

DE LA ESPADA

500 BED ONE

By Manuel Aires Mateus

With an emphasis on longevity and the sensory response, Bed One has a quiet, considered form with beautiful functionality and detailing. Utilising astonishingly proportioned planks of Douglas fir timber, the headboard is made from just five wide planks, the wood grain a continuous flow to the platform base. A simple shelf features at the back of the headboard.

MATERIALS

TIMBER

European Douglas Fir with a white oil finish.

NOTES

As a softwood, Douglas fir will mark with regular use. Our care instructions include guidance on how to steam-repair dents in the timber, however we recommend embracing some level of wear and tear as part of the ongoing story and beauty of your Douglas fir furniture.

Knots are naturally present in this timber, lending character to each plank.

California King mattresses will leave a narrower footboard on the bed frame than other mattresses. Please check the dimensions provided.

Platform base is black stained MDF with holes for air circulation.
