## 753 DUET CHAIR - TIMBER SEAT

By Neri & Hu

Duet is named for the two flowing lines of timber that form the overall shape of the chair. Originally created as a variation on the classic Thonet bent-wood tradition, the Duet Chair is actually made from a series of carved wood components, joined with mortise and tenon, creating the appearance of continuous curves, while the visible join lines and beautiful grain patterns reveal the chair's construction. Duet is available with a timber or upholstered seat.
