

Ocean Bench

Recycled pharma plastic waste

The Ocean Collection was originally designed in 1955 by some of the 20th century's most renowned designers, Jørgen and Nanna Ditzel.

The Green version is made of recycled pharma plastic waste. The series is characterized by its light structure with repeated slats and metal frames, made and tested for outdoor use. The Ocean Collection is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles.

Green

Designed by
Jørgen and Nanna Ditzel

Item no.
09354 Ocean Bench – Green*

*Variation possible due to
recycled materials

Country of origin
Poland

Materials

Slats made from recycled pharma plastid waste. One bench contains 6.73 kg / 14.84 lbs of waste materials

Steel tube, 20% recycled steel,
Gunmetal finish

Gliders

Hard plastic gliders installed as standard

Test

EN 581-1:2017, EN 581-2:2015/AC:2016
EN ISO 9227:2017

Dimensions

W 157 cm D 58 cm H 81 cm
SH 46 cm ARH 67 cm / W 62" D 22"
H 32" SH 18" ARH 26"

Weight

17 kg / 37.5 lbs

Packaging 1 box / 1 pcs.

Pharma Plastic Waste

Recycled pharma plastic waste, such as discarded insulin pens. Advances in technology now enable the safe decontamination of medical plastics, allowing materials once destined for incineration to be repurposed. The waste material is sourced from Europe.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Steel

Our Steel is made from 20% recycled steel with a gun metal finish. Steel is a strong and light material that can be processed in unlimited ways.

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.
