

Southeast Idaho Aphid Monitoring Network

The aphid monitoring report for southeast Idaho Week 37 (2025) is below. This is the final report for the 2025 Southeast Idaho Aphid monitoring network since all monitoring has ceased for the season. Overall, aphid levels remained relatively low in 2025 during the month of June and peaking two weeks earlier than the average. Please visit the interactive **Idaho Pest Monitoring** website at <https://idahopestmonitoring.org/> for more information on this and other monitoring efforts. The current report is also available on the Idaho Crop Improvement Association website, <https://www.idahocrop.com/>.

Financial support for this program is provided by the **University of Idaho, Idaho Potato Commission** and the **USDA-NIFA-CPPM-Extension Implementation Program**, project 2021-70006-35386.

The 2025 SE Idaho Aphid Monitoring team:

University of Idaho Extension Seed Potato Team (based in Idaho Falls):

Dr. Kasia Duellman (Extension Seed Potato Specialist and Plant Pathologist)

Melinda Lent (Research Associate)

Deepti Karki (PhD student)

Alexandra Sims (MS student)

Emily Cook (Summer hourly)

Ann Hunsicker (Summer hourly)

University of Idaho County Extension Educators:

David Callister (Extension Educator, Butte County)

Justin Hatch (Extension Educator, Caribou County)

Consultant:

Dr. Andy Jensen (Independent Aphid Taxonomist)
