## CLEANING INSTRUCTIONS

### *Solid Wood*

Use a soft dust cloth wrung out in clean water and gently go over marks until clean. After cleaning, the wood should be dried with a soft cloth to prevent streaks and scratches.

PLEASE NOTE: All of our wood products have a water based clearcoat for further protection.

### *Leather*

If you have a leather item with some marks or stains use a dry, soft bristled brush to remove loose debris from the surface of the leather. Use a lightly damp rag with distilled or bottled water to clean and remove surface dirt. Do not focus on one area, but rather a complete wipe down moving quickly and evenly.
