

Edge Shelf

Coffee shell waste mixed
with post-consumer e-waste

The Edge Shelf designed by Sarahlou is entirely made of our circular waste material Matek®. Innovative technology allows us to recycle fibre-based waste materials with recycled plastic waste in the Matek® material. The Edge Shelf is an interpretation of a shelf in its simplest form, consisting of thin Matek panels that almost float on the wall. The Edge Shelf is equally suited for private and public use. Use it as a solitary shelf or place several shelves alongside or above each other.

Coffee Waste Light

Coffee Waste Dark

Item no.
24001 Edge Shelf
– Coffee Waste Light
24002 Edge Shelf
– Coffee Waste Dark

Country of origin
Latvia

Materials
Coffee shell waste from BKI's coffee roasting process mixed with post-consumer e-waste.

Max. weight load
17 kg (depending on wall material and mounting)

Test
Stability:
EN16121:2013
+A1:2017

Surface resistance:
Category 2, Möbelfakta: 2023
DS/EN 12720 + A1:2023
SS 83 91 22: 2017

Dimensions
W 60 cm x D 21 cm x H 10 cm
/ W 23.6" x D 8.3" x H 3.9"

Weight
1,8 kg / 3.9 lbs

Packaging 1 box / 1 pcs.

Maintenance
Please follow our material cleaning and care guide [here](#)

Mater Sustainability Factsheet

Matek™

Matek®

In alliance with large corporations, Mater explores new technology that recycles industrial fibre and plastic waste. This results in five new unique patented materials under the name Matek®.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

Green energy

This product is produced in a production facility that is 100% powered by hydropower – a renewable energy resource.

Mater Take-Back

We unhesitatingly offer to take all our furniture made from Matek® back at the end of its life to recycle it into new furniture.

Read more about how Mater Take-Back works [here](#)

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.
