

#### DESCRIPTION

With its gentle curves and honest material expression, Nila is a quietly sophisticated addition to any setting. Its solid wood frame is defined by subtle tapering, a curved backrest, and a refined sense of proportion. Designed for longevity and versatility, Nila's understated elegance works seamlessly across dining spaces, meeting rooms, and contemporary interiors. Explore its versatility further with a choice of solid wood frames in a range of species, and upholstery options in leather or fabric, allowing you to curate the perfect seating solution for your space

#### PRODUCTION PROCESS

The chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair's final appearance.
