GRAY / ROUND TABLE, Paola Navone

The GRAY 38 table perfectly balances different materials for a versatile solution. The sculptural, elegantly curved white Millgres central leg can be combined with a slatted walnut or oak top, in white Carrara marble or concrete, pearl colour.

The tops are finished with protective coatings, that never make the surface impervious, but are useful to slow down absorption of liquids. Cleaning: use water and a neutral detergent on the surface. Avoid direct contact with aggressive chemicals substances, solvents, ammonia, inks, oily soaps, lemon, wine, coffee. In case of contact, rinse the surface immediately and thoroughly. White Carrara marble: A naturally compact material, wear and tear resistant, suitable for dining purposes, Carrara marble is treated with a clear matt protective impregnating agent. The presence of micro holes or imperfections is to be considered an intrinsic characteristic of the natural product, claims are not accepted. For the correct maintenance, we suggest to promptly remove any stains from the surface, especially acid substances. Concrete: Tops made from a mixture of cement, polyurethane resin and glass fibre that guarantees an optimal balance of strength, flexibility and durability. Tops made from this composite are additionally protected with a highly resistant two-component polyurethane resin that provides superior protection against wear and stains. Millgres: The resistance to weather agents and to humidity
