

SkLO

Hook & Clasp

MULTI-PENDANT CANOPY

The Hook & Clasp Multi-Pendant Canopy system is designed to enable multiple cord-suspended SkLO pendants to be swagged from a single round canopy to locations independent of the canopy. Each individual pendant is swagged with a fabric-wrapped electrical cord from a hole in the canopy to a hook & clasp assembly, which is fastened directly to the ceiling.

Requires a single recessed electrical box for installation

See list of compatible pendant designs on the right

The number of individual hook & clasp assemblies provided corresponds to the number of holes in the canopy

Individual pendants must be ordered separately – cord lengths are field adjustable – note the standard cord lengths of individual pendants – longer cord lengths available at an additional cost

Made in the Czech Republic
