Presentation Partners in Housing Addresses Conclusion of Theft Case, Affirms Financial Stability and Continued Commitment to Mission

FARGO, ND — [11/21/2025] — Presentation Partners in Housing (PPiH) is issuing this statement regarding the recently concluded legal case involving a former executive director. With the case now fully resolved, PPiH wishes to reassure the community, partners, and those we serve that our organization remains financially stable and firmly focused on its mission.

Following the discovery of the misuse of organizational funds, PPiH acted immediately, conducting a forensic audit, strengthening internal controls, and maintaining full transparency with funders and stakeholders throughout the process. As part of this response, PPiH submitted a claim through our insurance provider, which **reimbursed the organization 100% for the loss**. As a result, **no programs, services, or participant supports were reduced or impacted**. PPiH has continued operating at full capacity throughout this period.

“Our mission has always been to prevent and end homelessness by meeting people where they are with dignity and compassion,” said Sarah Kennedy, Executive Director. “We remain deeply committed to those experiencing or at risk of homelessness, and we are grateful to the partners and community members who continue to support this critical work.”

PPiH views the conclusion of this case as a turning point, an opportunity to close a challenging chapter and continue moving forward with strengthened systems, renewed focus, and unwavering dedication to serving the region’s most vulnerable neighbors.
