Signs

Vehicle Warning Triangle

EC approved reflective warning triangle to advise road users of a breakdown or hazard ahead. Supplied in a handy plastic storage case for ease of storage.

Dimensions: 440x330x100mm

£ 7799

Traffic Cones

Available in a choice of 3 sizes, can be stacked to save space.

Manufactured from recycled materials. Supplied complete with a reflective sleeve. These cones conform to BS EN 13422:2004.

Height	Code

750mm	£ 7654
1000mm	£ 7655

Chapter 8 Roll-up Sign Kit

A compact, lightweight pack of eight reflective roll-up signs, as required for road works under Chapter 8 of The Traffic Signs Manual. This kit saves space and weight compared to rigid signs and frames. Supplied in two storage bags for easy transportation. The kit also includes site layout guidance from the "Safety at Street Works" Red Book.

Kit includes tripods and the following 750mm signs:

- 2 x Man at Work
- 2 x Man at Work - End
- 2 x Keep Right
- 1 x Road Narrow - Offside
- 1 x Road Narrow - Nearside

- Wind Tunnel tested to 60mph
- Weight: 10kg (3.7kg per sign)

Storage Dimensions (HxWxD)
500 x 1600 x 300mm
£ 7609

Fold-up Signs

Fold-up Road Signs

These signs have been designed specifically for short to medium term work-zones, they are compact and easy to store and transport when collapsed. Tripods are manufactured from rust-proof aluminium and all metalwork has bright zinc plating to prevent corrosion. The sign faces are constructed from reinforced grey PVC with a reflective material protected by a clear PVC top layer for additional durability. These signs have a ground clearance of 300mm (as specified by UK Road Sign Legislation).

Triangular Set Up

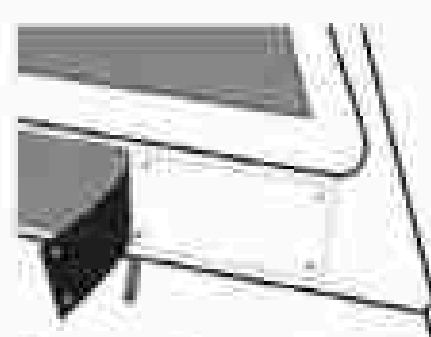

Lightweight and easy to erect. These signs fold up for compact storage and transportation purposes.

The shackle at the top of the tripod locks from legs open and keeps the sign face taut.

The press stud strap holds the sign face neatly when rolled up for easy transportation and storage.

See rustproof press-studs enable easy fixing of interchangeable supplementary text or variants.

Circular with Reversible Arrow

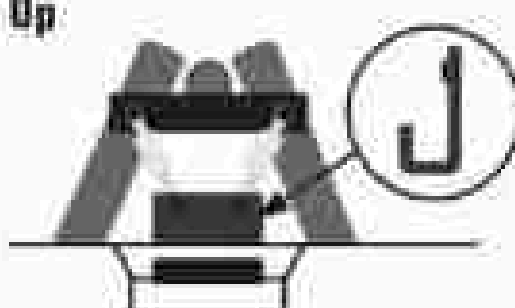

The reversible option on this fold up sign allows the arrow position to be changed and allows one sign to be used for either a keep left or keep right message. The arrow can be removed and attached using the rust free press studs to ensure the correct direction is shown. An economical and flexible solution to traffic management.

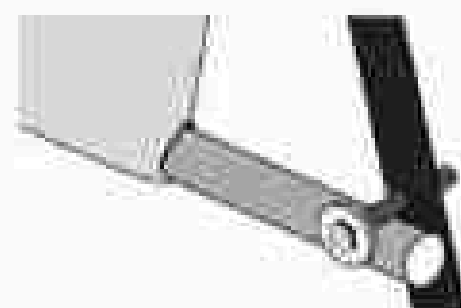

750 x 750mm
£ 7691

Rectangular / Circular Set Up

Lightweight and easy to erect. These signs fold up for compact storage and transportation purposes.

At the top of the sign panel there is a coiled hook on springs that provides tension to keep the sign taut.

The bar at the bottom of the sign panel extends to hook under the special bolts on the front legs of the tripod.

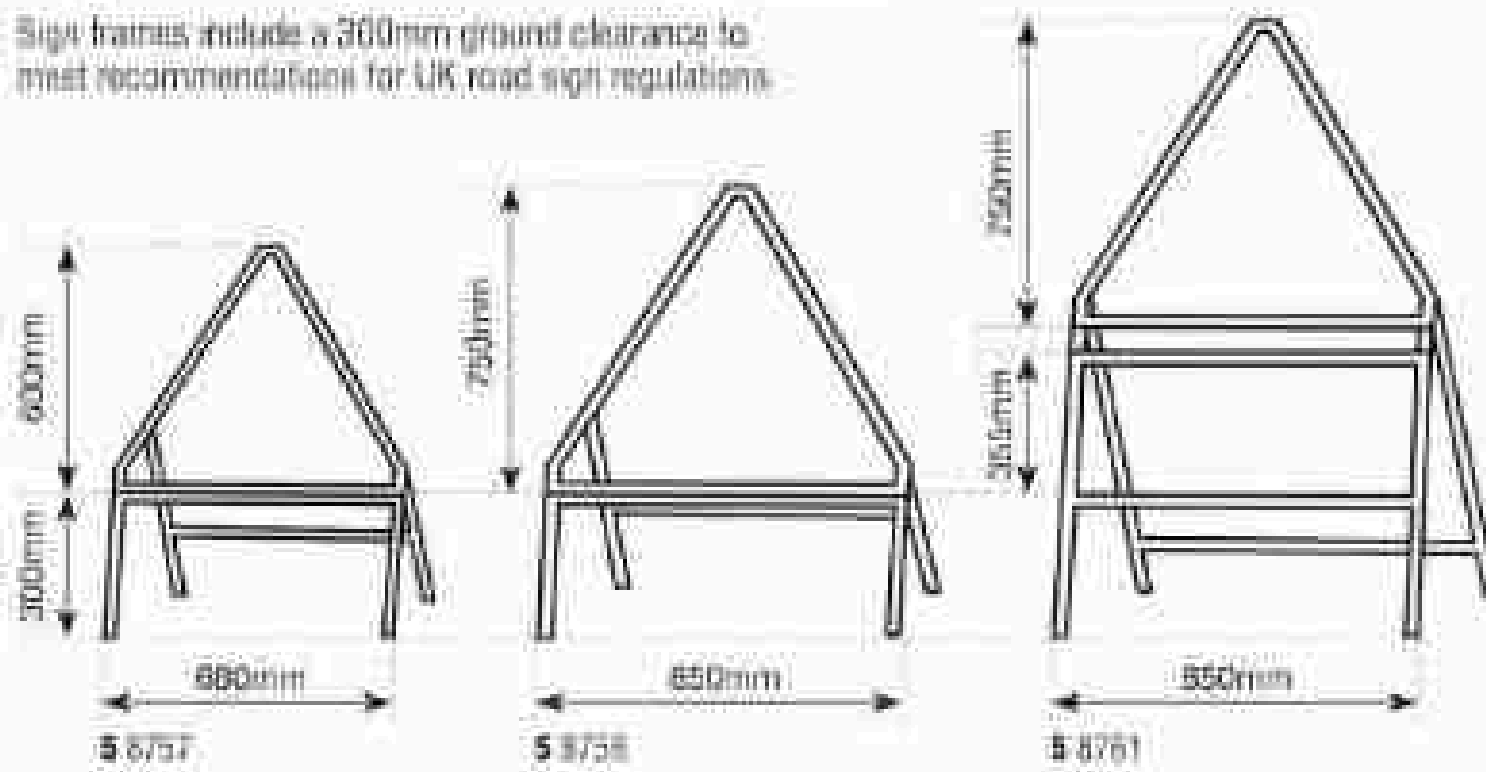

A hook on the back leg of the tripod enables a ballast to be used in volatile conditions.

Single Sided Sign Frames

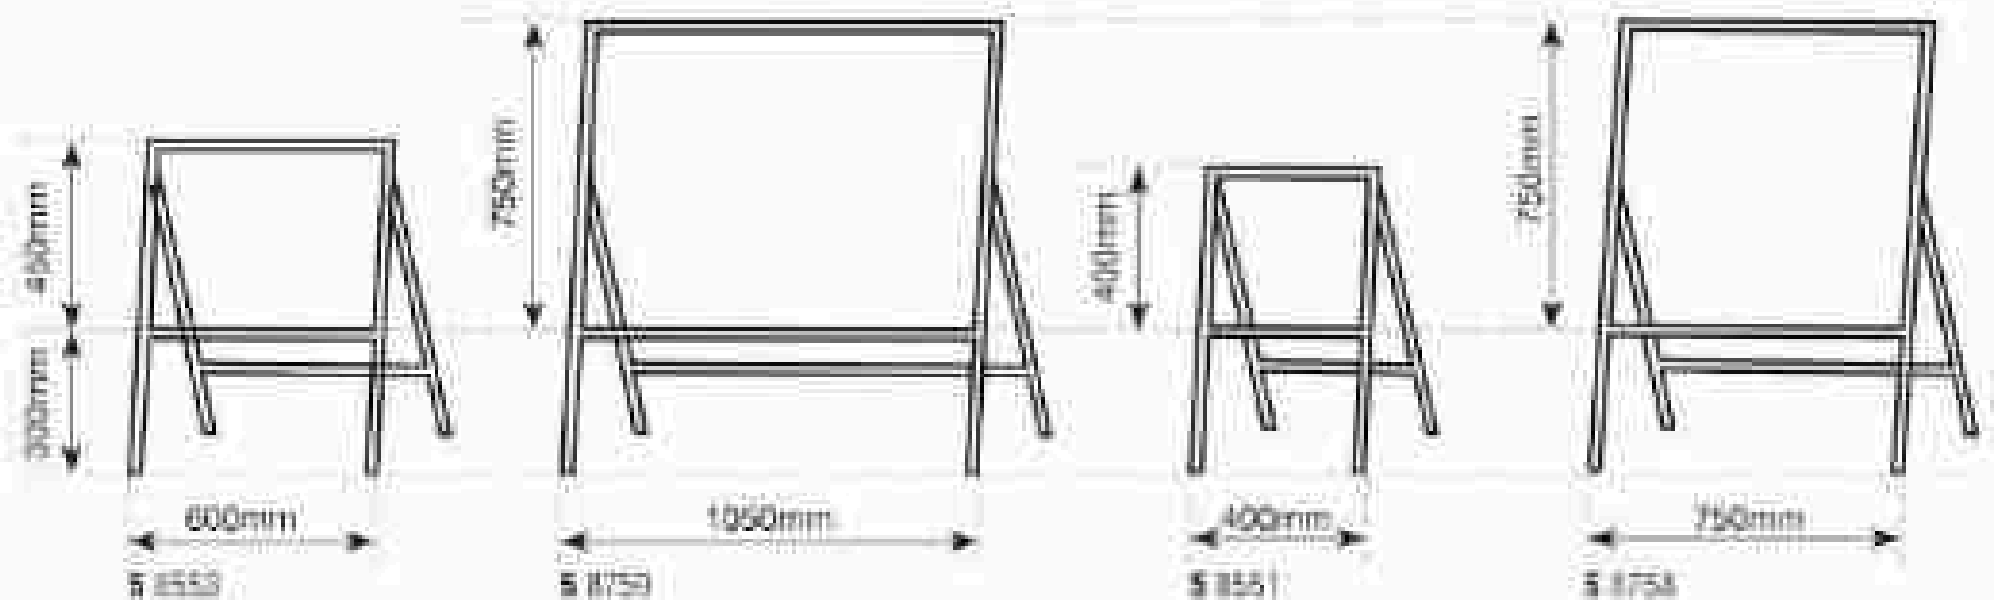

Grey Zinc Painted Iron

Sign frames include a 300mm ground clearance to meet recommendations for UK road sign regulations.

Sign Fixings

For more sign fixing options and accessories see pages 126-129.

Road Frame Clip

Keep your signs securely inside the frame with our Road Frame Clips.

Zinc plated steel for protection against corrosion. The minimum recommended number of clips per frame is four.

S 8755

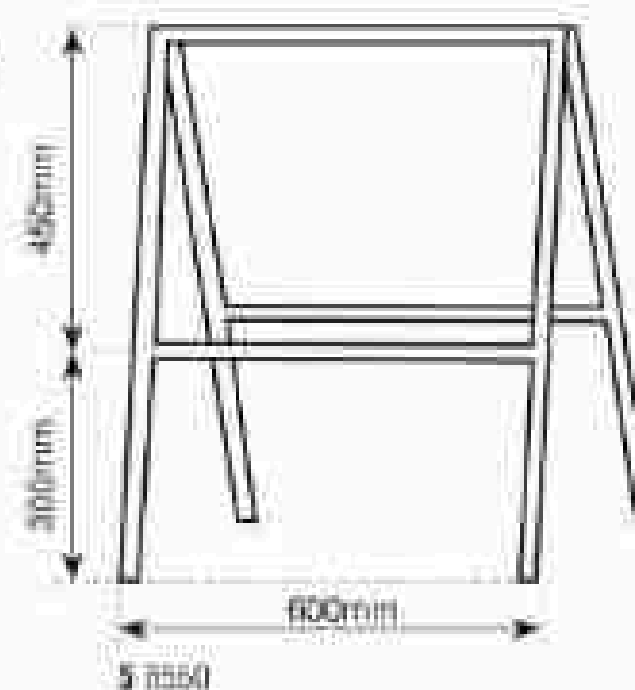

Double Sided Sign Frame

This robust double-sided frame is an ideal solution for temporary outdoor signs in car parks, construction sites, event sites and workplaces.

Manufactured from angle iron mild steel with grey zinc coating to protect from corrosion.

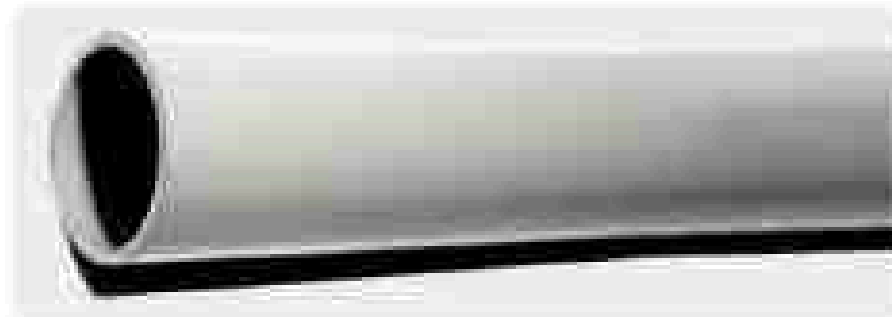

Designed for holding two 600 x 450mm signs (one either side) for maximum awareness.

We recommend the use of 4 clips per sign (sold separately).

Sign Posts and Accessories

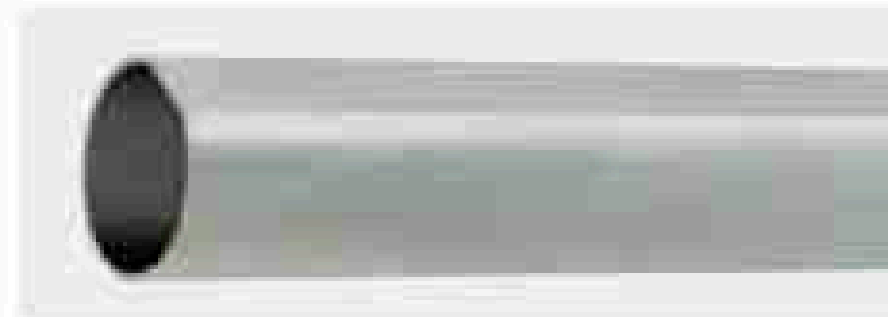

Grey Steel Posts

Grey painted steel pole for sign attachment available in a range of different lengths and diameters.

Tantorque Clamps & Driver

Tantorque clamps have been designed for clamping signs to all types of posts. They give a quick and reliable fix to round, square or hexagonal posts every time. Unlike other banding systems, this clamp can be easily reused or readjusted.

It removes the need to cut the band to size and therefore has no sharp edges that could snag or cut. Tantorque clamps are manufactured from high strength stainless steel and have a hardened tamper resistant screw with a unique recessed seven sided socket. This means that they can only be tightened or released with a special Tantorque driver.

70-100mm Dia	100-130mm Dia	130-190mm Dia	190-250mm Dia	Tantorque Driver
S 8772	S 8774	S 8776	S 8780	S 8770

Base Plate

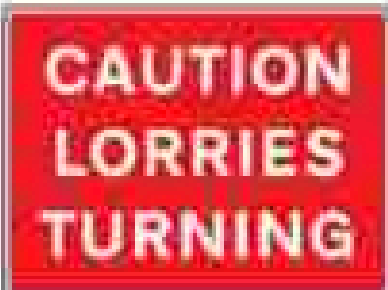

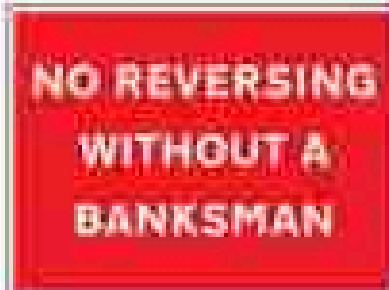

Recommended for secure and level anchoring of sign posts. Install this base plate approximately 600mm below the surface and tighten post to create a stable post. Zinc coated steel base plate.

Site Safety

It is important to understand the messages on construction site safety signs; they are displayed to deliver a clear health and safety message. Failing to abide by a sign could result in the loss of your job, or even your life. Signs come in many forms, from site hoarding and entrance points, to way guidance and will often consolidate several key safety messages onto one site safety board to avoid excessive sign clutter. Site signs deliver important information to warn of hazards or requirements that must be followed.

Contractor Pass System

Maintain a register of authorised contractors on site for use in case of emergency or for record tracking/invoice verification. Issue specific and clear ID for the contractor to display whilst on site (badge-wallets sold separately). Ensure that Contractors have given commitment to site induction processes, and rules and regulations whilst on site. Record the authorised Work Location and Type of Work to be undertaken. Prompt for additional Permit to Work for where activity is high hazard or potentially hazardous. Includes notifications of Health and Safety instructions and Fee Register, whilst a data protection sheet keeps visitors' data confidential.

Includes 9 sheets of 12-passes (108 total)

Bespoke Site Safety Board

Creating your own site safety board has never been easier. Follow the three simple steps below and we can create a bespoke board showing your messages of choice with (or without) your company branding to ensure everyone understands your site specific rules and obligations. Manufactured on 5mm foam PVC these large format boards are perfect for positioning at site entrances to reinforce key safety messages and raising brand awareness in the process. If the templates below don't suit your needs then we are happy to quote for alternative sizes and materials.

Step One: Choose your Board

Select the board size needed and whether you require it to include your company logo / branding and contact details.

SITE SAFETY Space for 4 safety messages Choose from the ones below.	SITE SAFETY Space for up to 8 safety messages Choose from the ones below.	All visitors & drivers must report to site office Children must not play on this site Space for 4 safety messages Choose from the ones below.
Without Logo 5mm Foam PVC 600 x 900mm £ 8019	Branded 5mm Foam PVC 600 x 1200mm £ 8030	Without Logo 5mm Foam PVC 1200 x 900mm £ 9046
Branded 5mm Foam PVC 1200 x 1200mm £ 9047	Without Logo 5mm Foam PVC 600 x 1000mm £ 8034	Branded 5mm Foam PVC 600 x 1200mm £ 8019

Step Two: Choose the Messages

Select the messages you wish to display on your board. You can select from the following (our most popular site safety signs) however if you require a different sign you can include alternative sign messages found throughout this catalogue by choosing option P and quoting the appropriate sign code.

A  Hard hat must be worn	B  Protective footwear must be worn	C  High visibility jackets must be worn	D  Ear protectors must be worn
E  Speed and parking restrictions must be observed	F  Warning Construction site Keep out	G  Danger Stop, Look, Listen. Beware of trucks	H  Warning Look out for overhead loads
I  Danger Demolition work in progress	J  No admittance for unauthorised personnel	K  Site safety starts here	L  Construction work in progress People are allowed to work children of the dangers of entering the site
M  Danger of underground services	N  Heavy plant and machinery operates on this site	O  First aid available from site office	P Any message of your choice

Step Three: Supply Logos, Artwork and/or Visuals

If you have selected a branded site safety board, please supply a high resolution copy of your logo, contact details and/or project information. EPS, PDF or AI logo files are ideal however a clear, non-pixelated high resolution jpeg should suffice (around 1500 x 1500 pixels).

Subject: 58047 Construction Site Safety Board

Created: 11.11.18

Good Afternoon, can we please have a personalised 58047 construction site safety board. The eight signs we would like are: P N J L A B D O

Please see attached for our logo. Could you also add this text:
Project: East Town Complex
Project Manager: James Smith

Kind regards

J. Example

This shows an example of the branded board design 58047 and includes a choice of 8 messages.

For our range of standard pre-printed site safety boards see pages 111 - 119

Site Safety Boards

Choose from our standard range of site safety boards. You can add company logo, project and contact details using the "Branded" codes.

Material Information

Foam PVC is a lightweight, rigid and durable material, easily drilled or screwed through, perfect for both indoor and outdoor use making it ideal for site boards. Has the added benefit of being difficult to ignite and is self-extinguishing.

4mm fluted twin wall polypropylene sheets offer a budget option for short term site boards, 100% recyclable, lightweight and waterproof, easily drilled for fixing to fencing and hoardings.

SITE SAFETY RULES

Follow the four c's of site safety!

- competence**
Ensure you are fully qualified for the work you undertake and follow the relevant site safety procedures. If in doubt, ask your supervisor.
- control**
Take responsibility for the safety of yourself and your colleagues. Taking measures and following the instructions of the site.
- co-operation**
Accept the responsibility and ensure everyone follows the rules. Work together and co-operate to create a safe working environment.
- communication**
Follow the rules and if you have any doubts, ask your supervisor. Challenge your supervisor to do the right thing.

If you have doubts - ask your supervisor!

SITE SAFETY RULES

Whilst on this site I agree that I will:

- do everything I can to ensure my safety
- follow the instructions and warnings
- communicate clearly with those around me
- work safely and in the right way
- control myself so I don't drink or use drugs
- never use alcohol or drugs on the site
- look for hazards and be aware of my work
- think about the safety of my colleagues
- help my colleagues if they need it
- never forget that safety is my priority

Aluminium Roll Top Signs 400 x 600mm

Manufactured from aluminium, durable roll top signs are designed to neatly hook over scaffolding and railings.

Bespoke Roll Top

We can create custom aluminium roll top signs with your message of choice. Please supply artwork or any relevant details when ordering.

600 x 400mm £ 6385
400 x 600mm £ 7127

Hooped Banners 4400mm PVC

Stitched fabric hoops allow the insertion of a scaffold tube to secure the banner. Excellent advertising opportunities for scaffold companies or to portray safety messages.

The perfect option to include company advertising whilst scaffolding is in place. Please supply artwork or any relevant details when ordering.

Scaffolding Inspections

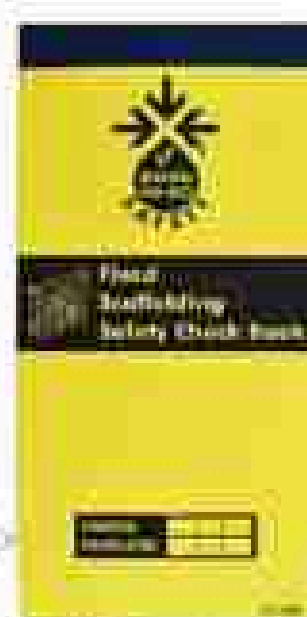

Regular maintenance and scaffold inspections are vital to ensure that equipment remains safe and stable, especially after any adverse weather conditions. Using the Good to Go Safety Scaffold Check Book has never been easier and can reduce the risk of a costly scaffold collapse or accident. Simply attach the tag to the scaffold tube (at the point of entry) to ensure maximum visibility; complete the scaffolding checklist and you're good to go. See pages 123 - 127 for more information.

Scaffolding Tags

These double-sided scaffold tie tags are manufactured from Matt PVC and are 80 x 150mm in size. They're ideal for highlighting important safety information on fixed scaffolding.

Supplied in packs of 10 and come with 150mm cable ties.

Duplicate copies of each completed checklist are retained within the check book, providing invaluable evidence of your Safe Equipment Management System in the event of an accident.

Safety inspections for all types of workplace equipment

Good to Go Safety is a tagging and checklist system designed to improve safety, reduce maintenance costs and comply with legislation by spotting potential faults, before they develop into a more costly or serious defect.

This simple but highly effective Safe Equipment Management System (SEMS) allows pre-use inspections to be completed on workplace equipment and the findings clearly displayed for all to see, removing any doubt as to when the last check was completed.

A perfect addition to any safety or maintenance management programme, in accordance with PUWER (Provision & Use of Work Equipment Regulations), LOLER (Lifting Operations and Lifting Equipment Regulations) and WAHR (Working at Height Regulations). Help ensure workplace equipment is safe with Good to Go Safety.

Be Safe. Be Good.

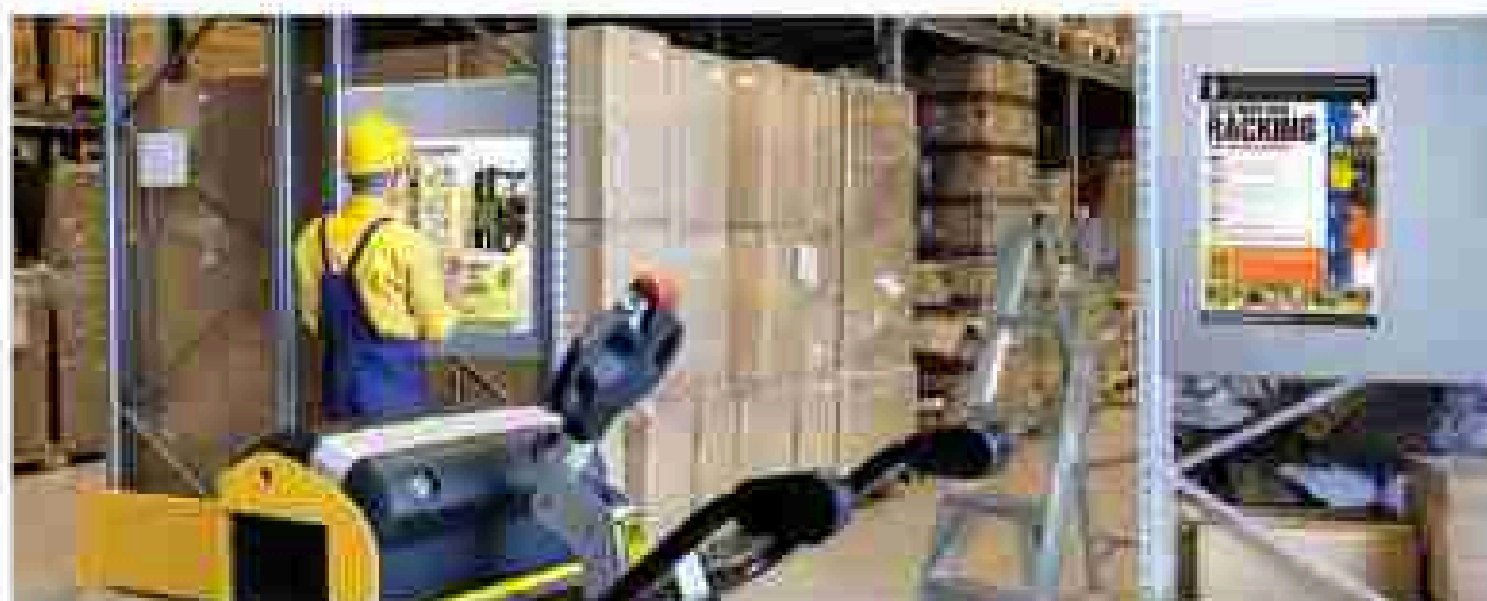

Annual Kits

Regular equipment inspections can help identify potential faults before they develop into costly and dangerous defects.

The frequency of inspections can be defined by a wide range of variants. On occasion, legislation will set out the specific time period that checks must be made or alternatively a risk assessment may define how often an inspection should be carried out (based upon the level of risk and the potential outcome if a fault goes undetected).

Using the Good to Go Safety system will help you improve safety, reduce maintenance costs and enable you to comply with the relevant legislation. Kits are supplied in a reusable box enabling books to be stored / filed securely. Replacement components can be purchased independently as and when required.

Daily Inspection Kit

The daily inspection kit provides you with everything required to carry out 275 inspections (ideal for one year of daily inspections) | *based on a five day working week

Within the kit you will receive:

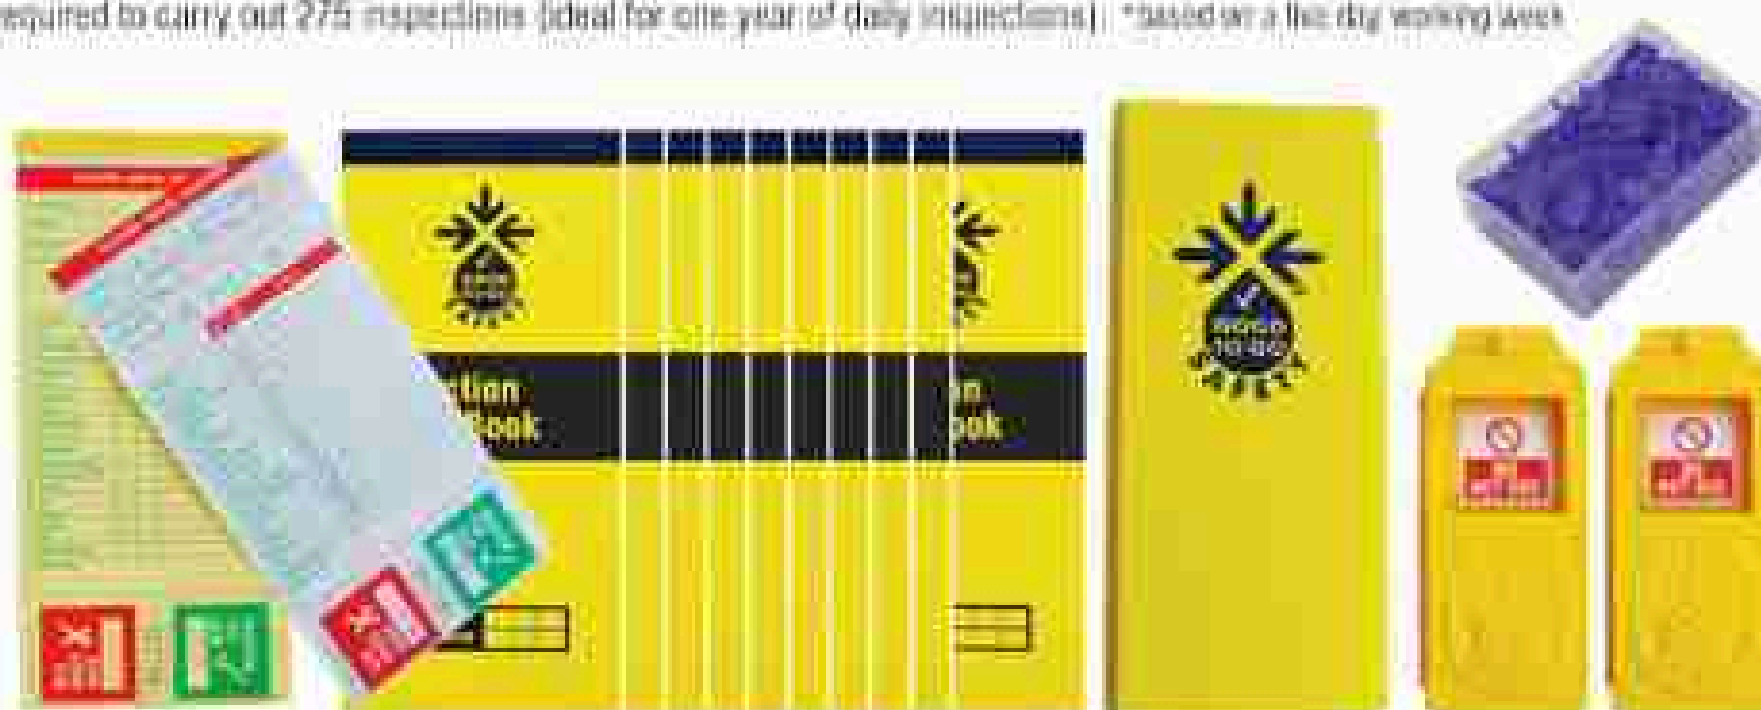

2 x Status Tag - Attach to the equipment and show its status.

11 x Check Books - (275 checklists) allowing one to be completed each week and the findings displayed inside the status tag.

300 x Tamper Evident Seals - Deter and identify unauthorised access to the status tag.

1 x Wallet - Store the current book and provide a suitable writing surface when completing checklists.

1 x Pen - Store inside the wallet to ensure there is always a way to record findings.

Forklift	Ladder	Pallet Truck	Scaffold Tower	Racking	Fixed Scaffold	Harness	MEWP	Excavator	Podium Steps	Tractor	Trailer	Fleet Vehicle	Overhead Crane	Forklift Platform	Loader Crane	Tow Tractor	Telehandler	Gaspoker

Weekly Inspection Kit

The weekly inspection kit provides you with everything you require to carry out fifty inspections (ideal for one year of weekly inspections).

Within the kit you will receive:

1 x Status Tag - Attach to the equipment and show its status.

2 x Check Books - (50 checklists) allowing one to be completed each week and the findings displayed inside the status tag.

100 x Tamper Evident Seals - Deter and identify unauthorised access to the status tag.

1 x Wallet - Store the current book and provide a suitable writing surface when completing checklists.

1 x Pen - Store inside the wallet to ensure there is always a way to record findings.

How it Works

One of the many reasons why people like to use Good to Go Safety is its simplicity and ease to integrate into a company's safety and maintenance programme. Simply attach a tag to the relevant equipment and select the appropriate check book to start carrying out the inspection at a frequency of your choice. Inserting the completed checklist into the tag on the equipment provides a clear visual breakdown of what was checked and when – removing any assumptions or uncertainties. A duplicate copy is retained in the book for management records and providing invaluable evidence in the event of an accident.

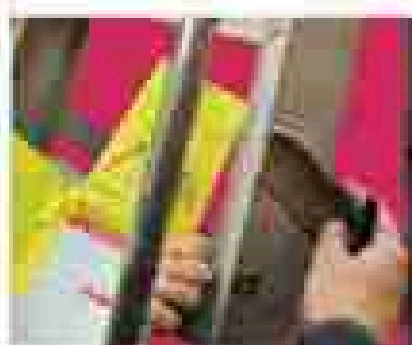

Tag it

Attach a universal status tag to the piece of equipment, ideally at the point of entry.

Check it

Use the appropriate check book to complete a comprehensive inspection.

Record it

Complete the inspection checklist and record all findings. Sign and date.

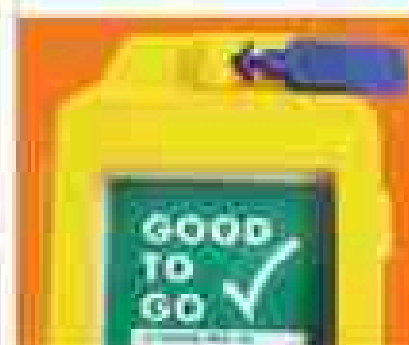

Insert it

Remove the top sheet of the checklist, fold where prompted and insert into the status tag.

Secure it

Fit a tamper evident seal to provide an additional security and ensure findings are legitimate.

Display it

The universal status tag will now display the date and the findings of the inspection.

Components & Accessories

Good to Go Safety has three main components, these components are 1. The Universal Status Tag, 2. Inspection Check Books and 3. Tamper Evident Seals, these components make up our simple and effective preventative maintenance system. Each of the components shown below are fundamental to spotting an equipment fault early, before it deteriorates further. Using the components below can help detect damaged or faulty equipment early and can help to prevent accidents and/or reduce maintenance costs whilst ensuring that legislative requirements are met (PUWER, LOLER, WAHR) and more.

Universal Status Tag

Attach to workplace equipment (usually at the point of entry) and advise employees when the equipment is safe to use or guaranteed following an inspection. Unlike other tagging systems this tag has been designed to attach to all types of equipment. The channelled base allows a flush fitting onto scaffold tubes and the small sleek design ensures that it doesn't interfere with daily equipment use.

Due to being manufactured from tough, durable, UV stable, weather resistant polypropylene it can withstand harsh conditions - whether attached to fixed scaffolding during a thunderstorm or attached to a ladder being tossed around in the back of a van, this status tag can resist it all.

The highly visible yellow design ensures staff are reminded to complete pre-use checks. When the tag is empty the window displays a "Do Not Use" message - this means an inspection has not been completed and the equipment should not be used. Once an inspection has been completed the status tag holds the top sheet of the checklist and the window will display the date and the equipment's status.

The design includes two sleeves to enable cable tie attachment. Four holes for riveting or screwing onto equipment and the design is lightweight enough to ensure that adhesive can be used as a fixing option.

Inspection Check Books

Each of the Good to Go Safety Check Books have been specifically designed to provide comprehensive inspections for workplace equipment in order to help meet the relevant legislation, industry guidelines and best practice.

Each check book includes 25 inspections. Once an inspection has been completed, the top sheet (white) is removed from the book, folded at the prompted line and placed inside the tag to display the current status of the equipment, either "Do Not Use" or "Good to Go". The secondary sheet (yellow) is a carbon copy which should be retained within the book.

Carbon copies can provide invaluable evidence of your Safe Equipment Management System (SEMS) in the event of an accident.

Every check list requires a name, details of the asset in question and to answer a series of questions regarding the asset. Each checklist has a unique sequential number to aid audits and management documentation.

Useful guidance can be found within the inside sleeve of the Check Book to help highlight what inspectors should be looking for during the inspection.

Custom options are available. Please let us know if you have a specific requirement for equipment we don't currently offer.

Forklift	Ladder	Pallet Truck	Scaffold Tower	Racking	Fixed Scaffold	Harness	MEWP	Excavator	Podium Steps	Tractor	Trailer	Fleet Vehicle	Overhead Crane	Forklift Platform	Loader Crane	Tow Tractor	Telehandler	Bespoke
£ 1302	£ 1304	£ 1306	£ 1308	£ 1309	£ 1310	£ 1311	£ 1312	£ 1313	£ 1314	£ 1315	£ 1316	£ 1317	£ 1318	£ 1319	£ 1320	£ 1321	£ 1322	£ 1323

Wallet & Pen

A useful accessory to protect the Good to Go Safety Check Book from general wear and tear whilst in use.

The wallet is PVC coated to help shelter the checklist from contaminants such as water, dust or oil. The wallet also provides inspectors with a solid writing surface whilst they are on the move.

The Check Book (not included) slips into a secure sleeve on one side of the wallet and on the other side there are useful guidance notes regarding the Good to Go Safety system.

The ball point pen is stored inside a tight sleeve within the wallet ensuring it is always available during inspections.

PVC Cover
250 x 235 x 10mm (Flat)
250 x 115 x 8mm (Folded)
£ 1300

Tamper Evident Seals

Provide a visual indicator that an inspection has been completed and verified by a competent inspector. Using the Seals ensures the findings within the Status Tag are not tampered with and the correct status is always shown.

If a Tamper Evident Seal is missing, employees should not use the equipment until the checklist has been confirmed and a new Seal is inserted by a competent inspector.

Manufactured from blue acetal thermoplastic to offer maximum visibility against the yellow status tag.

The design enables the arrow head to fit snug into the status tag and the neck has been hollowed in order to help the seal to snap easier when pulled forward.

A simple solution to provide an additional security measures to equipment safety.

Polypropylene
Supplied in boxes of 100
£ 1307

Dispensers

Setting up a warehouse, factory or site in an efficient and organised manner is beneficial for a number of reasons. Not only does it assist in inventory control and time management, but it also streamlines the entire process of doing inspections, from re-ordering and auditing to selecting and storing.

Information Station

This wall mounted information station provides details of the Good to Go Safety equipment inspection process whilst offering easy access to check books from an organised central location.

Ideal for warehouses, factories or within site offices where equipment inspections can be misplaced or irrevocably damaged.

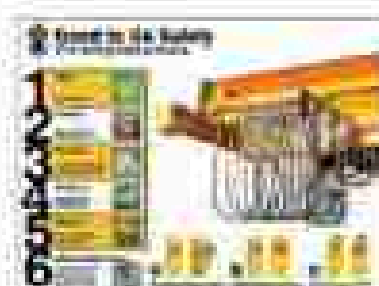

The information station comes with five acrylic check book dispensers. Each dispenser holds up to ten check books (not included) ensuring that even busy warehouses have enough space for fifty check books.

The dispensers not only keep your check books organised, but they also provide visual awareness when replacement books are required to be ordered. Supplied with a high bond adhesive backing for easy application to the board but can also be screwed into place.

The board is manufactured from 10mm Foam PVC which ensures the information station is strong and sturdy whilst also enabling easy drilling for wall mounting.

Adding your company logo is included in the cost of the information station. Remember to supply us with a high resolution file when placing your order.

10mm Foam PVC
700 x 750mm
£ 1305

Bespoke Information Station

If you require to show a different equipment type or wish to have a completely bespoke information station please contact us for a quote.

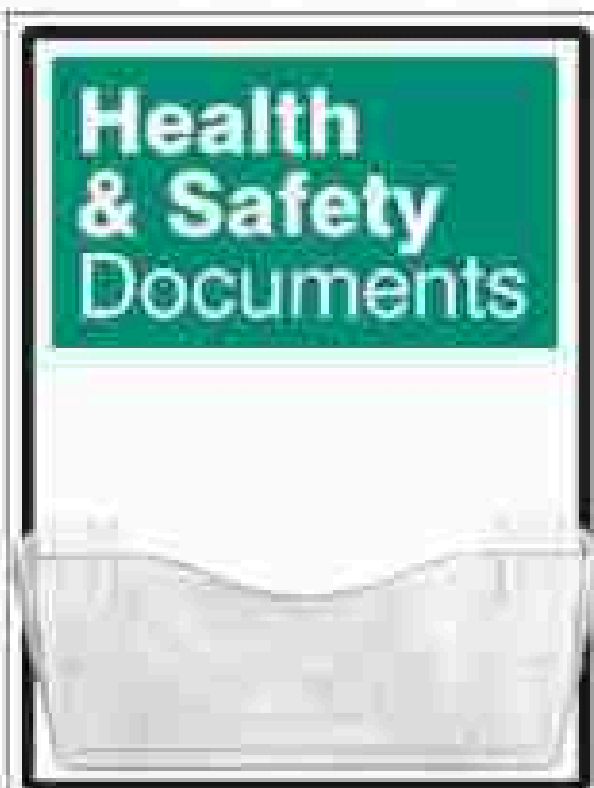

Document Holding Signs 10mm Foam Board - 450 x 500mm

Keep important safety documents clearly displayed and in a readily available place. These displays help companies organise their important documents and help staff remain informed and up to date regarding all workplace information. Signs are supplied with a clear polystyrene document holder.

£ 8217

£ 8218

£ 1365

Document Holder

A durable clear polystyrene document holder which is pre-drilled for easy wall mounting using the supplied fixing kit.

Polystyrene
380 x 180 x 105mm (W x H x D)
£ 8889

Acrylic Dispenser

This acrylic check book dispenser holds up to ten check books (not included) ensuring that equipment inspections are easy accessible from a central location whilst ensuring they are not misplaced or irrevocably damaged.

The dispensers not only keep your check books organised, but they also provide visual awareness when replacement books are required to be ordered.

The acrylic dispenser is self standing but is also pre-drilled for simple wall mounting.

Clear Acrylic
External Dimensions: 165 x 117 x 76mm (H x W x D)
Internal Dimensions: 160 x 109 x 65mm (H x W x D)
£ 8885

Weather Resistant Folder

These industrial strength pockets are perfect for storing check books and manuals on outdoor equipment.

The press seal fastening keeps those important inspection checklists clean and dry and always on location.

The folder comes with a high bond adhesive backing strip for semi permanent fixings to your equipment.

Clear PVC
Holds A4 documents
£ 8100

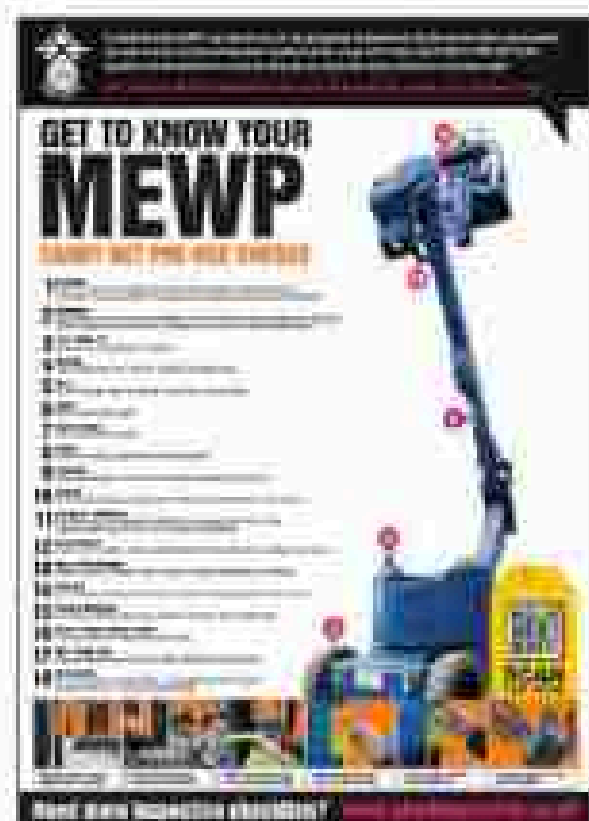

Inspection Posters

439 x 594mm — These posters are printed on an eco-friendly, PVC-free synthetic paper that supplies excellent tear and water resistance properties.

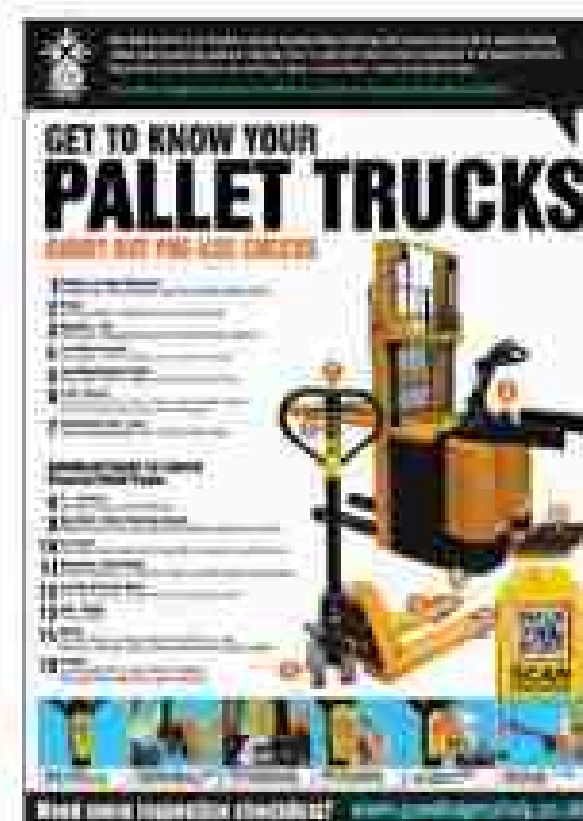

Reinforce the importance of completing pre-use inspections with these workplace safety posters. Use them in order to provide a strong visual reminder to employees and highlight components included in the Good to Go Safety inspection check books. A perfect addition to your safe equipment management systems.

External Sign Fixtures & Fittings

External Fitting

Whatever the sign, we can supply the necessary fixings to ensure it is clearly visible using sign frames, adhesives, posts and clips, screws and cable ties.

Grey Steel Posts

Grey painted steel post for sign attachment available in a range of different lengths and diameters.

Grey Steel		Grey Steel	
25mm x 3.6m	£ 8554	50mm x 3m	£ 8769
25mm x 3m	£ 8578	50mm x 2.5m	£ 8676
25mm x 2.5m	£ 8575	50mm x 1.5m	£ 8800
25mm x 1.75m	£ 8588		

Anti-Rotational Post

This post prevents signs being rotated. No more twisted signs. It accepts standard clips, base plates and caps.

Grey Steel	
3m x 75mm dia (30mm galvanised flat front)	£ 8683

Post Caps

Grey plastic cap, which fits onto the end of a post for a professional looking finish.

Grey Plastic	Grey Plastic
50mm Dia	75mm Dia
£ 8753	£ 8685

Road Frames

Our full range of road frames are on pages 102 - 105.

Anti-Rotational Clip

Simple installations are achieved by inserting the 'foot' into the sign channel, and twisting the clip through 90°. The bolt then secures the other end. Raised lips on the inner help prevent sign rotation.

Stainless Steel	Stainless Steel
50mm Diameter	75mm Diameter
£ 8640	£ 8682

Base Plate

Recommended for secure and level anchoring of sign posts. Install this base plate approximately 600mm below the surface and tighten post to create a stable post. Zinc coated steel base plate.

Steel	Steel
50mm Diameter	75mm Diameter
£ 8599	£ 8685

2 Piece Saddle

Saddle that slides into the sign channel. The saddle accepts all bands up to 19mm (3/4") and as the band tightens the saddle clamps tightly against the channel holding the sign securely in place.

70 x 30 x 30mm
£ 8754

Back-to-Back Clips

Allows 2 signs to be fitted back to back to a steel post. Back to Back clips are fitted with M8 bolts. Two clips are required per channel whether one or two post mounting. Supplied in pairs.

Stainless Steel	Stainless Steel
50mm	75mm
£ 8689	£ 8725

Banding Tool, Buckle and Straps

Has a tensioning capability of 2,400lbs and a built-in cutter for use with banding straps up to 19mm wide. Firstly, push band through buckle teeth towards the operator, ears up. Pass band around object and again through buckle. (For best results repeat this operation to obtain double banding). Anchor end of band by folding back under buckle. Take up slack. Then place band in slots of tool and push nose of tool against the buckle. Grip band with clamping lever and apply tension by turning handle. Maximum pressure is being applied when there is no appreciable movement of band between nose and clamping block. Then you can swing tool over buckle. This movement increases tension of band and, to avoid breakage, handle must be reversed slightly as tool is swung over, whilst maintaining band tension. Cut band with cutter lever and slide tool off in same position (or tension will be lost). Finally, tammer ears down over cut band.

Banding Tool	Banding Strap	Banding Buckle
£ 8751	19mm x 30m	Pack of 10
	£ 8752	£ 8753

Tamtorque Clamp and Driver

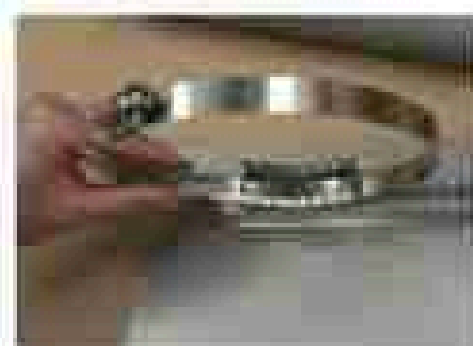

These tamtorque clamps are manufactured from stainless steel and have been designed for clamping signs to all types of posts. They give a quick and reliable fix to round, square or hexagonal posts every time. It removes the need to cut the band to size and therefore have no sharp edges, which can snag or cut. Unlike other banding systems, the tamtorque clamp can be easily reused or readjusted. Tamtorque clamps are manufactured from high strength stainless steel and have a hardened tamper resistant screw with a unique recessed seven-sided socket. This means that they can only be tightened or released with a special Tamtorque driver. An auto locking safety buckle ensures the free end of the band is safely held away.

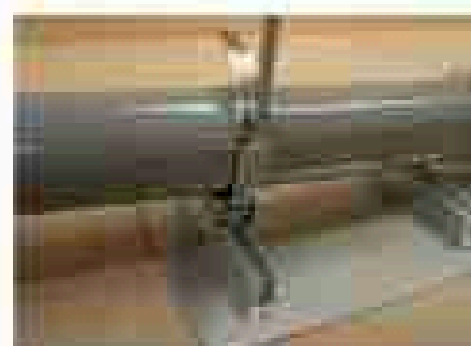

Attach to sign channel with a 2-piece saddle (sold separately)

Tamtorque Driver	Tamtorque Clamps				2 Piece Saddle
£ 8770	70 - 100mm	100 - 130mm	130 - 150mm	150 - 250mm	70 x 30 x 30mm
	£ 8772	£ 8774	£ 8778	£ 8780	£ 8754

Installation Guide

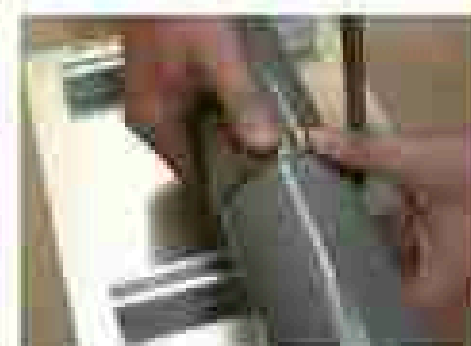

1. Thread the band through the two-piece saddle and around the post.

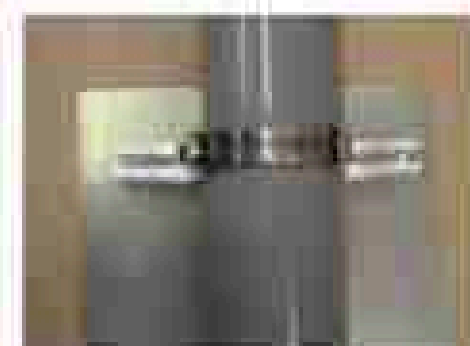

2. Screw the band through the housing using the driver or power tool.

3. Push any remaining band into the buckle for a safe, tidy finish.

4. Hold down any excess band while finally tightening.

5. Tamtorque can be released and re-positioned if required.

Internal Fitting

Whatever the sign, we can supply the necessary fittings to ensure it is clearly visible using sign frames, adhesives, posts and clips, screws and cable ties.

Adapt-a-Sign Frames

Adapt-a-Sign frames enable you to print off your own message and insert inside. A perfect solution for displaying constantly changing information.

Standard Special Safety Signs

Standard Safety Sign Specials

We pride ourselves on having the most comprehensive health and safety sign range on the market, but we do appreciate that every workplace is different and will have different signage needs. With this in mind we offer "Standard Specials". Choose any symbol from our catalogue and by adding your own text we can create a sign that gets your exact message across whilst still complying with all UK safety sign legislation. Your company logo can also be added to make your sign completely personalised (prices on application)

Step 1. Decide on the Sign Style

When creating standard specials, we will use our expertise to include the correct ISO 7010 symbol wherever possible or advise of alternative options if required. If you are unsure what can or can't be included on the sign then please get in touch and we'll be happy to offer help and advice.

Mandatory

Indicate a course of action to be followed or equipment to be used.

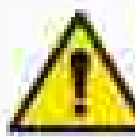

Prohibition

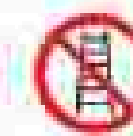

Indicate an action or behaviour that must not be committed.

Warning

Advise of a potential threat or hazard to health within an area.

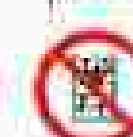

Examples of ISO 7010 Symbols

General Safety boots Hard hats Harness Respirator General No smoking No noxious substances No forklifts No running

Wash your hands Eye protection Ear protection Pedestrian route Hand protection No drinking water Do not sit on scaffold No naked flames Do not use lift during fire Do not use ladder

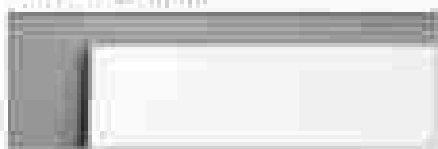

Keep locked Wear mask Sound horn Fibre strand Use handrail No machines No pedestrians No throwing No dogs Do not sit

High vis clothing Refer to manual Wear seat belt Adjustable guard Disconnect both hands Do not reach into machine No food or drink No persons with passengers Do not operate No unauthorised persons

Welding mask Lift jacket Check guard Machine Barrier access No cameras or recording No intoxicated persons No radios or music Do not use water on fire Do not climb on ceiling

Step 2. Choose the Material

When ordering a sign, thought should be given to where your sign is going to be displayed. Consider the environment it will be located within – is it internal or external? Is it for display in a warehouse or a prestige hotel? – This list is not exhaustive so if you can't see the material you require please contact us and we will be happy to quote.

Rigid Plastic

Easily drilled, white, glossy, rigid PVC plastic. Lightweight with high impact strength, suitable for internal and external use.

Self Adhesive Vinyl

High gloss, flexible PVC with self-adhesive backing. Suitable for smooth, dry and clean surfaces. Ideally suited for indoor use.

5mm Foam PVC

Bright white, lightweight and waterproof. Easily drilled for fixing. Ideal for external site safety boards.

Aluminium

0.9mm aluminium with gloss white powder coating. Excellent weathering and UV resistance provides a long-life product.

Aluminium Composite

3mm, white aluminium skin with a polyethylene core. Lightweight and weather resistant. No scrap value reduces risk of theft.

Step 3. Select the Size

Step 4. What do you want your sign to say?

What message/s do you want your sign to say? Your message/s can have up to 25 words. Simply send us the code and supply the text and symbol you require. If you're unsure of the symbol to use simply send us your text and we will then select the appropriate symbol to go with the message and manufacture the sign to your exact specification.

Step 5. Orientation

Advise the required orientation.

Landscape

Portrait

Fast Track Standard Special Order

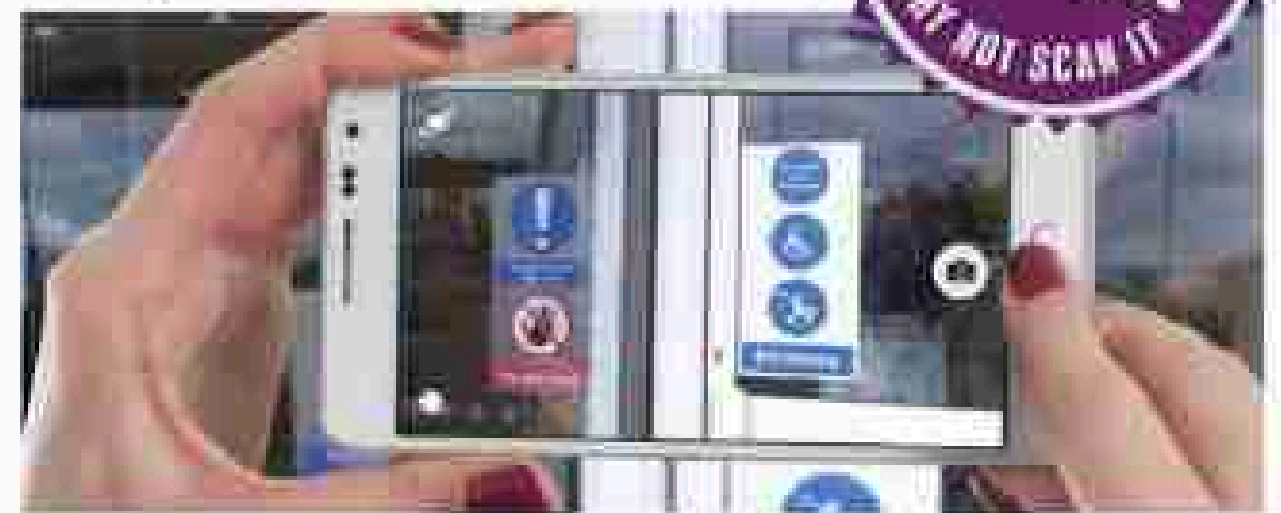

Skip all the steps on the previous page and use one of the following options to Fast Track your Standard Special sign. Did you know that using one of these options reduces administration and production time plus significantly the risk of error.

1. Scan and Email

Mock up your desired sign, scan it and send us the image. Please don't worry if you're not artistically inclined (just remember to include material, colour, text and sizes then we'll turn your sketch into a masterpiece.

2. Snap and Email

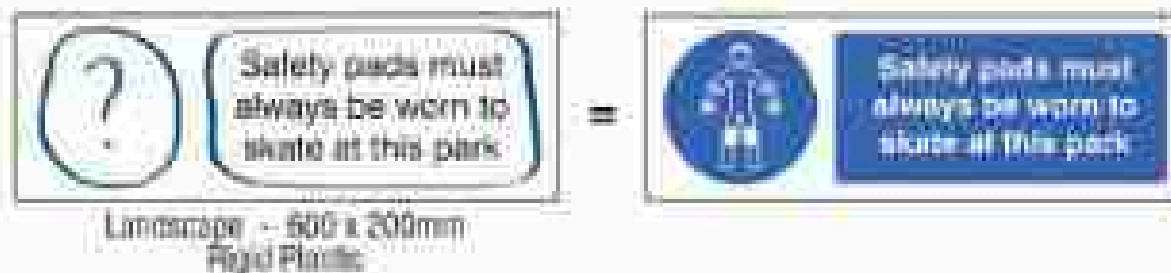

If you've seen the sign you require simply take a photo of it and send us the picture. We'll then mock up the design based on your instructions and send you a proof to approve.

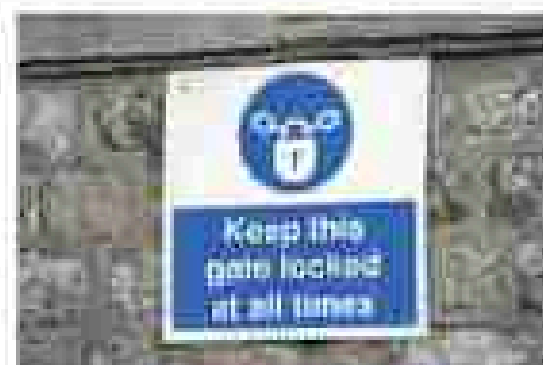

3. Sketch and Email

Sketch it up in paint or any other computer program you have to hand. Remember to include the material, size, text, orientation and symbol you wish to use on the sketch.

If you're unsure of the correct symbol for your standard special just pop on a ? and we'll use our expertise to advise you.

Know exactly what symbol and message you require? Simply let us know and we'll produce to your specifications.

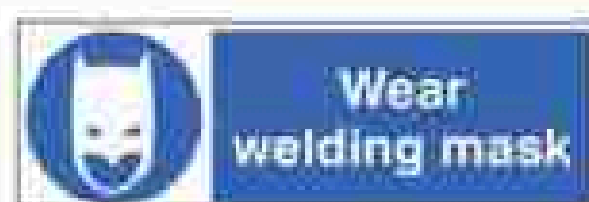

Logos

You can add your company logo onto standard specials at no additional cost. Remember to send us your logo in a high-resolution format when placing your order. *We will not be held accountable for quality if an insufficient logo file has been supplied. *Additional charges may apply if you require us to rework poor quality files.

Creative Standard Specials

Why not get creative with Standard Specials and get your staff talking with some off the cuff or seasonal signs – catching attention with one sign can help to get your other signs noticed and reduce the possibility of 'sign blindness' whereby over time, people see the same sign every day and eventually don't give it the regard or attention it demands.

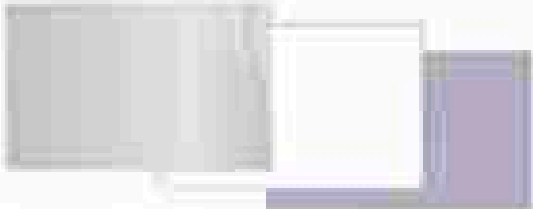

If you need something a little more specific then see our Custom Made Sign options on page 132-133

Custom Special Signs

Custom Made Signs

If you have never ordered a custom sign before, there are a few things to consider. As you get started, take the following into consideration:

Material

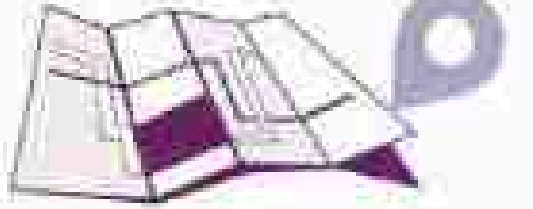

Is your sign for an inside or outside environment? Select the most suitable material for your sign location from the choice below.

Size

Size depends on the viewing distance. Great care should be taken when selecting your size. Additional help can be found on page 2.

Placement

How your sign is mounted will make a difference in what type of finishing it has. If fixing to a post then channelling may be required.

Message

What do you want to say?

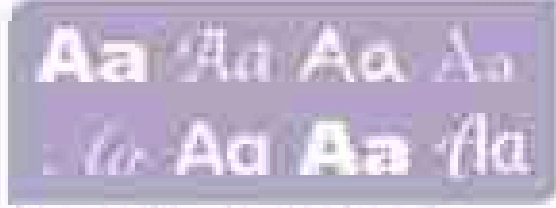

Keep your content short, distinct and specific to maximise the likelihood of it being noticed and read.

Logo

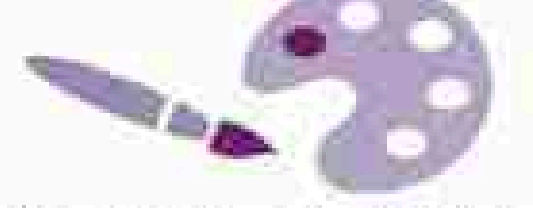

Instil company pride and raise brand awareness by adding your corporate branding to stand out from the crowd.

Font

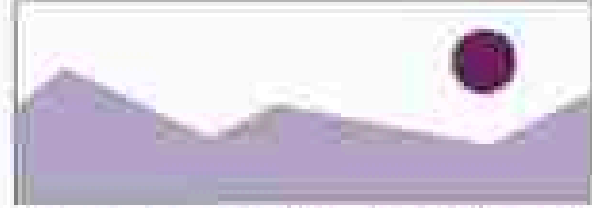

Consider the size and style of your fonts to maximise visibility and comprehension. Try to keep it consistent with your corporate style.

Colour

We advise the use of colours within your companies branding or colours that will compliment branding.

Full Colour Images

Personalise your sign with a photograph of your facility, an employee, or whatever you choose. Ensure your photography is high enough resolution for sign size.

Image & Logos

The images / logos that you send to us must be high-resolution. A high resolution file JPEG, PDF, EPS or Ai file of your company logo is ideal. **Taking a logo from a home page of a website will not do.** Low-resolution images are the main reason for slow production of custom specials. Have your logo ready prior to order to ensure fast production.

If you are finding it difficult to find a high-resolution version of your logo you can sometimes find it via images.google.com simply drag your low-resolution logo file into the search bar and Google will search the internet for images that are similar. If there are any higher resolution logos found on the internet they will load. If all else fails we can reproduce your logo as it prints correctly - additional charges will apply.

Text & Instructions

Supplying our team with clear precise instructions will ensure you receive your sign exactly the way you'd like. When sending these instructions please include the following:

- Code, (Size & Material)
 - Colour Choices
 - Message of Choice
 - Font / Upper or Lower Case
- Fixings / Drill holes etc
 - Image Placement
 - Logo Placement
 - Quantity
- ✳️ S9401 (600 x 200mm Rigid PVC)

Logo at top right side (see attached)

Custom Made Signs

With a team of talented graphic designers and several printing processes (including digital and screen) available, we can provide the ideal solution for any environment. Whether it's a prestigious hotel or an after school club. Our custom made signs allow you to get creative and provide a truly unique signage solution. The starting point is your imagination – once you know how you want your sign to look simply provide us with the relevant artwork or send us an image or sketch of your signage idea and we can deliver in a range of materials and sizes.

We can supply you with a visual of the finished artwork for approval before the sign is manufactured. If you cannot find the size or material that you require then call us and, wherever possible, we will be happy to quote for anything outside of normal range.

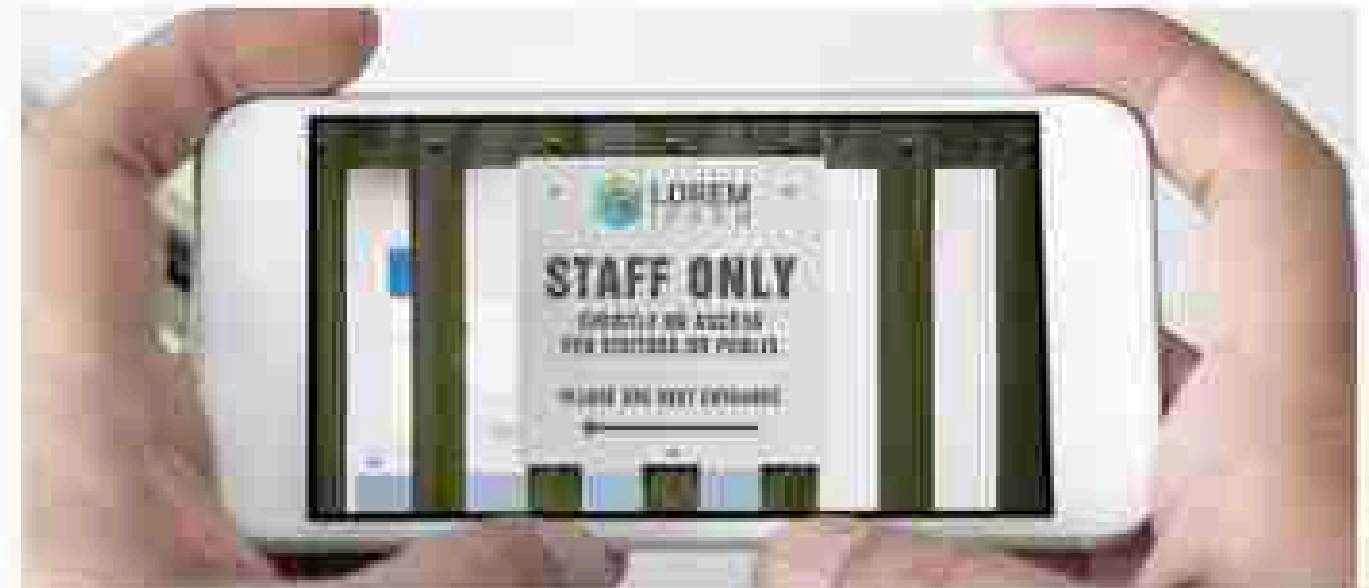

1. Sketch, Scan and Email

Mock up your desired sign, scan it and send us the image. Please don't worry if you're not artistically inclined just remember to include material, colour, text and sizes then we'll turn your sketch into a masterpiece.

2. Snap and Email

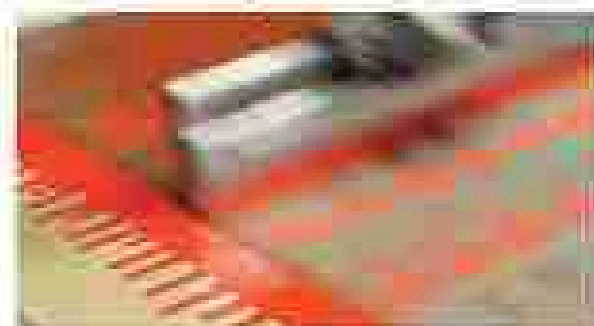

If you've seen the sign you require simply take a photo of it and send us the picture. We'll then mock up the design based on your instructions and send you a proof to approve.

Printing Processes

We have several printing processes, which we use on a regular basis, dependent upon volume, sign environment, graphical content or even just personal taste. Here are some of the more popular options available to you:

Screen Printing

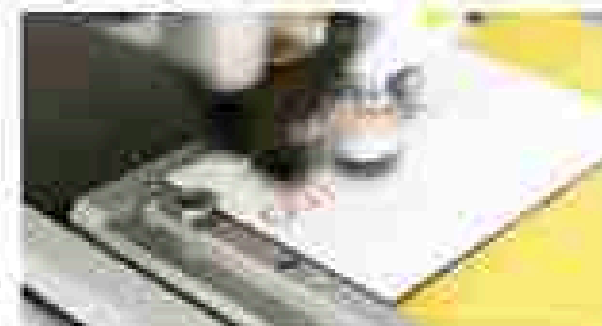

This is the method used for printing the majority of signs within our catalogue. This manual production method ensures high quality of print and consistency of colour combined with a flawless finish.

Digital Print

Ideal for short production runs or signs that require full colour images to be included on the job. We are able to digitally print directly onto a wide range of materials.

Engraving

Precision routing from computer-generated designs provide a tactile, prestige finish to a sign. The use of layered substrate materials allow the top surface to be cut away to uncover the coloured lower layer.

Vinyl Graphics

Computer cut vinyl graphics can be applied to a substrate or used on windows. Pre-cut, ready to apply vinyl lettering or graphics can be applied to almost any flat, dry and clean surface.

Show Case

Index

Welcome to the index. **Bold titles** within this index are category headers, as highlighted on Page 1 (the contents page) of this catalogue.

Safety Signs Checklist

This checklist can be used to help carry out a safety sign survey of your premises. Although not extensive, it has been designed to help highlight any clear gaps in your current set-up and identify the relevant products to help ensure compliance with British and International Standards. **Upon completion of the checklist, if any of your answers are NO then use the page reference to find the relevant signs to install to rectify the issue.**

Outside and at Point of Entry into the Building

Page References

Is the assembly point clearly identified?	Y	N	18
If a visitor leaves through a rear fire exit, can he/she find their way to the assembly point?	Y	N	18
Is the designated smoking area clearly defined?	Y	N	19
Are all parking restrictions clearly identified?	Y	N	22, 78, 79, 95-98
Are any speed restrictions within the grounds clearly marked?	Y	N	95-97, 100, 102, 106
Can the roof be accessed and hold the weight of an average person?	Y	N	27, 41

Entry & Reception

Does the building clearly display at least one updated Health and Safety Law poster?	Y	N	51
Is there a 'No Smoking' sign on display in the building and / or in fleet vehicles?	Y	N	20
Are facilities provided to ensure equality and inclusivity of all staff / visitors?	Y	N	74 - 76, 61
As a visitor, is it clear if you need to sign in?	Y	N	78, 88 - 89
If there is a CCTV system in use, is there at least one sign stating this?	Y	N	88 - 89
Where CCTV is in operation, is it clear who is running the system and how to contact them?	Y	N	88
Does the business have a clear way of informing staff of when a fire drill is due to take place?	Y	N	7

Fire Action, Equipment and Doors

Does every fire alarm call point have a fire action notice above it?	Y	N	10-12
Can all fire alarm call points be seen from a distance?	Y	N	7
Can all fire extinguishers, hose reels or fire call points be seen clearly from a distance?	Y	N	6 - 7
Have staff received instructions of what type of fires the fire extinguishers can / not be used on?	Y	N	5
Are fire doors indicated with a 'Fire door Keep shut' sign?	Y	N	9 - 10
Are all fire doors that open to fresh air clearly marked 'Fire exit Keep clear'?	Y	N	9
Are emergency door push bars or pads clearly signed with the appropriate symbol?	Y	N	14

First Aid

Is the location of the first aid equipment clearly marked?	Y	N	44
Are first aiders known by all staff members?	Y	N	44
Does your company have an accident report book?	Y	N	45

Toilet / Washroom Signs

Are the hot water taps, which could reach a harmful temperature, clearly signed?	Y	N	25
Do 'wash hands' signs currently appear in all washrooms?	Y	N	37
Are policies on energy saving and recycling clearly indicated?	Y	N	72 - 73
Are no smoking signs displayed in toilets / washrooms?	Y	N	20
Can visitors easily locate the toilets / washrooms? Is everyone catered for?	Y	N	74, 81 - 84

Access / Restriction around the Building

Are customers, visitors or new starters aware of areas they are restricted from entering?	Y	N	21
Are all height hazards clearly marked? (e.g. low ceilings, overhangs or areas with low clearance)	Y	N	31
Are unexpected trip hazards or changes in flooring levels marked?	Y	N	33
Do all visible hazards have the correct sign next to them?	Y	N	24 - 33

Factories and Warehouses

Are there any requirements to wear specific PPE? Is this highlighted at all points of entry?	Y	N	34 - 36
Is all dangerous working equipment clearly marked with measures to be aware of?	Y	N	26, 30, 38 - 39
Are all staff / visitors aware that forklifts operate in the area?	Y	N	22, 26, 39 - 40
Are signs in place to warn of potential reversing vehicles?	Y	N	22, 26, 39
Are there appropriate signs next to any 'Hot Works'?	Y	N	42
If any part of the building contains Asbestos, is it properly marked and managed?	Y	N	25, 42
Do all of the triangular warning signs display either 'Danger', 'Warning' or 'Caution'?	Y	N	24 - 33
Are routine equipment inspections carried out in compliance with PUWER?	Y	N	123 - 127

Fire Escape Signage

Do all Exit and Fire Exit signs show an ISO 7010 compliant running man?	Y	N	13 - 16
With the exception of an office with one door out, can fire exit signs be seen from every area?	Y	N	13, 17
Is there a fire exit sign pointing right or left above any door?	Y	N	13 - 16
Would fire exit signs be visible in smoky / dark conditions for sufficient time to exit the building?	Y	N	13 - 16

Notes / Comments

You should also check the condition of existing signs and replace any that are showing excessive wear and tear or fading of graphics, which may make them difficult to read. Look for consistency in design too in terms of graphics and text format to maximise comprehension levels and minimise any risk of uncertainty.

Buckled or Bent Signs

Faded or Sun Damaged Signs

Chipped or Cracked Signs

Old Symbols or Capital Letters

Environmental Information
