452E TOGETHER EXTENDING TABLE

By Studioilse

Studioilse sees design as a way of amplifying our experience of daily life. The Together Table was designed as an extension of the Seating for Eating collective. Rounded ends act as drop leaves, creating a rectangular table when locked underneath. The simple and intuitive extension function utilises a sliding wooden bar. The rounded ends of the table allow for more flexible seating options, encouraging two people to squeeze in at either end for an informal and friendly feeling.

The narrower version physically brings the diners closer, making conversation easier. Together is also available in a wider version for those who require more space.

MATERIALS

TIMBER

Black walnut, white oak, or ash with a choice of a clear Danish oil, white oil, or black oil finish. White oak additionally available oxidised; ash additionally available stained or painted in a choice of 10 colours: black, white, bone, ochre, bordeaux, forest, fjord, bay, lagoon, or cove.

METAL

Copper feet. Brushed copper locking mechanism.

NOTES

Due to limitations of the length of the premium wood planks available, the wood grain and plank placement on the extension leaves does not match that of the table.

The extension bars are centrally located on the hinged ends of the table. To extend, unlock the copper latch by sliding it to the side. Once released, fold the leaf upward, then pull the extension bar fully until it hits the stopper.
