

DESCRIPTION

Introducing the stackable Kinu Chair, a modern addition to Michael Schneider’s collection of innovative designs created for both commercial and residential spaces. The Kinu Chair showcases clean lines and a minimalist aesthetic, reflecting Michael Schneider’s distinctive style. Crafted from premium materials, it boasts a robust frame and a seamlessly smooth seat, ensuring both durability and timeless charm. Versatile by design, this chair seamlessly transitions between various settings, from bustling cafes to contemporary homes. Artisan proudly manufactures the Kinu Chair from exquisite premium wood species.

PRODUCTION PROCESS

The chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair’s final appearance.
