Dimensions

Length	2400 mm
Width	1070 mm
Height	740 mm
Solid Oak Table Top Thickness	26 mm
Export Box	2430 x 1100 x 930 mm
Weight (including box)	125 kg

Responsibility

At Brdr. Krüger, sustainable product lifecycle considerations are at the heart of everything we do with focus on benefits for the environment, workers, and end-users. We source high-quality materials from certified sustainable forest management. The manufacturing processes run on low-emission hydropower and waste-to-energy solutions, achieving a near carbon-neutral effect and minimizing our reliance on fossil fuels. Our commitment to traditional craftsmanship and durable design ensures that our furniture is not only timeless but also built to last, contributing to sustainability for future generations.

Test and Certification

This table has been tested for strength, durability, and safety through independent third-party verification in accordance with EN 16139 Level 2, making it suitable for extreme use. The wood is sourced from sustainably managed forests and certified by PEFC through independent third-party verification.

Meeting Regulations

The Clear Oil features a low VOC content and is fully compliant with EU regulations. This product contains no biocides, ensuring a natural and environmentally responsible finish. Worker safety is a high priority, with all processes conducted under controlled conditions in accordance with unions and national regulations.

Maintenance

Please see our Maintenance & Care instructions at www.brdr-kruger.com/maintenance/

Gliders

Felt gliders installed as standard
Plastic gliders available upon request.

Variants

Offered in various oak wood finishes and possible to order in custom sizes.

Materials, Process and Finishing

Handmade in Denmark, the production process combines Brdr. Krüger's highly skilled joinery techniques with modern technology, ensuring precision and lasting quality. Each piece is meticulously hand-sanded in gradual steps to achieve a soft, tactile finish, and treated with a clear oil that enhances the wood's durability while preserving its natural reparability.

Fumed Oak Process

For a deeper tone, the oak undergoes a traditional fuming process, where it is exposed to a small amount of ammonia vapors in a sealed environment for 20 hours. This reaction with the wood's natural tannins enhances the grain structure and deepens the color. As a natural, non-surface-based treatment, no dyes are used, preserving the wood's authentic character. Variations in hue may occur depending on the tannin content of each piece.

Craftsmanship Statement

We support and foster the Danish cultural heritage of craftsmanship by preserving and advancing the traditional techniques nurtured in our family workshop since 1886. This commitment reflects both the preservation of the craft and its evolution through the integration of new techniques, innovation, and design development.

The table is shipped assembled.

Description

The ARV Table is a refined expression of Danish design heritage, originally created for the world-renowned restaurant Noma in Copenhagen. Designed to harmonize with the ARV Chair, the table's dimensions and proportions allow the chair's armrests to slide perfectly under the tabletop, creating a cohesive and elegant dining setting. It becomes a centerpiece suitable for both residential and commercial spaces, embodying strength, beauty, and detailed craftsmanship from every angle.
