

## DESCRIPTION

Celebrate the Neva collection's accolades, including the prestigious German Design Award Special Mention, Design Intelligence Award, and Restaurant & Bar Product Design Award. Launched in 2013 with the Neva bar chair, this collection has consistently ranked among Artisan's best-sellers, evolving each year with the introduction of new products. In 2015, the Neva chair made its debut at IMM Cologne, marking a significant addition to this beloved collection. The Neva bar chair offers unparalleled versatility. Choose between a solid wood seat or the luxurious comfort of upholstery, available in a range of premium leathers or fabrics. The footrest can be customised with a RAL powder-coated finish in black or white, or opt for custom materials of aged brass or inox upon request. Elevate your space with the Neva bar chair, a masterpiece of style and functionality that has garnered recognition and acclaim in the world of design.

## PRODUCTION PROCESS

The bar chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair's final appearance.
